WHEREAS, the FBCTRA desires for the Contractor to provide environmental services for the "Project",

NOW, THEREFORE, in consideration of the mutual covenants and conditions set forth below, the parties agree as follows:

## **AGREEMENT**

#### 1. General

The Contractor shall render professional services to FBCTRA related to the Project as defined in the Scope of Services in Attachment A.

The standard of care for all professional services performed or furnished by Contractor under this Agreement will be the care and skill ordinarily used by members of Contractor's profession practicing under similar conditions at the same time and in the same locality.

## 2. <u>Compensation and Payment</u>

a. The Maximum Compensation under this contract is \$177,071.50. The amount paid under this Agreement may not exceed the Maximum Compensation without an approved change order.

Compensation for the performance of services within the Scope of Services described in Attachment A will be paid an amount not to exceed \$177,051.50, as shown in Attachment B. Progress payments for work detailed in Attachment A will be made when the Contractor has attained a level of completion equal to or greater than agreed upon milestones of completion in the reasonable opinion of FBCTRA.

The Contractor shall furnish satisfactory documentation of such work (e.g. timesheets, billing rates, classifications, invoices, etc.) as may be required by FBCTRA.

- b. All performance of the Scope of Services and any Additional Services including changes in the contractual scope of work and revision of work satisfactorily performed, will be performed only when approved in advance and authorized by the FBCTRA, and Additional Services will be reimbursed based on the billing rates in effect at that time, to the extent that such labor costs, and subcontracts are reasonable and necessary for the performance of such services. Out-of-pocket expense costs may be reimbursed only when approved in advance and authorized by the FBCTRA. Payment will be made on the basis of project completion certificate and, for Additional Services, time and expense records and in accordance with those payment procedures set forth in subparagraph d. below. Billing rates will be inclusive of all direct labor, fringe benefits, general overhead, and profit.
- c. Where subcontractors are employed by the Contractor to perform additional services not within the original Scope of Services, the Contractor will be reimbursed for subcontractors' actual salaries and hourly rates, including overtime rates. Reimbursement to the Subcontractor for non-salary costs incurred by subcontractor will be on the same basis as if the cost was incurred by the Contractor. For subcontractors employed for the convenience of the FBCTRA, the Contractor will be paid a subcontract administrative fee equal to ten percent (10%) of all subcontractor invoiced amounts.
- d. It is understood and agreed that monthly payments will be made to the Contractor by the FBCTRA based on the following procedures: On or about the fifteenth day of each month during the performance of services hereunder and on or about the fifteenth day of the month following completion of all services hereunder, the Contractor shall submit to the FBCTRA two (2) copies of invoices showing the amounts due for services performed during the previous month, set forth separately for work under this Agreement and for additional services (accompanied by supporting certified time and expense records of such charges in a form acceptable to the FBCTRA.) It is specifically understood that any requests for travel reimbursements shall comply with those procedures for travel reimbursement to Fort Bend County employees established by the Fort Bend County Auditor. The FBCTRA shall review such invoices and approve them within 30 calendar days with such modifications as are consistent with this Agreement and forward same to the Auditor. The County shall pay each such invoice as approved by the FBCTRA within thirty (30) calendar days after the FBCTRA's approval of same.

## 3. <u>Time of Performance</u>

It is understood and agreed that the time for performance of the Contractor's services under this Agreement shall begin with receipt of the Notice to Proceed and end December 31, 2018.

## 4. The FBCTRA's Option to Terminate

- a. The FBCTRA has the right to terminate this Agreement at its sole option at any time, with or without cause, by providing 30 days written notice of such intentions to terminate and by stating in said notice the "Termination Date" which shall be less than 30 days later than the actual receipt of such written notice by the Contractor. Upon such termination, the FBCTRA shall compensate the Contractor in accordance with paragraph 3, above, for those services which were provided under this Agreement prior to its termination and which have not been previously invoiced to the FBCTRA. The Contractor's final invoice for said services will be presented to and paid by the FBCTRA in the same manner set forth in paragraph 2(b), above.
- b. Termination of this Agreement and payment as described in subparagraph (a) of this Paragraph shall extinguish all rights, duties, obligations, and liabilities of the FBCTRA and the Contractor under this Agreement and this Agreement shall be of no further force and effect, provided, however, such termination shall not act to release the Contractor from liability for any previous default either under this Agreement or under any standard of conduct set by common law or statute. The obligations in Paragraph 6 shall survive the termination of this Agreement.
- c. If the FBCTRA terminates this Agreement as provided in this paragraph, no fees of any type, other than fees due and payable at the Termination Date, shall thereafter be paid to the Contractor.
- d. The FBCTRA's rights and options to terminate this Agreement, as provided in any provision of this Agreement shall be in addition to, and not in lieu of, any and all rights, actions and privileges otherwise available under law or equity to the FBCTRA by virtue of this Agreement or otherwise. Failure of the FBCTRA to exercise any of its said rights, actions, options or privileges to terminate this Agreement as provided in any provision of this Agreement shall not be deemed a waiver of any rights, actions or privileges otherwise available under the law or equity with respect to any continuing or subsequent breaches of this Agreement or of any other standard of conduct set by common law or statute.
- e. Copies of all completed and partially completed documents prepared under this Agreement shall be delivered to the FBCTRA within 30 days or upon Contractor's receipt of termination payment, whichever is sooner, when and if this Agreement is terminated.

## 5. <u>Inspection of the Contractor's Books and Records</u>

The Contractor will permit the FBCTRA, or any duly authorized agent of the FBCTRA, to inspect and examine the books and records of the Contractor for the purpose of verifying the amount of work performed on the Project. FBCTRA's right to inspect survives the termination of this Agreement for a period of four years.

## 6. Ownership and Reuse of Documents

All documents, including original drawings, estimates, specifications, field notes, and data created, produced, developed or prepared by Contractor or its approved outside advisory or support consultants (collectively, the "Documents") shall be the property of the FBCTRA subject to all of the following terms and conditions; provided, however, FBCTRA shall not own and shall have no right to receive any documents not deemed "final" by the Contractor until termination of this Agreement. Contractor will deliver the Documents to FBCTRA within 30 days of the termination of this agreement and may retain a set of reproducible record copies of the Documents, provided that the Contractor has received full compensation due pursuant to the terms of this Agreement. It is mutually agreed that FBCTRA will use the Documents solely in connection with the Project and for no other purposes, except with the express written consent of the Contractor, which consent will not be unreasonably withheld. Any use of the Documents without the express written consent of the Contractor will be at District's sole risk and without liability or legal exposure to Contractor.

FBCTRA shall also be the owner of all intellectual property rights of the services rendered hereunder, including all rights of copyright therein. It is the intention of Contractor and FBCTRA that the services provided are a "work for hire" as the term is used in the federal Copyright Act. Moreover, Contractor hereby agrees to assign, and by these presents, does assign to FBCTRA all of Contractor worldwide right, title and interest in and to such work product and all rights of copyright therein.

Contractor agrees that all trademarks, trade names, service marks, logos, or copyrighted materials of FBCTRA that Contractor is permitted to use in connection with the services will not be used without FBCTRA's consent and shall remain in the sole and exclusive properties of FBCTRA and this Agreement does not confer upon Contractor any right or interest therein or in the use thereof.

### SCOPE OF SERVICES

The scope of services to be performed consists of providing environmental services for the future extension of the Fort Bend Parkway Toll Road from Sienna Parkway to FM 2759. The work tasks include all required reviews and submittals necessary to obtain permits for the future construction of the project.

## Part 1

- 1) Wetland Delineation of 3.25 miles of ~400' wide Fort Bend Parkway Toll Road ROW (approx. 160 acres).
- 2) Threatened and endangered species survey.
  - \*2a) Species specific surveys (mussels within the Brazos River or Flat Bank/Steep Bank Creek).
- 3) Cultural Resources Survey A detailed review of previous surveys and previously identified sites will be conducted within and adjacent to the road ROW. Specific recommendations can be generated from this detailed review to compliment design strategy.
- 4) Phase I Environmental Site Assessment A Phase I ESA identifies potential or existing environmental contamination liabilities on properties. The actual sampling of soil, air, groundwater and/or building materials is not conducted during a Phase I ESA. The study involves a detailed database search and visual surface inspection of the property.

These initial surveys will allow us to discuss project construction with the team and make educated and professional judgement calls moving forward and hopefully get the project to be a Nationwide Permit.

## Part 1 Deliverables

- 1) Wetland Delineation Report: Documenting the existing soils, hydrology, vegetation, and quantification of all jurisdictional areas within the surveyed areas. This report will be complete with all USACE Routine Data Sheets and associated maps needed for submission to the USACE for review.
- 2) Threatened and Endangered Species Report: Includes relevant information regarding federally listed threatened and endangered species occurring in or adjacent to the project site and the likelihood of the project affecting said species.
- 3) Cultural Resources Survey Report: Will use a desktop and available resources investigation to determine the presence of past archeological surveys and any significant findings, providing potential details regarding project impacts.

4) Phase I ESA: A Phase I ESA report will be supplied to the Client. This will document findings based upon field survey and available historical database search.

#### Part 2

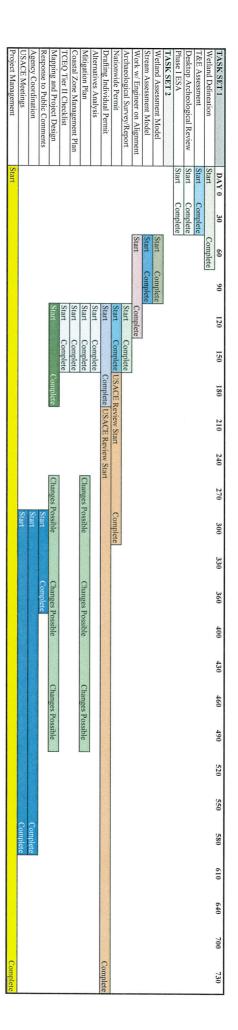

The remaining tasks will need to be completed as required for permit submission but can be completed and initiated at any time following the completion of Part 1 and initial project design.

- 1) Wetland assessment modeling Conducting hydrogeomorphic (HGM) analysis Numerically evaluate and score all wetlands proposed to be impacted by the project with current design plans. This also provides and determines appropriate mitigation crediting if needed.
- 2) Stream assessment tool
  - \*2a) Level 1 (GDSAT) This will be used to evaluate and numerically score the creeks and river crossings if needed based on design of the project. This will be used if detailed analysis of the river is not required.
  - \*2b) Level 2 analysis of the Brazos River. This requires the use of a boat, electro-fishing equipment, invertebrate sampling, and other water quality measurements not associated with Level 1. This will be used if detailed analysis of the river is required.
- 3) Pedestrian Archaeological Survey Field survey to investigate the project alignment and its potential to impact historic or culturally significant features.
- 4) Permitting this will be determined based on project impacts.
  - \*7a) Nationwide permit. This is implemented if impacts to jurisdictional areas are less than 0.50 acres.
  - \*7b) Individual permit. This will be used if impacts to jurisdictional areas are greater than or equal to 0.50 acres.
- 5) Categorical Exclusion A NEPA document, utilized for the potential connection/extension of FM 2759 and the proposed FB Toll Road.
- \* These tasks will only be performed if they are determined to be necessary.

#### Part 2 Deliverables

1) Section 404 Clean Water Act and Section 10 Rivers and Harbors Act permit: In the form of either a Nationwide Permit or an Individual Permit. This permit will document relevant regulated features and describe the project, its impact to said features, and proposed mitigative options to off-set impacts. Included with these deliverables will be all products associated with the development and submission of a Section 404/10 permit, (maps, project drawings, and all other required appendices).

- 2) Pedestrian Archaeological Survey Report: A full report on the findings of the field survey described above, including submission and coordination with Texas Historical Commission.
- 3) Categorical Exclusion: Full preparation and submission of a CE document if needed for the extension of FM 2759.
