 - "Agreement" this Software License and Maintenance Agreement effectively made between Trapeze and Licensee, and the attached exhibits, all of which form an integral part of this Agreement;
 - "Confidential Information" all information obtained by the parties from each other under this Agreement, but does not include any information which at the time of disclosure is generally known by the public.
 - "Documentation" the user documentation and training materials pertaining to the Software as supplied by Trapeze;
 - "Software" the certain software as identified in Exhibit A of this Agreement;
 - "Source Code" the Software, including all appropriate programmer's comments, data files and structures, headers, files, macros, annotations, and documentation;
 - "Statement of Work" the specifications for the services to be provided by Trapeze and the Licensee, attached hereto as Exhibit C;
 - "Trade Secrets" the Software, Documentation, and other related information (including all modifications of the Software developed for Licensee) disclosed to Licensee under this Agreement, including trade secrets and other confidential and proprietary information of Trapeze;
 - "Upgrades" generic enhancements to the Software that Trapeze generally makes available as part of its long term software support program.
2. **Software License** In consideration of payments to be made by Licensee to Trapeze as set out below, Trapeze agrees as follows:
 - (a) Trapeze hereby grants to Licensee a personal, non-transferable, non-exclusive license to use a production copy of the object code version of the Software in the form supplied by Trapeze and on hardware approved by Trapeze as of the License Date referred to in Exhibit A ("License Date"), restricted to the places of business of the Licensee, for the Licensee's own operations, in accordance with the operational characteristics described in Exhibit A.
 - (b) Trapeze hereby grants to Licensee a personal, non-transferable, non-exclusive license to use the Documentation, but only as required to exercise the license granted herein.
 - (c) Licensee may make one back-up copy of the Software. Licensee may use the production copy of the Software solely to process Licensee's own data, and the software may not be used on a service bureau or similar basis to process data of others.
 - (d) The license to use the Trapeze Malteze Transit Database is granted to Licensee solely for the development of internal reports by Licensee and for the integrated operation of Trapeze software components. Unless expressly included herein, all other access rights to the Trapeze

Malteze Transit Database are excluded from this Agreement, and the Licensee shall not develop or use, or authorize the development or use of, any other interfaces to or from the Trapeze Malteze Transit Database.

- (e) Other than the rights of use expressly conferred upon Licensee by this paragraph, Licensee shall have no further rights to use the Software or the Documentation, and shall not copy, reproduce, modify, adapt, reverse engineer, disassemble or translate them, without the express written authority of Trapeze.

3. Software Services In accordance with the terms of Exhibit B and Exhibit C, Trapeze will perform services related to Licensee's use of the Software (the "Services"). Such services may include installation, modification, testing, training and additional services. Such Services shall be coordinated with the Fort Bend County Information Technology Department.

Trapeze warrants that each of its employees, independent contractors, or agents assigned to perform the Services or provide any technical assistance in configuration, development and implementation, training, use and related services under the terms of this Agreement shall have the skill, training, and background reasonably commensurate with his/her level of performance or responsibility, so as to be able to perform in a competent and professional manner. Licensee reserves the right, in its reasonable discretion, to request the removal of any Trapeze personnel from work under this Agreement.

4. Independent Contractor Trapeze is an independent contractor whose employees or agents will not be deemed to be employees or agents of the Licensee for any purpose. Trapeze is solely responsible for withholding all federal, state and local taxes, if any, from such employees' or agents' compensation and for providing its own compensation and liability insurance coverage for its employees. This Agreement creates no relationship between the parties hereto of joint ventures, partners, associates, principal and agent or franchiser and franchisee. Except as provided herein, neither party is granted the right or authority to assume or create any obligation, responsibility or liability for or on behalf of the other or to otherwise bind the other in any manner whatsoever.

5. Software Acceptance Upon completing the delivery, installation, and testing of the Software on ten (10) devices, Trapeze will notify Licensee in writing. Licensee will then have twenty (20) business days to conduct acceptance test in order to ensure the Software operates in all material respects as specified in the Documentation on ten (10) devices. At the end of this period, Licensee will be deemed to accept the Software unless Trapeze receives prior written notice outlining the nature of the perceived defects in the Software. Notwithstanding the above, Licensee will be deemed to accept the Software when the Licensee puts the Software into operational and functional use. The Software will be deemed to be in operational and functional use when the Licensee first uses the Software to support its then current operations in any capacity. Upon the deemed acceptance of the Software in accordance with this paragraph, Licensee will provide Trapeze with a written acknowledgement to confirm such acceptance.

6. Software Warranty Trapeze warrants the Software to operate in all material respects as specified in the Documentation for a period of one (1) year from the date of Software acceptance. For any breach of this warranty, Licensee's sole and exclusive remedy and Trapeze's entire obligation hereunder shall be to either repair or replace the defective Software. This warranty does not apply to any Software damaged as a result of any accident, negligence, use in any application for which it was not designed or intended, or modification without the prior written consent of Trapeze.

Trapeze warrants that it holds title to all Software licensed and delivered pursuant to this Agreement. Trapeze further warrants that it has full power and authority to grant to the Licensee the rights set forth in this Agreement and that neither the performance of the services by Trapeze nor the use by the Licensee of the Software, or any portion thereof, will in any manner constitute an infringement or other violation of

any ownership, claim, copyright, trade secret, trademark, patent, invention, proprietary information, nondisclosure, or other rights of any third party. No warranty is provided by Trapeze with respect to any third party licensed products. Separate warranties may be available from the developer, distributor, or publisher of the licensed products.

The foregoing warranty is in lieu of all other warranties or conditions, express or implied, including but not limited to any implied warranties or conditions of merchantability, merchantable quality, fitness for a particular purpose and any other warranties arising by statute or otherwise in law or from the course of dealing or usage of trade. Trapeze does not represent or warrant that this Software will meet all of Licensee's particular requirements, or that the operation of the Software will operate 100% error-free or uninterrupted, or that all program errors in the Software can be found in order to be corrected.

7. Software Maintenance During any warranty period and for any annual support period for which maintenance fees have been paid in full by Licensee, Trapeze will provide the following services at no additional cost:

(a) Trapeze will maintain the Software so that it operates in conformity in all material respects with the descriptions and specifications for the Software set forth in the Documentation;

(b) In the event that Licensee detects any errors or defects in the Software, Trapeze will provide reasonable support services through a telephone software support line from Monday to Friday, 7 am to 7 pm Central time (Except North American holidays) and an available twenty-four hours per day line for emergency support. Upon registration by Licensee, Trapeze will also provide Licensee with access to its software support website, and;

(c) Trapeze will post notices of available Upgrades of the Software on its website and copies of the release notes for download. Trapeze will provide Licensee with Upgrades of the Software at no additional license fee charge.

8. Escrow Trapeze shall deposit a complete copy of the Software and Source Code with Escrow Associates, LLC following final acceptance of Software by Licensee. Licensee shall be provided with written confirmation from Escrow Associates, LLC that Trapeze has made such a deposit. Provided Licensee fulfills its maintenance fee payment obligations to Trapeze, Trapeze shall update the escrow deposit with all modifications and changes to the Software and, in any event, shall deposit a renewed copy of such Source Code whenever the Software used by Licensee has been updated by Trapeze. The Source Code deposited shall include comments, explanations, instructions to compile the Software, and all Software utilities and other materials necessary for use of Source Code. The costs of the escrow shall be borne by Licensee and the term of the Escrow Agreement shall be co-extensive with the term of Trapeze's maintenance and support obligations provided Licensee fulfills its maintenance fee payment obligations to Trapeze.

The Source Code shall be released from escrow upon (a) a verifiable failure to support the Software as determined by a competent independent authority in accordance with this Agreement after formal written notification to Trapeze of such failure and after failure to cure such failure by Trapeze during a thirty (30) day cure period following receipt of notification; (b) failure of Trapeze to function as a going concern or operate in the ordinary course; or (c) the voluntary or involuntary bankruptcy of Trapeze.

Upon release from escrow, the Licensee shall have the right to use, copy, and modify the Source Code in order to use and support the Software, subject to all license restrictions. Regarding any release to the Licensee of the Source Code as provided in the Agreement, Trapeze shall continue to possess ownership rights for the Source Code, and the Licensee shall have the right to use the Source Code in accordance

with the Agreement. With respect to any and all Trapeze Source Code required to be escrowed, the Source Code shall be released to Trapeze upon termination of the Agreement unless such termination is caused by (a) verifiable failure of Trapeze to support the Software, as determined by a competent independent authority in accordance with the Agreement and technical specifications after formal written notification to Trapeze of such failure and after failure to cure such failure by Trapeze during a thirty (30) day cure period following receipt of notification; (b) failure of Trapeze to function as a going concern or operate in the ordinary course, or (c) the voluntary or involuntary bankruptcy of Trapeze. In such a case, the Licensee shall continue to be licensed to use the Software and the Source Code to support and maintain the Software.

9. Payment Upon execution of this Agreement, Licensee will issue a Purchase Order to Trapeze, for the Software license fees, service fees, and related expenses as set out in Exhibit B, attached hereto, in an amount not to exceed sixty-seven thousand one hundred eleven and no/100 (\$67,111). Trapeze will invoice Licensee for the Software license fees and services fees as set out in and according to Exhibit B. The gross amount of the license fee is set out in Exhibit B. Trapeze will invoice Licensee for the Services provided, in accordance with Exhibit B. The total amounts due for all service fees, and modifications fees are firm fixed amounts and will be invoiced on that basis. Expenses will be billed on an as incurred basis. The Purchase Order shall be governed exclusively by the terms and conditions of this Agreement.

Commencing upon completion of the warranty period for each Software application, Licensee shall pay annual maintenance fees to Trapeze as provided in Exhibit A (the "Maintenance Fee"), attached hereto, in an amount not to exceed fourteen thousand two hundred and ninety dollars and no/100 (\$14,290) in the first year of such maintenance services. This fee shall be subject to change as set out in Exhibit A. Licensee shall issue a Purchase Order annually specifying the amount set forth in the Trapeze invoice for maintenance services, and the Purchase Order shall be governed by the terms and conditions of this Agreement.

Licensee shall pay invoices within thirty (30) days of receipt of an approved invoice. In the event of an invoice dispute, Licensee shall have ten (10) business days from date of receipt of invoice to advise Trapeze of the reasons for disputing the invoice in question. If Trapeze has not received such notification within such time frame, the invoice in question shall be deemed accepted by Licensee. Overdue undisputed payments will bear interest at the annual rate of ten percent (10%) or the rate set forth in Section 2251.025 of the Texas Government Code, whichever is lower, on the amount outstanding from the date when payment is due until the date payment in full is received by Trapeze. Licensee will also be responsible for payment of all applicable taxes and other levies, including sales and use taxes, and this obligation will survive termination of this Agreement. If Licensee has a tax exemption certificate, a copy of the certificate must be provided to Trapeze upon signing of this Agreement to avoid payment of the applicable tax to Trapeze.

Prior to the execution of this Agreement, Trapeze has been advised by the Licensee, and clearly understands and agrees, such understanding and agreement being of the absolute essence to this Agreement, that the Licensee shall have available the total maximum of eighty-one thousand four hundred and one dollars and no/100 (\$81,401) for the services described herein.

10. Trade Secrets and Confidential Information Licensee acknowledges that any Trade Secrets or Confidential Information disclosed to Licensee pursuant to this Agreement are owned by Trapeze and include trade secrets and other confidential and proprietary information of Trapeze. Licensee shall maintain in confidence and not disclose the same, directly or indirectly, to any third party without Trapeze's prior written consent. Licensee further acknowledges that a breach of this Section would cause irreparable harm to Trapeze for which money damages would be inadequate and would entitle Trapeze to injunctive relief and to such other remedies as may be provided by law.

Trapeze expressly acknowledges that Licensee is subject to the Texas Public Information Act, TEX. GOV'T CODE ANN. §§ 552.001 *et seq.*, as amended, and notwithstanding any provision in the Agreement to the contrary, Licensee will make any information related to the Agreement, or otherwise, available to third parties in accordance with the Texas Public Information Act. Any proprietary or confidential information marked as such provided to Licensee by Trapeze shall not be disclosed to any third party, except as directed by the Texas Attorney General in response to a request for such under the Texas Public Information Act, which provides for notice to the owner of such marked information and the opportunity for the owner of such information to notify the Attorney General of the reasons why such information should not be disclosed.

11. Media and Publication Licensee and Trapeze shall not communicate with representatives of the general or technical press, radio, television or other communications media regarding the work under this Agreement without prior written consent of the other party, which such consent shall not be unreasonably withheld. Neither Licensee and Trapeze nor any of its personnel shall publish or reproduce or arrange press releases regarding Licensee and Trapeze without the prior written consent of the other party upon such terms as may be agreeable to both parties.

12. Force Majeure Neither party to this Agreement shall be liable to the other party hereto for loss or damage arising out of any delay or failure by such party in performing its obligations hereunder, except the making of payments due hereunder, if such delay or failure was the unavoidable consequence of a natural disaster, exercise of governmental power, strike or other labor disturbance, war, revolution, embargo, insurrection, operation of military forces, or other event or condition beyond the control of such party, provided that such party notifies the other party of its inability to perform and the reasons therefor, with reasonable promptness, and performs its obligations hereunder as soon as circumstances permit.

13. Remote Access Upon request, Licensee shall provide Trapeze with the right to establish a remote connection to Licensee's computer(s) on which the Software is installed, so as to enable Trapeze to monitor the operation of the Software.

14. Intellectual Property Indemnification In the event of an intellectual property infringement claim by a third party, Trapeze will defend Licensee in respect of any such claims based on the claim that the Software infringes the intellectual property rights of that third party. Trapeze will pay any award rendered against Licensee by a court of competent jurisdiction in such action, provided that Licensee gives Trapeze prompt notice of the claim and Trapeze is permitted to have full and exclusive control of any defense. If all or any part of the Software becomes, or in Trapeze's opinion is likely to become, the subject of such a claim, Trapeze may either modify the Software to make it non-infringing or terminate this Agreement as it relates to the infringing portion of the Software. This is Trapeze's entire liability concerning intellectual property infringement. Trapeze will not be liable for any infringement or claim based upon any modification of the Software developed by Licensee or any other third party, or use of the Software in combination with software or other technology not supplied or approved in advance by Trapeze, or use of the Software contrary to this Agreement or the Documentation.

15. Limitation of Liability

(a) Trapeze and Licensee do not rely on and will have no remedy arising from any statement, representation, warranty or understanding (whether negligently or innocently made) of any person (whether party to this Agreement or not) other than as expressly set out in this Agreement. The only remedy available to Licensee for breach of warranty is for breach of contract under the terms of this Agreement. This does not preclude a claim for fraud.

(b) Trapeze does not guarantee the privacy, security, authenticity or non-corruption of any information transmitted through the internet or any information stored in any system connected to the internet. Trapeze shall not be responsible for any claims, damages, costs or losses whatsoever arising out of or in any way related to Licensee's connection to or use of the internet.

(c) Notwithstanding anything herein to the contrary, Trapeze will not be liable to Licensee or any third party for any claims, expenses, damages, costs or losses whatsoever arising out of or in any way related to:

(i) Licensee's use of map or geographical data, owned by Licensee or any third party, in conjunction with the Software or otherwise; or

(ii) Licensee's use of the Software insofar as such Software may be used to store, transmit, display, disclose or otherwise use data or information which is considered private, confidential, proprietary or otherwise exempt from public disclosure under applicable law.

(d) **TRAPEZE SHALL INDEMNIFY AND DEFEND LICENSEE AGAINST ALL THIRD-PARTY LOSSES, LIABILITIES, CLAIMS, CAUSES OF ACTION, AND OTHER EXPENSES, INCLUDING REASONABLE ATTORNEY'S FEES, THAT RESULT FROM THE NEGLIGENT ACT, OR WILFUL MISCONDUCT OF TRAPEZE OR ANY OF TRAPEZE'S AGENTS, SERVANTS OR EMPLOYEES.**

(e) Notwithstanding anything herein to the contrary, Trapeze's entire liability and responsibility for any claims, damages, costs or losses whatsoever arising either jointly or solely from or in connection with this Agreement or the use of the Software (whether or not in the manner permitted by this Agreement) including claims for breach of contract, tort, misrepresentation, or otherwise, or the development, modification or maintenance of the Software will be absolutely limited to the amount of the license fees paid by Licensee.

(f) To the extent allowed by Texas law, Trapeze will not be liable to the Licensee or any third party for losses or damages suffered by Licensee or any third party which fall within the following categories:

(i) incidental or consequential damages, whether foreseeable or not;

(ii) special damages even if Trapeze was aware of circumstances in which special damages could arise;

(iii) loss of profits, anticipated savings, business opportunity, goodwill, or loss of information of any kind.

(g) Paragraphs (e) and (f) do not apply to claims arising out of death or personal injury caused by either party's gross negligence or fraudulent misrepresentation.

16. Insurance

(a) Trapeze shall obtain and maintain, throughout the term of the Agreement, insurance of the types and in the minimum amounts set forth below. Trapeze shall furnish certificates of insurance to the Licensee evidencing compliance with the insurance requirements hereof. Certificates shall indicate Trapeze's name, name of insurance company, policy number, term of coverage and limits of coverage. Trapeze shall cause its insurance companies to provide the Licensee with at least 30 days prior written notice if the insurance company cancels the policy. Trapeze shall obtain such insurance from such

companies having a Bests rating of A-/VII or better, licensed or approved to transact business in the State of Texas, and shall obtain such insurance of the following types and minimum limits:

(b) The Licensee shall be named as additional insured to all coverages required above except for Workers' Compensation, Business Automobile Liability and Professional Liability. All policies including Workers' Compensation written on behalf of Trapeze shall contain a waiver of subrogation in favor of the Licensee.

STATEMENT OF WORK: DRIVERMATE

The following information defines the implementation services to be provided by Trapeze for the DriverMate Software as well as the effort that will be required from Fort Bend County Public Transportation (Licensee or Customer) staff and resources.

Unless otherwise indicated, Trapeze will provide 'standard' implementation services (project management, operational review, testing, installation, training, etc.) as defined by Trapeze. Any special requirements will be considered a change request and processed through our standard change request system.

OVERVIEW

This implementation involves the following high level tasks:

1. **Project Management:** For a project of this scope, we propose a dedicated Project Manager and concentrated oversight from our Director of Customer Solutions Delivery. We propose James Blumhoefer as the dedicated Project Manager for this project assuming the timing of this project remains consistent with that outlined in the RFP. This team brings years of project management/implementation and technology-related experience, and we are confident that their qualifications listed below will ensure a successful project is carried out. Throughout the project, the Account Management team will remain involved in the project to support the project management team.
2. **Operational Review:** The Operational Review is the process of speaking with the client about how they operate their business as it relates to the implementation of our Software. The process begins with the answering of survey questions, continues with in person or over the phone interviews and completes with the delivery of a document that outlines our recommendations, gap analysis and documentation of the client's responses. This document will be approved by Fort Bend County.
3. **Software Installation and Configuration:** Trapeze physically (remotely) installs the Software on the client server hardware, works with FBC to configure it to the details outlines in the Operational Review and tests to ensure the Software is functioning as specified. Trapeze will also provide training on how to install the DriverMate Software on the tablets in this phase.
4. **System Administrator Training:** Trapeze will provide an off-site formal training session on how to maintain the Software that was installed in step two above.
5. **Driver Trainer Training:** A small group of Driver Trainers will be shown off-site how to operate the the in vehicle Software so that the Trainers can in turn provide the required training to the drivers.
6. **Dispatch Training:** Trapeze will provide on-site training to the Dispatch staff so that they understand how to operate the back office Software once the in vehicles Software is enabled.

7. **Go-live Support:** Trapeze will be on-site to help the agency transition the Software from the test environment into full production use. Trapeze will provide ad hoc training and troubleshooting if issues arise.

The key assumptions that Trapeze has employed while determining the level of effort involved with this implementation are presented below.

- Licensee is responsible for the purchase, installation and mounting of Android tablet devices
- Licensee will download and configure the DriverMate application with two (2) days of Trapeze off-site support.
- Licensee is responsible for the purchase and installation of any required server hardware (servers shall be preconfigured to Trapeze's specifications)
- Software will be delivered 'off-the-shelf'. At this point we do not see a need for any development for this project, our solution meets your requirements 'out-of-the-box'. The goal is to develop and test the customizations in advance in order to demonstrate a Proof of Concept to FBC before any implementation.
- Licensee is responsible for the purchase and maintenance of wireless data plans from a public wireless carrier (200MB per vehicle, per month: pooled plan)

The remainder of this Statement of Work (SOW) provides details concerning the tasks and effort required to support the tasks described above.

In addition, it is assumed this Software will take advantage of existing Trapeze infrastructure, data sources and software unless otherwise stated.

Prior to any work being performed by Trapeze, Licensee will be required to execute the Trapeze license and maintenance amendments and provide an executed purchase order (PO) for the value of the project.

Ideal training environments include:
