Re: Fort Bend County, Texas; X00F30401; No-cost Extension

Dear Ms. Hurst:

Fort Bend County (the "County") is requesting a third, no-cost extension for EPA Assistance Agreement (the "Agreement") which is currently set to expire on June 30, 2016. Due to construction delays, including heavy rains and contractor delays, the project cannot be completed within the current projected schedule.

The City of Arcola is currently working on the last reimbursement request for their portion of grant funds. Fort Bend County Fresh Water Supply District # 1 (the District #1) has utilized \$29,994.96 of its allotted \$239,000 associated with this grant. It is anticipated that District #1 can complete their portion of the project by June 30, 2017.

The following is the revised work plan schedule for District #1:

Project 1 – Phase 3 Water Service Lines

Construction Phase – estimated start date, August 2016  
Construction Phase – estimated completion date, January 2017  
Estimated EPA Funds to be used in this project = \$165,000

Project 2 – Phase 2 Water Service Lines

Construction Phase – estimated start date, November 2016  
Construction Phase – estimated completion date, April 2017  
Estimated EPA Funds to be used in this project = \$44,000 (or remaining EPA funds after completion of Project 1)

The County has submitted reimbursement requests reflecting 48% completion of the grant funding. The infrastructure improvements for the Fresno/Arcola area continue to progress and some residents are beginning to receive fresh, clean water delivered through the new infrastructure. Thank you for considering our request and we look forward to hearing from you.

Sincerely,

A handwritten signature in blue ink that reads "Robert Hebert".
