COMMUNITY IMPACT

Have you unsuccessfully reached out to the city for funds to purchase the equipment?

Existing budgetary constraints prevent us from having a reserve number of handheld radios to utilize in case of a natural disaster, to temporarily replace a broken radio, or provide radios to our reserve deputies to utilize when working patrol or while working in other agency divisions that require a handheld radio.

Was there a particular instance where a life would have been positively impacted if you would have had the equipment available?

Although there is no specific instance to refer to, having the requested handheld radios would ensure that all our deputies would always have access to a handheld radio and that our reserve deputies would also have access when they volunteer to work on patrol, serve warrants, or volunteer at a community event. The availability of these radios enhances communication and allows to also work specialty operations benefiting the safety and security of our community.

What positive effects will the equipment specifically have? Please use statistics when possible.

We responded to over 25,000 calls for service in 2017. This agency played an integral part in the search and rescue operations during Hurricane Harvey and works closely with the local school districts in ensuring safe and secure educational environments for the students. This equipment, as stated previously, will ensure our deputies can communicate and receive information from the dispatch center when not physically in their vehicles.

INITIAL GRANT NARRATIVE

The Fort Bend County Constable's Office, Precinct 3, serves the northern portion of Fort Bend County. We are committed to providing quality law enforcement services to the community and seeking solutions to crime and traffic problems within our precinct.

As a full service law enforcement agency consisting of multiple divisions (patrol, warrants, writs and civil) we serve the fastest growing portion of the county which covers approximately 270 square miles and a burgeoning population of over 250,000 people. The dramatic population increase that has occurred over the past ten years has resulted in both an increase of pedestrian and vehicular traffic and a subsequent increase in criminal activity. We are meeting these challenges in our ever growing metropolitan area with a dedicated and professional staff consisting of over fifty (50) sworn deputies and two administrative assistants.

Along with the required sworn personnel to provide the necessary services, we also need the proper equipment to fulfill our mission. The equipment requested in this grant would greatly enhance our goal of providing outstanding and professional law enforcement service to our citizens.

FIREHOUSE SUBS GRANT NARRATIVE QUESTIONS

Briefly explain how the equipment will benefit your community and your department.

Our agency responded to over 25,000 calls for service in 2017. In addition to the department's regular responsibilities we played an integral part in the search and rescue operations during Hurricane Harvey. Receiving this equipment would enable us to ensure a radio is always available to both our regular deputies and reserves in case of natural disasters, special operations, community events, and temporary replacement of radios sent out for repair. Budget restraints prevent having that assurance now.

COMMUNITY IMPACT

Have you unsuccessfully reached out to the city for funds to purchase the equipment?

Existing budgetary constraints prevent us ordering immediate replacement handheld radios when needed or from having handheld radios held in reserve in case of a natural disaster, special operations, to temporarily replace a broken radio, or provide handheld radios to our reserve deputies to utilize when working patrol or while working in other divisions of our agency that require a handheld radio in performing their duties.

Was there a particular instance where a life would have been positively impacted if you would have had the equipment available?

Although there is no specific instance to refer to, having the requested handheld radios would ensure that all our deputies would always have access to a handheld radio when needed and that our reserve deputies would also have access when they volunteer to work on patrol, serve warrants, or volunteer at a community event. The availability of these handheld radios enhances communication and allows our deputies to work specialty operations and any other emergency scenario that presents itself, thus benefiting the safety and security of our community.

**What positive effects will the equipment specifically have?
Please use statistics when possible.**

Our agency responded to over 25,000 calls for service in 2017. In addition to our normal responsibilities, this agency played an integral part in the search and rescue operations conducted during Hurricane Harvey. We also have developed a close working relationship with the local school districts and work with them in ensuring safe and secure educational environments for the students. The requested equipment, as stated previously, will ensure our deputies can communicate and receive information from the dispatch center when not physically in their vehicles. Active shooter situations, in progress calls, search and rescue operations are all instances where handheld radios are essential. We are also developing and expanding our reserve deputy program. The requested equipment will also be utilized by these dedicated public servants who volunteer their time and energy working patrol, serving warrants, etc. thus bolstering the service we provide to the community.

Receiving this equipment will ensure that our personnel have the capability to communicate in the types of emergency situations mentioned a forehand and also in their everyday responsibilities of keeping our community safe.
