Fort Bend County
Re: Ram 5500

07/16/2019

Thank you for the opportunity to quote the County on it's truck needs. This is being quoted out of my Port Lavaca store because that is where I have the chassis on the ground. I am quoting a 2019 Ram 5500 regular cab 4x4 chassis with a 60" cab to axle dimension. The truck has the following options:

Diesel/automatic

white

40/20/40 vinyl seats

Backup camera

Full sized spare

Power windows, locks, mirrors, remote keyless entry

Heavy duty front suspension

PTO Prep

Ambulance prep group (220a alternator, voltage monitoring system)

I'll have my service department add the OEM brake controller and flash the computer.

Cost to the County delivered to the Richmond/Rosenberg area is \$49,975.00

Let me know if this works for your needs.

Dennis Thomas
