Re: **Spur 529 Water Line Extension Project – Easement Request**

Dear Commissioner Morrison,

The City is planning the construction of a much-needed water improvement project along Spur 529 in the City of Rosenberg. As a part of this improvement project, the City will need to obtain a certain easement on property that belongs to Fort Bend County (County). The easement will initially be necessary for the installation of a water line. The easement will also allow for the installation of sanitary sewer lines and/or water reuse lines at a future date. Attached you will find legal description/survey for the tract. Also attached is a map of the overall project that illustrates the location of the requested easement.

The City respectfully requests that Fort Bend County grant an easement for Parcel No. 17 as indicated. Should the County look favorably upon this request, our staff will prepare the required documentation at your direction. We look forward to your response and your cooperation on this Project.

If you should have any questions, do not hesitate to contact me at (832) 595-3310.

Sincerely,

A handwritten signature in black ink that reads "Jack S. Hamlett". The signature is written in a cursive style.

Jack S. Hamlett
