

Bringing Simulation Users Together

The Simulation User Network (SUN) Conference draws over 300 user network members to each meeting. It serves as a platform for collaboration, innovation and simulation advancements that lead to improvements in education and healthcare delivery.

What You Can Expect at the SUN

The SUN Conference is a place to meet others who are just like you and connect with industry leading experts. Featuring best practices and hands-on demonstrations to help advance simulation training programs across all healthcare disciplines, the SUN Conference allows you to:

- Discover innovative strategies
- Unite with industry leaders
- Learn new techniques
