
About CommunityLIVE

September 17-21, 2017 | The Venetian, Las Vegas

CommunityLIVE will bring together 2,000+ OnBase, ShareBase and LawLogix end users, developers, executives and experts from industries all around the world.

More than just a user conference, CommunityLIVE is the one place to go to learn how every department in your organization can work better, smarter and faster.

- Network with peers in similar industries and departments
- Learn how other customers optimize their business processes

Get hands-on experience with the latest innovations

Connect with Hyland executives, experts and developers

Attend targeted sessions and training classes for all levels of OnBase, ShareBase and LawLogix knowledge

Why Attend?

CommunityLIVE is the best place to enhance your OnBase, ShareBase and LawLogix experience. You'll learn more about the products you use and best practices for process improvement from product experts and your colleagues in these few days than you ever thought possible. Watch the video to see what our attendees have to say and read our five great reasons to attend:

Choose your own adventure: With more than 300 sessions to choose from, you'll be able to tailor your

1. conference experience to suit your needs. Select sessions specific to your industry, your solutions or your learning level.You'll also get to hear from other customers about how they've been utilizing OnBase, ShareBase and LawLogix.

2. **Talk to strangers:** Discovering new ways to grow your solutions may be as easy as introducing yourself to another attendee. While it's certainly important to hear from colleagues within your industry who use similar solutions, it is equally important to talk with those from different industries who use different solutions. Talking with peers who've been using OnBase, ShareBase and LawLogix creatively for years is a priceless learning opportunity!

3. **Give us your two cents:** Each year, we release a new version of our software – and most of the solution's enhancements are largely based on customer feedback. In many cases, the included features come directly from the user community via the enhancement committees that meet during CommunityLIVE.

4. **Meet and mingle:** More than 300 Hyland employees will be onsite at our annual conference. Every single one is committed to helping you have a successful conference experience. Meet formally and informally with solution and technical resources – and rub elbows with a very approachable Hyland executive team to find quick answers to your questions.

5. **Optimize your time in Las Vegas:** Take advantage of our hands-on, pre-conference training classes on Sunday and Monday to meet your technical, project training and OnBase certification requirements.
