Re: Tiger Tube Deployment and Repacking

Dear Mr. Vogler:

Fort Bend County MUD 140 sincerely appreciates the assistance from the Fort Bend County Drainage District in setting up and removing the Tiger Tubes, at DRS Road, during the May and June 2019 Brazos River high water event. MUD 140 has agreed to reimburse the Drainage District for this effort in the amount of \$10,000.00. Hopefully there will not be another event requiring the re-deployment of the Tiger Tubes, but if the case does occur we would appreciate the Drainage District's help at that time.

Respectfully,

David Smith  
Fort Bend County MUD 140 President
