

Our goal at The Penworthy Company is to give you an incredibly durable, high-interest selection of children's books and educational products with reliable personal service. We distribute Penworthy Prebound Books, reinforced library-bound books, board books, educational kits, big books, and puppets. We review hundreds of titles, from both well-known publishers and excellent, hard-to-find small presses in order to bring you the best of the best. Up to 100 new titles are released every month.

We are the sole source for the newest Penworthy Prebound Books which are guaranteed to withstand continuous circulation without need for repair or replacement.

Here's what makes Penworthy Prebound Books unique:

1. Penworthy Prebound Books are guaranteed to meet your expectations for durability. If any title does not meet your expectation, we'll replace it.
2. Penworthy Prebound Books are built to last with side-sewn bindings and sturdy library board to build strength, true library corners and rounded spines to prevent fraying, and covers with high quality lamination which can be wiped clean.
3. Many Penworthy Prebound Books are only available in a paperback or trade binding from the publisher. The Penworthy Prebound format is incredibly durable and appropriate for school and library use. In addition, we represent many small press publishers whose titles are not available through large jobbers.
4. Virtually all the titles we sell are in stock and ready to ship. Penworthy provides free cataloging and processing to your specifications.
5. Orders ship complete with no back orders or shipping charges, typically within twenty-four hours after receipt of order.

In addition to great books, The Penworthy Company provides exceptional customer service you can trust. Penworthy representatives save you time in the selection process by showing you the titles that meet your specific needs and introducing you to what's new and exciting. In short, we're dedicated to building collections that circulate and endure.

Sincerely,

Holly Ritz
