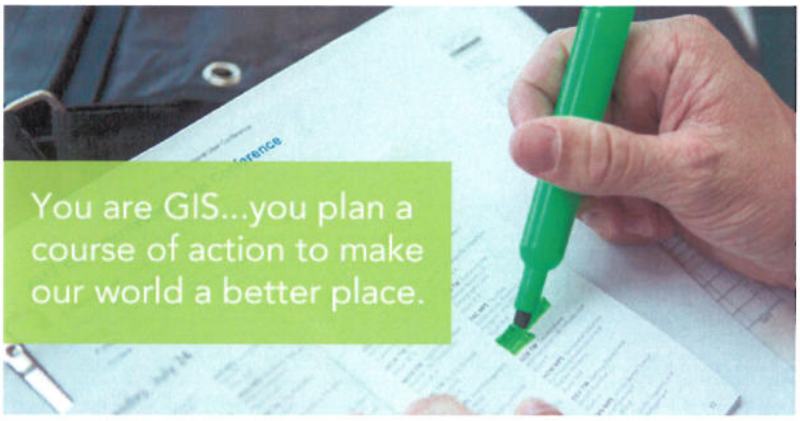
Esri International User Conference

Main Agenda Sessions Exhibits Networking Community Registration Hotels My UC

Agenda at a Glance



Your 2013 conference experience will be unlike any you have ever had. The Esri UC is the world's only event that covers the entire spectrum of the geospatial industry, bringing together social, economic, business, and environmental leaders who are redefining how people work together at every scale.

Check back often as we continue to add new speakers, sessions, and topics to the 2013 UC lineup.

Stories of UC

Fantastic conference in a wonderful setting. It is truly an event. As a first-time attendee, I am hooked and look forward to attending next year.

-Adrian VerHagen, Land Survey Technician, U.S. Bureau of Reclamation

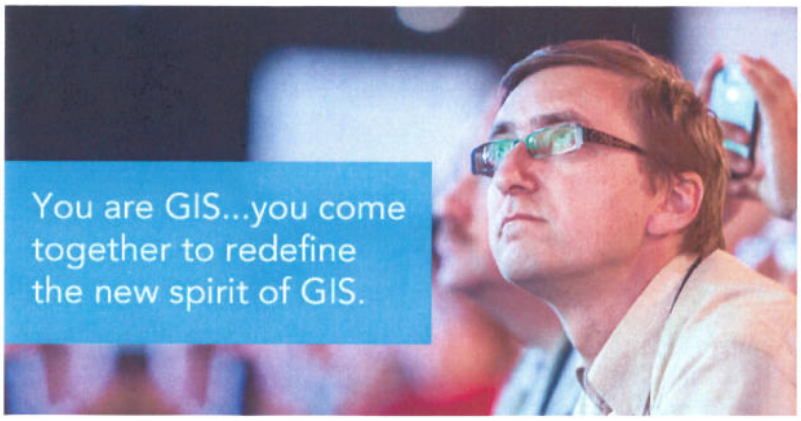
Esri International User Conference

Main Agenda Sessions Exhibits Networking Community Registration Hotels My UC

Sessions



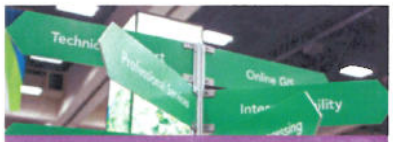
The Esri UC is where you can spend five days experiencing over 900 GIS success stories, best practices, and real world projects from some of the brightest minds in GIS that all have one thing in common—they are all Esri users just like you.

This year promises to be even more informative and dynamic as presenters concentrate on mobile devices, cloud based computing, GIS workflows, data management, and new features that improve the efficiency of your solutions.

Plenary Keynotes

Envision the future from today's geospatial leaders and bring back new innovative ideas to keep your organization on the cutting edge.

- Inspiration and vision from Jack Dangermond, Esri president
- Interactive technical keynotes demonstrate the latest ArcGIS system features.
- Keynotes by global leaders who are embracing GIS to transform their organizations.



Technical Workshops

Increase the return on your software investment by gaining new technical skills including:

- Using new ArcGIS 10.1 features
- Working with ArcGIS Online
- Integrating 3D imagery
- Creating and sharing web apps
- Scripting and coding tips
- Managing your data
- Connecting your organization

Moderated User Sessions

Stories of UC

The technical workshops offered at the conference were outstanding and full of immediately useful information. I can't wait to return to San Diego for next year's conference!

-Christopher Stueve, Planning Technician, Ozarks Transportation Organization

Let us know how we can help or check out the Frequently Asked Questions »

Gain insights into real-world applications of GIS best practices and world class solutions from more than 26 industries across a blue sky of GIS topics.

Explore innovative new ideas to complete a current project or inspire a new solution for a future GIS project. Prepare to be amazed as fellow Esri users present 20 slides in just five minutes.

Preconference Seminars

Come early and attend focused workshops that will help you master and implement the latest GIS techniques and technologies. Review the agenda and get signed up.

GIS Managers' Open Summit

Join this unconference event for decision makers, business managers, and technology strategists.
