Mobility Project 733, Completed November 2010
Mobility Project 733A, Completed May 2017**

Dear Commissioner:

A final inspection of the streets for the above referenced was made and all deficiencies have been corrected. A combination of Developer funded and Mobility funded projects reconstructed the existing 22' two lane road into a 4 lane curbed concrete boulevard 25' in width each direction from FM 1093 to Cinco Ranch Blvd. These projects included realignment of the existing 60' ROW and adding additional ROW providing 100' ROW from FM 1093 to Cinco Ranch Blvd. The road log needs to be updated to reflect the changes in ROW width (60' to 100') and surface width and type (22' asphalt to 50' curbed concrete). The new updated length for this project is as follows:

Katy Gaston Road 8825.50 LF (1.67 miles from FM 1093 to Cinco Ranch Boulevard)

There is no bond for this project.

If you should have any questions or need additional information please feel free to call.

Sincerely,

Wesley Crawford
Construction Manager
