FORT BEND COUNTY, TEXAS

INVESTMENT POLICY

I. INVESTMENT AUTHORITY

This Investment Policy (the “**Policy**”) is adopted by the Fort Bend County Commissioners Court as the governing body of Fort Bend County in accordance with Section 116.112(a), of the Texas Local Government Code and Title X, Chapter 2256, §2256.005 of the Texas Government Code. The County Commissioners shall appoint under Section 2256.005 (f) of the Texas Government Code, the Investment Officer or Officers who, under the direction of the Fort Bend County Commissioners’ Court, may invest the County funds that are not immediately required to pay obligations of Fort Bend County (“the **County**”). The person appointed by Commissioners Court as Investment Officer will hereafter be referred to as “County Investment Officer”.

I.1 Investment Timing Committee

“Investment Timing Committee” is comprised of the County Treasurer, the County Auditor, the County Budget Director, and the County Investment Officer (If other than one of the aforementioned members).

The County Investment Officer will serve as the Chair for the Committee. The committee will meet at least monthly for the purpose of reviewing timing issues applicable to the cash flow needs of the county as related to the types of investments available, rates of return, time to maturity and associated risk factors. The committee’s findings will be advisory, not mandatory, and the Investment Officer will retain responsibility for the investment of the County’s monies.

II. PURPOSE

This policy with respect to Fort Bend County investments establishes policies and procedures that enhance opportunities for the prudent and systematic investment of Fort Bend County funds. The policy directs that the funds of Fort Bend County shall be invested and secured in compliance with the various provisions of Texas law, including the Public Funds Investment Act (Government Code Chapter 2256) (PFIA).

III. SCOPE

This policy will cover all Fort Bend County funds and funds under the direct control of Fort Bend County. These include funds of Fort Bend County, Fort Bend County Drainage District, Fort Bend County Toll Road Authority and Fort Bend County Flood Control Water Supply Corporation, as well as any other funds that may come under the control of the County and that may be legally invested by the County. The County, through the County Investment Officer, acts as an Investment Agent for Fort Bend County Community Supervision and Corrections Department.

IV. INVESTMENT OBJECTIVES

IV.1 General Statement

Funds of the County will be invested in compliance with federal and state laws, this investment policy and written administrative procedures. The County will invest according to investment strategies in Section V for each separate group of funds if different strategies are adopted by a commissioners court resolution.

IV.2 Safety and Maintenance of Adequate Liquidity

In accordance with sound and established practices of investing for Texas counties, safety of principal is a primary objective in any investment transaction. The County's investment portfolio must be structured in conformance with an asset/liability management plan that provides for liquidity necessary to pay obligations as they become due.

IV.3 Diversification

It will be the policy of the County to diversify its portfolio to eliminate the risk of loss resulting from a concentration of assets in a specific maturity (save and except zero duration funds), a specific issuer or a specific class of investments. To achieve this diversification, the County will limit investments in specific types of securities to the following percentages of the total portfolio:

<u>Investment Type</u>	<u>Maximum Investment %</u>
Repurchase Agreements	up to 35%
Certificates of Deposit	up to 50%
U.S. Treasury Bills/Notes	up to 100%
Other U.S. Government Securities	up to 80%
Authorized Local Government Investment Pools	up to 80%
No Load Money Market Mutual Funds	up to 50%
Bankers Acceptances	up to 15%

Investments of the County shall always be selected to provide stability of income and reasonable liquidity. The Investment Officer and County Treasurer may temporarily authorize changes to the above stated maximum investment percentage up to 100% if the investment type is at least 110% collateralized by government agencies or issues. If such changes are made, the Investment Officer and County Treasurer must notify the Investment Advisory Committee.

IV.4 Yield

The yield objective of the County is to earn the maximum rate of return allowed on its investments within the policies imposed by safety and liquidity objectives, the investment strategies for each group of funds and state and federal law governing investment of public funds.

IV.5 Maturity

The maximum allowable stated maturity of any individual investment owned by the county is thirty-six (36) months. Portfolio maturities will be structured to meet the obligations of the County first and then to achieve the highest rate of return of interest.

When the County has funds not required to meet current-year obligations, maturity restraints will be imposed based upon the investment strategy for the group of funds.

IV.6 Quality and Capability of Investment Management

It is the County's policy to provide training as required by the PFIA and other periodic training in investments for the County Investment Officer, County Treasurer and any county employee delegated the authority to place orders for investments. Adequate training will be provided to perform all acts required to acquire, pay for, hold, sell, exchange, tender or collect or account for investments. Training will be provided as required by law for members of Commissioners' Court and other County employees and officers engaged in investment activities or oversight. Such training will be by courses and seminars offered by professional organizations and associations in order to ensure the quality, capability and currency of county investment decisions. The County Investment Officer, County Treasurer (if not the appointed Investment Officer), and any county employee delegated investment authority by the County Investment Officer will be required to obtain County Investment Officer certification through a course offered by the Texas Association of Counties and attend at least twenty (20) hours of investment training each year.

IV.7 Disclosure of Relationships

If the person designated by Commissioners Court as Investment Officer has a personal business relationship as defined by the Public Funds investment Act with any business organization offering to engage in an investment transaction with the County, or if the Investment Officer is related within the second degree by affinity or consanguinity to an individual offering to engage in an investment transaction with the County, the Investment Officer shall file a statement as required by the Public Funds Investment Act with the Texas Ethics Commission, and will annually file the same statement with each member of the Commissioners Court.

If the Investment Officer holds a position as Director or Advisor to any Local Government Investment Pool with which the County is authorized to do business or in which the County may invest, the relationship will be disclosed annually in writing to the members of the Commissioners Court.

IV.8 Method of Monitoring

It will be the policy of the County to purchase investments using a quotation method of purchasing. Except for approved local government investment pools or money market mutual funds, no investments will be purchased for the County without first obtaining quotations from at least three business organizations that have been approved by commissioner's court as broker/dealers. Money for the short term needs of the County may be held in accounts of the depository bank, local government investment pools, or money market mutual funds that qualify under the PFIA and are approved by the Commissioners Court.

V. INVESTMENT STRATEGY

The County will invest according to investment strategies for each fund as they are adopted by Commissioners Court resolution and in the following order of priority. Section 2256.005(6) (2-3), Gov. Code.

A. Safety of Principal

The primary objective of all investment activity is the preservation of capital and the safety of principal in the overall portfolio. Each investment transaction shall first seek to ensure that capital losses are avoided, whether they are from security defaults or erosion of market value.

B. Maintenance of Adequate Liquidity

The investment portfolio will remain sufficiently liquid to meet the cash flow requirements that might be reasonably anticipated. Liquidity shall be achieved by matching investment maturity with forecasted cash flow requirements; investing in securities with active secondary markets; and maintaining appropriate portfolio diversification.

C. Yield

It will be the County's objective to earn the maximum rate of return of its investments within the policies imposed by safety and liquidity objectives, investment strategies for each group of funds and state and federal law governing investments of public funds.

(6) yield.

(e) The governing body of an investing entity shall review its investment policy and investment strategies not less than annually. The governing body shall adopt a written instrument by rule, order, ordinance, or resolution stating that it has reviewed the investment policy and investment strategies and that the written instrument so adopted shall record any changes made to either the investment policy or investment strategies.

(f) Each investing entity shall designate, by rule, order, ordinance, or resolution, as appropriate, one or more officers or employees of the state agency, local government, or investment pool as investment officer to be responsible for the investment of its funds consistent with the investment policy adopted by the entity. If the governing body of an investing entity has contracted with another investing entity to invest its funds, the investment officer of the other investing entity is considered to be the investment officer of the first investing entity for purposes of this chapter. Authority granted to a person to invest an entity's funds is effective until rescinded by the investing entity, until the expiration of the officer's term or the termination of the person's employment by the investing entity, or if an investment management firm, until the expiration of the contract with the investing entity. In the administration of the duties of an investment officer, the person designated as investment officer shall exercise the judgment and care, under prevailing circumstances, that a prudent person would exercise in the management of the person's own affairs, but the governing body of the investing entity retains ultimate responsibility as fiduciaries of the assets of the entity. Unless authorized by law, a person may not deposit, withdraw, transfer, or

manage in any other manner the funds of the investing entity.

(g) Subsection (f) does not apply to a state agency, local government, or investment pool for which an officer of the entity is assigned by law the function of investing its funds.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 685, Sec. 1

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be an investment officer for the commission under Subsection (f) if the officer or employee is an investment officer designated under Subsection (f) for another local government.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 1421, Sec. 3

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be designated as an investment officer under Subsection (f) for any investing entity other than for that commission.

(i) An investment officer of an entity who has a personal business relationship with a business organization offering to engage in an investment transaction with the entity shall file a statement disclosing that personal business interest. An investment officer who is related within the second degree by affinity or consanguinity, as

determined under Chapter 573, to an individual seeking to sell an investment to the investment officer's entity shall file a statement disclosing that relationship. A statement required under this subsection must be filed with the Texas Ethics Commission and the governing body of the entity. For purposes of this subsection, an investment officer has a personal business relationship with a business organization if:

(1) the investment officer owns 10 percent or more of the voting stock or shares of the business organization or owns \$5,000 or more of the fair market value of the business organization;

(2) funds received by the investment officer from the business organization exceed 10 percent of the investment officer's gross income for the previous year; or

(3) the investment officer has acquired from the business organization during the previous year investments with a book value of \$2,500 or more for the personal account of the investment officer.

(j) The governing body of an investing entity may specify in its investment policy that any investment authorized by this chapter is not suitable.

(k) A written copy of the investment policy shall be presented to any person offering to engage in an investment transaction with an investing entity or to an investment management firm under contract with an investing entity to invest or manage the entity's investment portfolio. For purposes of this subsection, a business organization includes investment pools and an investment management firm under contract with an investing entity to invest or manage the entity's investment portfolio. Nothing in this subsection relieves the investing entity of the responsibility for monitoring the investments made by the investing entity to determine that they are in compliance with the investment policy. The qualified representative of the business organization offering to engage in an

investment transaction with an investing entity shall execute a written instrument in a form acceptable to the investing entity and the business organization substantially to the effect that the business organization has:

(1) received and reviewed the investment policy of the entity; and

(2) acknowledged that the business organization has implemented reasonable procedures and controls in an effort to preclude investment transactions conducted between the entity and the organization that are not authorized by the entity's investment policy, except to the extent that this authorization is dependent on an analysis of the makeup of the entity's entire portfolio or requires an interpretation of subjective investment standards.

(l) The investment officer of an entity may not acquire or otherwise obtain any authorized investment described in the investment policy of the investing entity from a person who has not delivered to the entity the instrument required by Subsection (k).

(m) An investing entity other than a state agency, in conjunction with its annual financial audit, shall perform a compliance audit of management controls on investments and adherence to the entity's established investment policies.

(n) Except as provided by Subsection (o), at least once every two years a state agency shall arrange for a compliance audit of management controls on investments and adherence to the agency's established investment policies. The compliance audit shall be performed by the agency's internal auditor or by a private auditor employed in the manner provided by Section 321.020. Not later than January 1 of each even-numbered year a state agency shall report the results of the most recent audit performed under this subsection to the state auditor. Subject to a risk assessment and to the legislative audit committee's

approval of including a review by the state auditor in the audit plan under Section 321.013, the state auditor may review information provided under this section. If review by the state auditor is approved by the legislative audit committee, the state auditor may, based on its review, require a state agency to also report to the state auditor other information the state auditor determines necessary to assess compliance with laws and policies applicable to state agency investments. A report under this subsection shall be prepared in a manner the state auditor prescribes.

(o) The audit requirements of Subsection (n) do not apply to assets of a state agency that are invested by the comptroller under Section 404.024.

Sec. 2256.006. STANDARD OF CARE. (a) Investments shall be made with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived. Investment of funds shall be governed by the following investment objectives, in order of priority:

- (1) preservation and safety of principal;
- (2) liquidity; and
- (3) yield.

(b) In determining whether an investment officer has exercised prudence with respect to an investment decision, the determination shall be made taking into consideration:

(1) the investment of all funds, or funds under the entity's control, over which the officer had responsibility rather than a consideration as to the prudence of a single investment; and

(2) whether the investment decision was consistent with the written investment policy of the entity.

Amended by Acts 1995, 74th Leg., ch. 402, Sec. 1, eff. Sept. 1, 1995.

(d) An investment officer shall attend a training session not less than once in a two-year period and may receive training from any independent source approved by the governing body of the state agency. provided by Subsection (a)(2) by having an officer of the governing body attend four hours of appropriate instruction in a two-year period. The treasurer or chief financial officer of an investing entity created under authority of Section 52(b), Article III, or Section 59, Article XVI, Texas Constitution, and that has fewer than five full-time employees is not required to attend training required by this section unless the person is also the investment officer of the entity.

(c) Training under this section must include education in investment controls, security risks, strategy risks, market risks, diversification of investment portfolio, and compliance with this chapter.

(d) Not later than December 31 each year, each individual, association, business, organization, governmental entity, or other person that provides training under this section shall report to the comptroller a list of the governmental entities for which the person provided required training under this section during that calendar year.
