

IN THE MATTER OF TRANSFERRING OF BUDGET SURPLUS OF FORT BEND COUNTY
FOR THE YEAR 2016

On this the 22 day of March 2016, the Commissioners' Court, with the following members being present:

Robert E. Hebert	-	County Judge
Richard Morrison	-	Commissioner Precinct #1
Grady Prestage	-	Commissioner Precinct #2
Andy Meyers	-	Commissioner Precinct #3
James Patterson	-	Commissioner Precinct #4

The following proceedings were had, to-wit,

THAT WHEREAS, theretofore, on September 22, 2015, the Court heard and approved the budget for the year 2016 for Fort Ben County; and

WHEREAS, on proper application, the Commissioners' Court has transferred an existing budget surplus to a budget of a similar kind and fund. The transfer does not increase the total of the budget.

The following transfers to said budget are hereby authorized:

Department Name: F.B.C. Constable Precinct 3 Accounting Unit: 100550300

TRANSFER TO:

ACCOUNT NAME	ACCOUNT NUMBER	AMOUNT
Information Technology	65000	\$ 300
TOTAL TRANSFERRED TO:		\$ 300

TRANSFER FROM:

ACCOUNT NAME	ACCOUNT NUMBER	AMOUNT
Property & Equipment	64000	\$ 300
TOTAL TRANSFERRED FROM:		\$ 300

EXPLANATION: This will enable our office to have available funds to purchase 1 Desktop Computer Hard Drive
This hard drive will serve as a back-up to main hard drive and prevent accidental or inadvertent loss of data:HD, 2TB, S3, 7.2,
Hit-Mariner .

Department Head: Frank Campa Jr Date: March 15, 2016

Reference : L3 Video Server

Lt Cempa, Sgt Hill,

As you both are aware we have been having troubles with the server that is used for the storage of "in vehicle audio and video storage". It has been determined that a component described as a "raid controller" had failed. The raid controller was bypassed temporarily and the server is now working. Dell Computers has provided a new raid controller board as no charge since the server is still under warranty until January 10, 2018.

The raid controller is used when a computer has two internal hard drives. Currently this server only has one internal hard drive. And as it sits there is actually no need for a raid controller.

It is my recommendation that the new raid controller be installed, and a second internal hard drive be purchased and installed. This will create a system that will automatically create a backup of the primary hard drive on the secondary hard drive in the event that there is a failure. This will prevent the loss of any audio or video that may be required as evidence for prosecution.

The following information has been provided by Dell Computers so that we may purchase the identical hard drive that is currently installed in the server.

Here is the part number and information of the currently installed hard drive.

NMT49

Description: HD,2TB,S3,7.2K,HIT-MARINER

**Capacity(GB) : 2000 **DUP : NA **Encrypted Drive : No **FormFactor : 3.5 **Format Type : 512b (512 Native) **Free Fall Sensor : NA **Interface : SATA3 **Native Command Queue : Yes **RPM : 7200
**Type : HARDDRIVE *Cache (MB) : 64 *Placement : Internal

Dell Computers stated that this hard drive should be able to be purchased at any computer store for less than \$100.00.

Our "IT" department stated that they can install and configure this without any problems.
