**MASTER NETWORKING SERVICE ADDENDUM
FORT BEND COUNTY
Service Order 24
(CONSOLIDATION OF ALL EXISTING CIRCUIT SERVICES)**

As part of the Telecommunications Master Service Agreement (#002417), by and between Phonoscope, Inc. (f/k/a Phonoscope Communications, Inc.), as Assigned to Phonoscope Light Wave, Inc. (Phonoscope) with offices located at 6105 Westline Drive, Houston TX 77036 and Fort Bend County Information Technology (Customer) with offices located at 500 Liberty, Richmond, TX 77471, the parties agree to incorporate the following:

- A. Service Type and Order Placement**
Customer requests renewal and/or increase of E-Line Circuits (as listed on Exhibit A) with line speeds of 10/100/1000 Mbs using IEEE Std 802.3-2012 defined signaling over a vlan-aware network provisioned to each of the sites in Exhibit A.
- B. Service Termination Sites**
Phonoscope will provide service as listed in Exhibit A.
- C. Commencement Date and Term of Services**
Service will effective through August 31, 2017. At the end of the initial term, this Agreement may automatically renew on a Month-to-Month basis, under the same terms and conditions contained in this Agreement including, but not limited to the recurring monthly rates and payment terms, provided the Customer sends written notice of its intent to exercise its option to renew this Agreement within Thirty (30) days of the end of the Initial Term. The month-to-month term shall only remain effective until a new specific term agreement is executed, which new agreement must be executed within Ninety (90) days after the end of the Initial Term.
- D. Portability**
If Customer desires to relocate any of the Sites prior to the expiration of the term, Services may be ported to a new location without penalty; however, additional non-recurring aid-to-construction costs may apply.
- E. Services and Equipment**
Phonoscope will provide turnkey installation of the service. Customer connections will terminate in the assigned Phonoscope demarcation point. All Customer connected equipment should support the appropriate Ethernet signaling and port speed for the contracted service.
- F. Calculation of Actual Usage**
Phonoscope will allow the Customer to burst beyond their contracted bandwidth to a maximum port speed of 100 Mbps. Phonoscope will collect and record usage samples around the clock at frequent, regular intervals and calculate a monthly actual which effectively disregards bursts of the top five percent (5%) usage within the total monthly sample, without incurring additional charges. Customer will only incur additional charges, in per Meg increments, if the actual amount of the remaining ninety-five percent (95%) usage exceeds the contracted bandwidth. If the Customer at any time chooses to limit their bandwidth access to the contracted rate, Phonoscope will rate shape the unique circuit port to guarantee a not-to-exceed bandwidth and allow the Customer to maintain the same monthly recurring fee.

Phonoscope shall waive any incremental charges upon the first time occurrence where the Customer exceeds the ninety-five percent (95%) rule. Customer shall elect one of the following options:

- The Customer may rate shape the bandwidth to guarantee to not-to-exceed bandwidth assuring the same monthly recurring fee; or
- The Customer may increase the circuit bandwidth to reflect the additional bandwidth needed. (Phonoscope will generate a Change Order to the existing Service Order reflecting this change and forward to the Customer for signature.); or
- The Customer agrees that any future occurrence to the Customer exceeding the ninety-five percent (95%) rule will generate the standard incremental charges as identified herein.

**INTERNET SERVICE ADDENDUM
FORT BEND COUNTY INFORMATION TECHNOLOGY**

**Service Order 25
(CONSOLIDATION OF ALL EXISTING INTERNET SERVICES)**

As part of the Telecommunications Master Service Agreement ("Agreement") (#002417) between Phonoscope, Inc. (f/k/a Phonoscope Communications, Inc.), as Assigned to Phonoscope Light Wave, Inc. ("Phonoscope") with offices located at 6105 Westline Drive, Houston TX 77036 and Fort Bend County Information Technology ("Customer") with offices located at 500 Liberty, Richmond, TX 77471, the parties agree to incorporate the following:

- A. Service Type**
The Customer requests renewal and/or increase of high speed Internet access over a wide area Ethernet network, as specified in Exhibit A.
- B. Service Termination Sites**
Service will be provisioned in Customer's site as listed on Exhibit A.
- C. Commencement Date and Term of Services**
Service will be effective through August 31, 2017. At the end of the initial term, this Agreement may automatically renew on a Month-to-Month basis, under the same terms and conditions contained in this Agreement including, but not limited to the recurring monthly rates and payment terms, provided the Customer sends written notice of its intent to exercise its option to renew this Agreement within Thirty (30) days of the end of the Initial Term. The month-to-month term shall only remain effective until a new specific term agreement is executed, which new agreement must be executed within Ninety (90) days after the end of the Initial Term.
- D. Services and Equipment**
Phonoscope will provide turnkey installation of the service. Customer connections will terminate in the assigned Phonoscope demarcation point. All Customer connected equipment should support the appropriate Ethernet signaling and port speed for the contracted service.

At no additional cost, Phonoscope shall assign IP addresses to the Customer, limited only by the Customer's fulfilling ARIN justification requirements. In addition, Phonoscope shall provide DNS at no additional cost.

- E. Calculation of Average Usage**
Phonoscope will allow the Customer to burst beyond their contracted bandwidth to a maximum port speed of 100Mbps. Phonoscope will collect and record usage samples around the clock at frequent, regular intervals and calculate a monthly total which effectively disregards bursts of the top five percent (5%) usage within the total monthly sample, without incurring additional charges. Customer will only incur additional charges, in per Meg increments if the total of the remaining ninety-five percent (95%) usage exceeds the contracted bandwidth. If the Customer at any time chooses to limit their bandwidth access to the contracted rate, Phonoscope will rate shape the unique circuit port to guarantee a not-to-exceed bandwidth and allow the Customer to maintain the same monthly recurring fee.

Phonoscope shall waive any incremental charges upon the first time occurrence where the Customer exceeds the ninety-five percent (95%) rule. Customer shall elect one of the following options:

- The Customer may rate shape the bandwidth to guarantee to not-to-exceed bandwidth assuring the same monthly recurring fee; or
- The Customer may increase the circuit bandwidth to reflect the additional bandwidth needed. (Phonoscope will generate a Change Order to the existing Service Order reflecting this change and forward to the Customer for signature.); or
- The Customer agrees that any future occurrence to the Customer exceeding the ninety-five percent (95%) rule will generate the standard incremental charges as identified herein.
