FOSTER ISLAND ROAD BRIDGE
COSTELLO, INC
ENGINEERING PROGRESS SUMMARY 1
June 19th – June 30th, 2014

Accomplishments

Review of Latest TxDOT Bridge Inspection

1. All tasks have been completed.

Initial Bridge Inspection and Inventory

1. Inventory of existing structure completed
2. Inspection of accessible bridge elements completed

Outstanding Issues

1. Initial Inspection – As of June 30th we have not had access to bents 3 and 4 to inspect the timber piling.
2. Recommendations – Once access to bents 3 and 4 has been accomplished Costello will review the information from the initial bridge inspection, analyze the existing structural elements to determine the existing load capacity of the bridge, and provide recommendations to upgrade the existing bridge.
3. Final Inspection – After repairs and upgrade recommendations have been completed Costello will perform a final inspection on the bridge and determine its new load capacity.
