**Public Health Volunteer Coordination Contract
For
Fort Bend County Health and Human Services
2017**

This Contract is executed by and between **FORT BEND COUNTY, TEXAS**, hereinafter referred to as "County," acting by and through its Commissioners' Court and **HOMELAND PREPAREDNESS PROJECT**, hereinafter referred to as "HPP", authorized to conduct business in the State of Texas.

Term:

This contract will commence upon execution of all parties to this Contract and shall terminate on December 31, 2017. This Contract is subject to termination by any party, without cause, by providing thirty (30) days written notice. This contract may be renewed annually by mutual agreement of the parties in writing.

This Contract is subject to the terms described herein.

Background:

Ft. Bend County Health and Human Services is required by the State of Texas to be prepared to provide preventive medication to the entire population of the county in a 48-hour period in the case of a public health emergency. The Health and Human Services Public Health Preparedness Team (PHPT) has developed a plan to accomplish this task that requires approximately 4000 volunteers.

Volunteers are essential to achieve a successful outcome, however, recruiting of volunteers is very time consuming and labor intensive.

The volunteers have also been used for a variety of other activities including staffing alternative treatment centers, offsite triage, shelters or other types of activity for which they are trained.

The Houston Area Urban Area Security Initiative Community Preparedness Working Group has recognized the need for the enhancement of Medical Reserve Corps programs in our region and has provided funding to that end.

Over the past eight years, HPP has developed a Corp of 2975 Medical Reserve Corps Volunteers. After consultation with the PHPT, we believe with this base of volunteers the focus of our efforts should now turn to improving the capability of these volunteers so that they can perform in leadership roles during a public health emergency. To that end, we will provide more in-depth training to the volunteers while continuing to recruit new members in a more limited fashion.

Operational Requirements:

When deployed, the Public Health Volunteers will report to a predetermined site, be issued identification items, and be assigned to various tasks required for the operation of one of the Points Of Dispensing or other tasks. Most of these tasks require no medical background and very limited training. Homeland Preparedness Project will not be responsible for any medical training. Homeland Preparedness Project will promote the use of the ESARVHP program for credentialing purposes and encourage current and future licensed medical volunteers to register in the system. When deployed, all volunteers will be under the direction and control of the PHPT.
