Re: Proposal for Speed Study
Fort Bend Westpark Tollway/FM 1093 Corridor

Dear Dr. Condrey:

We are submitting for your consideration a traffic engineering services proposal for preparing a speed study along the westbound lanes of the Westpark Tollway and FM 1093 from SH 99 to Gaston Road.

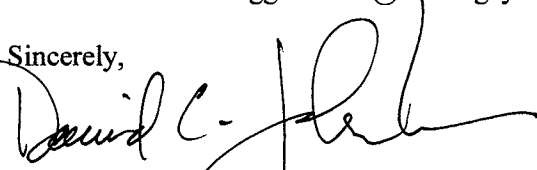

Scope of Services: Conduct a spot speed study, prepare a condition diagram, prepare a collision diagram, and prepare a technical memorandum to determine whether the speed limit can be lowered from 55 to 50 mph on the westbound direction at the Westpark Tollway western terminus or whether other mitigation measures should be installed.

Schedule: 30 calendar days from NTP

Basis of Compensation and Fee: The compensation for this project will be on a lump sum basis and will include all expenses. The total lump sum fee is \$8,000.00, based upon the current scope of work. Any additional costs due to the expansion of the scope of work would require prior authorization by the Fort Bend County Toll Road Authority.

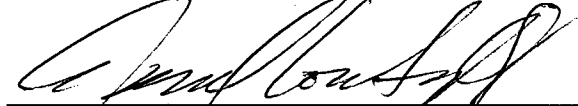

Please indicate your acceptance of our proposal by signing below and returning a signed copy for our files. If you have any questions regarding this proposal, please contact Gary Gehbauer, PE, at 281-558-8700 or via email at ggehbauer@browngay.com.

Sincerely,

David C. Johnston, PE
Senior Vice President

AGREED AND ACCEPTED BY:
FORT BEND COUNTY TOLL ROAD AUTHORITY

James Condrey
Chairman, Board of Directors
