About

As public health professionals looks towards the next two decades, one thing is certain, the world will not look the same as it does today. Our changing environment, technological innovation and increasing population density in urban areas are just some of the driving forces that will test our ability to take actions to prepare, respond,

and recovery from disasters. The focus of the 2017 Preparedness Summit is to explore the factors driving change in our world, analyze how they will impact the future of public health preparedness, and identify opportunities we have *today* to drive action toward meeting our future needs.
