AND THE WINNER IS...

Thanks for helping us decide on the look for Esri UC. You make us look good!

We look forward to seeing you June 27 - July 1, 2016

WHY ATTEND

Boost your skills by attending a preconference seminar, technical workshop, paper session or demo theater presentation. Meet others in Special Interest Group and solution provider meetings. Learn something new at the Map Gallery. Do yoga. Run a 5K. Attend a party. There's even a kids fair for those next generation geographers! This is your front row seat to learn the next big thing in GIS. Don't miss it!

LOCATION AWARE

Unlock location in your data so you

BIG DATA

Find context in content when you use

can understand where everything is, what's near, and how it is all connected.

geography to accumulate and aggregate massive amounts of structured and unstructured data.

3D

Make the complex easy to understand in a much more realistic manner when you apply 3D visualization to your design solutions.

SPATIAL ANALYSIS

Detect and quantify, find hot spots and outliers, make predictions and measure and distribute. Do more than just place dots on maps.

SPEAKERS

We're pulling back the curtain. Come and hear from the people who create Esri software and data. Share your experiences, give us feedback and find out what's next in the ArcGIS platform.

SUD MENON

JIM MCKINNEY

Director of Software Development
