WHY WE DO WHAT WE DO

Here at AIIM, we believe that information is our most important asset. And we've always felt this way – even way back in 1943 when this community was formed as the National Micrographics Association.

Sure, the technology has come a long way since then (and the variety of the information objects we're managing has changed a lot) but one tenet has remained constant: we've always focused on the intersection of people, processes, and information.

As the **Association for Intelligent Information Management**, we help organizations put information to work.

Hi Steve,

I know things have been hectic lately with the recent government shutdown. We couldn't possibly understand how difficult this must have been for many of the federal workers in our community.

We understand that while the government was still shut down, many of you were unable to take advantage of our early bird pricing in December for The AIIM Conference 2019. To celebrate the government's reopening, we would like to extend this offer to all of our friends in every level of government.

To receive Decembers pricing (\$1,095) please use the promo code **GOVSPECIAL** at checkout. You can register here: <https://register.doubledutch.me/Events/38131/aiim19/Dates/58467?clientId=1690736182.1531849882>

Please let me know if you have any questions or if I can assist you in any way.
