

May 21, 2018

We have one goal at The Penworthy Company – to give you the best, unique selection of children's books with the highest level of service. We distribute Penworthy Prebound Books, reinforced library-bound books, board books and puppets. We review hundreds of titles, from both well-known publishers and excellent, hard-to-find small presses in order to bring you the best of the best. Up to 100 new titles are released every month.

The Penworthy Company is the sole source for Penworthy Prebound Books. Penworthy Prebound Books' features make them the best investment for your collection:

- Sophisticated, four-color covers recreate the original look of the book and ensure that every cover is bright, colorful, and appealing to kids
- Sturdy library board is glued into the covers with strong, high quality adhesives
- "True library corners" with a soft edge makes them less likely to fray or wear
- Bodies are side-sewn bound with exposed cloth hinges.
- Spines are rounded to prevent crushing and cracking
- Each Penworthy book is hand checked to ensure it meets the highest of quality standards.
- Penworthy Prebound Books meet or exceed the Library Binding Institute's prebound binding specifications, creating the longest-lasting books on the market

In addition to great books, The Penworthy Company provides exceptional customer service you can trust. Penworthy representatives save you time in the selection process by showing you the titles that meet your specific needs and introducing you to what's new and exciting. **Orders ship complete with no backorders and no shipping charges, typically within twenty-four hours.** In short, we are dedicated to helping libraries build collections that circulate and endure.

**The  
Penworthy  
Company**

Sincerely,

Kasey Creevy
