2020 County RC-RA NewImprovement Values.xlsx

Good afternoon,

We received a question this morning from regarding data provided to you on the 2020 value of new improvements. There appears to be an inaccuracy in the ETR report previously provided to your office. The value reported as new commercial value (Box 23, I believe), is *higher* than it should be. We reviewed a sample of accounts to determine that the error was caused when the *actual age* of some of the commercial accounts was updated instead of the *effective age*. This was a keying error by the FBCAD Commercial team and skewed the values in your report.

Once the error was discovered, we ran queries to determine the correct value. The correct value of new commercial improved is:

Given the multitude of moving pieces within and the highly technical nature of SB 2, we highly recommend you contact your legal counsel regarding guidance on which value you should use for the TNT calculations.

<b>23. Total 2020 taxable value of new improvements and new personal property located in new improvements.</b> New means the item was not on the appraisal roll in 2019. An improvement is a building, structure, fixture or fence erected on or affixed to land. New additions to existing improvements may be included if the appraised value can be determined. New personal property in a new improvement must have been brought into the taxing unit after Jan. 1, 2019 and be located in a new improvement. New improvements <b>do</b> include property on which a tax abatement agreement has expired for 2020. <sup>19</sup>	\$

Thank you again for your patience during these past few days. If you have any questions about the data or calculations provided, please do not hesitate to contact the appraisal district.

Note also, only jurisdictions that have commercial improvements are listed.

Thank you,
