

Leveraging Partnerships & Resources to Impact Health Outcomes

Join us for [The National Summit on Social Determinants of Health](#) on **June 23-25, 2019** in **Washington, D.C.**

Hear the early wins and successes of collaborative projects across the country, lessons learned from contracting with partners, evaluating programs, securing funding for projects, and designing intervention projects for sustainability. Learn how to tap into resources and replicate projects that can be tailored to your specific community or population served without reinventing a costly wheel.

Other takeaways include:

- Learn how to contract and partner with cross-sector organizations to achieve social needs and health equity goals
- Understand how to gather data on community needs to develop impactful, cost-effective programs
- Discover how investments in small projects affect population health and ROI

****Reminder: Only 27 days left to register with Early Bird!***
