Re: Final Plat for Kensington at Riverstone Section 1 - Front Building Line Variance Request
City of Missouri City E.T.J. - Fort Bend Co. MUD No. 129
CI Job No. 2011176-10

Dear Mr. Stolleis and Mr. Patterson:

On behalf of Riverstone Development, we have submitted the final plat for Kensington at Riverstone Section 1 to Fort Bend County for consideration and approval at the next available Commissioners Court meeting. This final plat has been approved by the City of Missouri City planning commission. We request a variance to the Fort Bend County subdivision standard of a 25-foot front building line to allow a 15-foot front building line in this section of development. In this section of development, the builder is proposing to construct patio homes. The buyers of these types of homes expect a smaller front yard and a zero side lot set back on one side of the lot (defined by the Plat). This is the third section of patio homes being offered for sale in Riverstone and is replacing the sold out section of Meridian Park and the nearly sold out section of Nandina.

We respectfully request your consideration and approval of this variance request. Should you have any questions, please feel free to contact me.

Sincerely,
Costello, Inc.

Chad E. Hablinski, P.E
Project Manager
