RE: OverDrive as a sole source provider

Dear Ms. Thiim:

OverDrive uniquely provides a series of services and digital content materials that enable public libraries to lend popular audiobooks, eBooks, streaming video and other digital content via the library's website on a single platform.

Uniquely available only from OverDrive as a sole source provider, we offer a system that combines:

- A customized website service for accessing and downloading digital materials integrated with the library's ILS system for real-time patron authentication
- OverDrive is the only digital library vendor selling high quality fixed format and read-along ePUB3 content from top trade houses
- OverDrive is the only digital library lending provider that offers downloads in the Kindle format and compatibility with all generations of the Amazon Kindle, the most popular and widely used eReading device on the market
- OverDrive's proprietary browser-based formats (OverDrive Read and OverDrive Listen) are the industry's only browser-based formats that can cache the content for offline usage and does not require active internet connection to read/listen to the digital content
- Exclusive library lending rights to the *Fantastic Beasts and Where to Find Them Hogwarts Library Edition* audiobook from Pottermore
- OverDrive *uniquely* offers a Local Content feature for libraries, providing the ability to upload locally-produced and self-published digital content into the platform for lending to their patrons, with lending policies set by the library
- Download eBooks capable of operating on portable devices such as iPads, Chromebooks, Nooks, Windows Mobile, as well as all generations of Amazon Kindle (*exclusive to OverDrive*)
- OverDrive's proprietary browser-based formats (OverDrive Read and OverDrive Listen) are the industry's only browser-based formats that are able to cache the content for offline usage and does not require active internet connection to read/listen to the digital content
- OverDrive uniquely offers a multi-lingual user interfaces option for the patron to choose from directly on the patron-facing website, with over a 15 different language options available
- OverDrive APIs, available via the OverDrive Developer Portal, allow for deep integration of digital content with library discovery tools
- Control for the library to set digital book lending policies and manage access and usage of materials, as well as a "Recommend to Library" feature for patrons to submit purchase suggestions
- OverDrive apps for Windows and MACs, a single integrated desktop client software application for use of download audiobooks, music and video
- Download audiobooks with accessibility features for the blind and visually impaired
- OverDrive MP3 Audiobooks compatible with MAC/OS, iPods and other Apple devices

As a result of the combination of the above referenced items, as well as OverDrive, Inc.'s continued innovation, library market leadership, proven success and secret processes, OverDrive, Inc. is the sole vendor to offer these unique services and sought after materials. Please do not hesitate to contact me for further information.

Very truly yours,
