Dear Valued Customer,

Recently, several key glove supplier partners have informed Bound Tree that they are significantly increasing their glove prices due to the surge in global demand and rising cost. This is beyond their control to effectively mitigate and they have signaled there is a likelihood of further price increases in the future due to continued volatility. Documentation from our major suppliers explaining the reasons for glove price increases can be found [here](#).

As a result, your contract with Bound Tree will be amended to reflect new contract pricing on gloves starting 9/14/2020. The attached listing shows which products are impacted on your contract.

Knowing this comes at a difficult time, Bound Tree has made a commitment to absorb the price increases and hold to your previous price on any existing glove orders—limited to your historical monthly quantities—that ship before 9/11/2020. Remaining back orders after 9/11/20 will be repriced at the new contracted price. Your Bound Tree Account Manager can provide more information.

For now, if you accept the increases, there is no action you need to take. Your contract will be amended and you will continue to have access to these products. If you do not accept the current increases, please notify us at [submitbids@boundtree.com](mailto:submitbids@boundtree.com) on or before 9/14/2020 and the items will be removed from your contract. Please note that supply of gloves is heavily constrained. If you remove gloves from your contract your allocation will be moved to other EMS agencies in need of critical PPE.

We appreciate your partnership and your understanding of this situation. If you have any questions regarding this contract price change, please reach out to your Bound Tree Account Manager or contact our [Customer Care team](#): (800) 533-0523.

Thank you for allowing us to be your trusted partner in EMS.

Sincerely,

Brian LaDuke

RE: BID: Medical Supplies 20-003

Dear Cheryl,

Thank you for giving Henry Schein the opportunity to participate in your bid. For more than 35 years, Henry Schein EMS has been the solution EMS professionals turn to for their emergency medical and rescue product needs. Representing the industry's leading manufacturers, Henry Schein EMS offers a full line of EMS medical supplies and specialty equipment. With more than 20 sales professionals (most of whom started their careers as field medics), Henry Schein EMS has one of the largest and most experienced EMS teams in the industry. Our goal is to ensure you are prepared to save lives by providing cost-effective supplies, quality equipment, and prompt services.

In an effort to keep you informed, we wanted to let you know upfront, due to the coronavirus outbreak, we are experiencing higher than normal demand globally for infection control products such as gloves, masks, goggles, and face shields, among other items. We are working with our manufacturing and supply chain partners, as well as global health organizations including the Pandemic Supply Chain Network, the World Health Organization, the Chinese Ministry of Health, and the Centers for Disease Control & Prevention, to address shortages as they occur. Given this situation and acute market needs, we anticipate disruptions to orders for certain infection products in various markets. Please contact your local Henry Schein consultant for specific inventory inquiries. It is possible that we may not have product available to ship at the time you desire to purchase, or we may be unable to supply the product at the quoted price because of quickly escalating costs that are out of our control during this very uncertain and unprecedented coronavirus pandemic.

Thank you in advance for your consideration of our bid.

Sincerely,

Julia Strange
