October, 2013

Lamar Consolidated Independent School District is very much in support of the grant proposal, The Parent Project. It is viewed as yet another opportunity to partner with Fort Bend Juvenile Detention in effort to make our students and families stronger. It is well documented that early intervention to risky behaviors and collaboration between schools, parents and local agencies leads to greater success of all students.

This project will be yet another opportunity for our local community to work together to change negative student behaviors. The past several years of Fort Bend Juvenile and Lamar Consolidated Independent School District working together has made a positive impact on our students and families. We see this as yet another opportunity in this long standing goal to better our community.

Sincerely,

A handwritten signature in black ink, appearing to read "Rhett S. Gray", is written over a horizontal line.

Rhett S. Gray

Administrator, Special Programs

Lamar Consolidated Independent School District
