

We are excited to announce the RIMS Western Regional Conference is a GO for in-person attendance! And while we’re all still gently emerging from the last year-plus of event restrictions, we’re thrilled to offer a two-day event this year to bridge the gap. The Monday-Tuesday schedule allows for a lot of time to network and enjoy both business and fun.

We hope you join us on September 13th and 14th, 2021 in Park City Utah. We expect in-person attendance to fill up fast, so please don’t delay if you plan to attend. The Western Regional Conference is the premier risk management conference leading the field in addressing and combating risk. Hear speakers share their experiences on challenges affecting their ecosystem, regulatory expansion and best practices to managing risk. The Western Regional Conference focuses on risk managers and sessions that provide relevant tools to mitigate risk within their organization.
