

NWN Executive Advisory Council

Thurs. Nov. 8 – Fri. Nov. 9, 2012

Washington DC Area (Chevy Chase, MD)

2012 NWN Executive Advisory Council

The NWN Leadership Team looks forward to spending time with you again at our annual Executive Advisory Council meeting. This year we will take an in-depth look at the future of information technology across four important domains - the industry, technologies, leadership and workforce. As a group, we will discuss:

- What the future holds in each domain

- What changes in these domains will mean to you and your organization

- What we need to do to be effective, given these changes

Special Guests

In addition to the NWN leadership team, we will be joined by several industry experts. These experts will share experience, insight and advice related to the future of the industry, technologies, leadership and workforce.

Carlos Dominguez

Senior Vice-President, Office of the Chairman and CEO, Cisco

Carlos Dominguez is a Senior Vice-President at Cisco and a technology evangelist, speaking to and motivating audiences worldwide about how technology is changing how we communicate, collaborate, and especially how we work.

Dominguez gives humorous, highly animated presentations full of deep insight into how technology, and the right culture, can create winning companies. Drawing from his 20 years at Cisco, he talks about how technology is changing the rules of business and how to not get left behind.

Dave Buchholz

Director of Consumerization and Principal Engineer, Intel

Dave Buchholz joined Intel in 1996 and is a technology evangelist at Intel IT where he is responsible for the investigation of future client technology adoption and engineering for approximately 100,000 clients. With 17 years of experience, Buchholz specializes in client OS, applications, imaging and virtualization/streaming technologies.
