Fort Bend County Collaborative Information System Privacy Policies and Procedures

The goal of the Fort Bend County Collaborative Information System ("FBCCIS") Privacy Policies and Procedures is to ensure confidentiality and security of all client data captured by the FBCCIS in conformity with all current local, state, and federal regulations related to privacy and data confidentiality rights. Additionally, this policy serves to describe how the roles and requirements of the FBCCIS Lead Agency ("County") and FBCCIS participating agencies and organizations ("Agency" or "Agencies") will meet the privacy requirements established by local, state and federal standards.

Outlined in this FBCCIS Privacy Policy and Procedures are the standards and parameters to be followed by all Agencies. The FBCCIS recognizes that Agencies may have established their own policies that meet privacy requirements and the standards set forth herein. The FBCCIS Privacy Policy and Procedures is not intended to supplant individual Agency privacy policies, as long as they meet the thresholds established in this policy and do not contradict the practices described herein. Agencies may establish additional or more stringent requirements for FBCCIS end users.

I. Policy Access and Amendment

The FBCCIS Lead Agency may amend the Privacy Policies and Procedures at any time. An amendment may affect data that had been entered in the FBCCIS before the effective date of any such amendment.

The Privacy Policy will be reviewed and amended consistent with the procedure described in the Roles and Responsibilities section of the FBCCIS Policies and Procedures.

II. Applicability

The FBCCIS Privacy Policy and Procedures applies to the FBCCIS Lead Agency and all other participating Agencies, and any person accessing FBCCIS data. The FBCCIS Lead Agency and Agencies will uphold federal and state confidentiality regulations to protect client records and privacy including but not limited to rules and regulations established by the HIPAA Privacy Rule located at 45 CFR Part 160 and Subparts A and E of Part 164.

III. Participating Agency Policy

Each Agency is responsible for maintaining a privacy policy and certifying that each participating project complies with the FBCCIS Privacy Policy and Procedures. Agency Administrators are responsible for reviewing privacy policies and ensuring consistency with the FBCCIS Privacy Policy and Procedures. At times, individual Agency policies may require more rigorous privacy standards but they must, at a minimum, meet and not contradict the privacy standards set forth herein. In addition, Agencies must maintain documentation regarding changes to their privacy policies.

An Agency's Privacy Policy will:

- Specify the purpose for collecting the information.
- Specify all potential uses and disclosures of client personal information.
- Specify the time for which the hard copy and electronic data will be retained at the organization and the method for disposing of it or removing identifiers from personal information that is not in current use.
- State the process and applicability of amendments and commit to documenting all amendments.
- Offer reasonable accommodations for persons with disabilities and/or language barriers.
- Allow the client the right to inspect and to have a copy of their client record and offer to explain any information the individual may not understand.
- Include reasons and conditions when an organization would not release information.
- Specify a procedure for accepting and considering questions or complaints about the privacy policy.

IV. Compliance Review

Each year, Agencies will be required to self-certify that they comply with the FBCCIS Privacy Policy and Procedures. Each Agency must indicate whether it has:

- Adopted the FBCCIS Privacy Policy and Procedures, or
- Adopted a different privacy policy that meets the requirements outlined in the FBCCIS Privacy Policy and Procedures.

The FBCCIS, through the FBCCIS Lead Agency, Fort Bend County, retains the right to conduct site visits to ensure compliance with the FBCCIS Privacy Policy and Procedures.

Notice of the adoption of a Privacy Policy will be sent to the FBCCIS Administrator. In the event the Agency adopts a different privacy policy, the Agency will be expected to send a copy of that policy to the FBCCIS Administrator in accordance with the Notice Section provided in the Agency Participation Agreement. If no policy has been adopted at the time of execution of the FBCCIS Agency Participation Agreement, the Agency must establish a date no later than three months from the execution of the Agency Participation Agreement date by which such a policy will be developed and implemented.

V. Privacy Policy Notice

The FBCCIS Lead Agency and Agencies must ensure privacy policies are readily accessible to clients and the public.

It is suggested that each Agency post the FBCCIS Privacy Policy and Procedures on its website and provide a copy to any individual upon request.

VI. Client Consent and Release Procedure

Agencies will maintain FBCCIS data in compliance with this Privacy Policy and Procedures and all local, state, and federal regulations including the HIPAA Privacy Rule. Any Agency privacy policies created or presently in use will include a provision stating the Agency will only collect data after a signed Client Consent and

Release Form is on file for each participating client. **ALL CLIENTS MUST SIGN A CLIENT CONSENT AND RELEASE FORM BEFORE ANY DATA IS ENTERED INTO THE FBCCIS.** All Agencies will keep copies of the signed consents on file.

In addition, the FBCCIS Lead Agency requires Agencies to post signs at each intake desk or other appropriate locations where data collection occurs explaining the reasons for FBCCIS data collection. The sign will include language consistent with Client Consent and Release Form.

VII. Provisions for Language and Disability Accessibility

Each Agency will provide a Client Consent and Release Form and FBCCIS Policies and Procedures in languages other than English that are common in the community, if speakers of these languages are found in significant numbers and come into frequent contact with the organization.

Agencies must make reasonable accommodations for persons with disabilities throughout the consent, intake, and data collection processes. This may include, but is not limited to, providing qualified sign language interpreters, readers or materials in accessible formats such as Braille, audio, or large type as needed by the individual with a disability.

VIII. FBCCIS Data Use and Disclosure

Agencies will make every effort to protect the confidentiality of FBCCIS data. Agencies must collect data by legal means consistent with the FBCCIS Policies and Procedures and all local, state, and federal laws including HIPAA regulations and requirements. The FBCCIS Lead Agency and participating Agencies may only collect, use, and disclose data for the specific purposes and reasons defined in this section.

- To provide or coordinate individual referrals, case management, or other services for functions related to payment or reimbursement for services.
- To carry out administrative functions, including but not limited to audit, personnel oversight, and management functions.
- To produce aggregate-level reports, including those for funders or grant applications, regarding use of services which do not reveal PHI (Protected Health Information) or PII (Personal Identifying Information) that can be traced back to an individual client.
- To identify unfilled service needs and plan for the provision of new services.
- To conduct a study or research project approved by the FBCCIS Lead Agency.
- When required by law (to the extent that such use or disclosure complies with and is limited to the requirements of the law).
- To avert a serious threat to health or safety if the use or disclosure is reasonably believed to be necessary to prevent or lessen a serious and imminent threat to the health or safety of an individual or the public; and the use or disclosure is made to a law enforcement officer to reasonably prevent or lessen the threat, including the target of the threat. Agencies and individuals should refer to the HIPAA Privacy Rule located at 45 CFR Part 160 and Subparts A and E of Part 164.
- To report about an individual reasonably believed to be a victim of abuse, neglect, or domestic violence to a governmental authority (including a social service or protective services agency) authorized by law to receive reports of abuse, neglect, or domestic violence where the disclosure is required by law

and the disclosure complies with and is limited to the requirements of the law. Agencies and individuals should refer to HIPAA Privacy Rule located at 45 CFR Part 160 and Subparts A and E of Part 164.

- To a law enforcement official for a law enforcement purpose (if consistent with applicable law and standards of ethical conduct). Agencies and individuals should refer to the HIPAA Privacy Rule located at 45 CFR Part 160 and Subparts A and E of Part 164.

The FBCCIS Lead Agency may share client level FBCCIS data with contracted entities as follows:

- The Agency originally entering or uploading the data to the FBCCIS.
- Outside organizations under contract with the FBCCIS Lead Agency or other entities acting on behalf of Fort Bend County for research, data matching, and evaluation purposes. The results of this analysis will always be reported in aggregate form and will not reveal PHI (Protected Health Information) or PII(Personal Identifying Information) that can be traced back to an individual client.

Any requests for reports or information from an individual or group who has not been explicitly granted access to the FBCCIS will be directed to the FBCCIS Administrator. No individual client data will be provided to meet these requests without proper authorization.

Before any use or disclosure of Protected Health Information (PHI) or Personal Identifying Information (PII) that is not described here is made, the FBCCIS Lead Agency or Agency wishing to make the disclosure will seek the consent of all individuals whose PHI or PII may be used or disclosed, and obtain such consent in writing.

IX. Access and Correction

Clients whose data is collected in the FBCCIS may inspect and receive a copy of their FBCCIS record by requesting it from the Agency that originally collected the information. The FBCCIS Lead Agency requires each Agency to establish a policy to manage such requests and to explain any information a client may not understand.

Each Agency's policy will describe how requests from clients for correction of inaccurate or incomplete FBCCIS records are handled. The policy will allow clients to request their FBCCIS data or request the data be removed from the FBCCIS.

If a client requests to have his or her information in the FBCCIS corrected or removed, and the Agency agrees that the information is inaccurate or incomplete, the Agency may delete it or they may choose to mark it as inaccurate or incomplete and to supplement it with additional information. Any such corrections applicable to the data stored in the FBCCIS system will be corrected within one week of the request date.

In the event that a client requests to view his or her data in the FBCCIS, the Agency FBCCIS Administrator will keep a record of such requests and any access granted. The Agency FBCCIS Administrator or Agency Case Manager will provide a copy of the requested data within a reasonable timeframe to the client.

Agencies are permitted to establish reasons for denying client requests for inspection of FBCCIS records. These reasons are limited to the following:

- If the information was compiled in reasonable anticipation of litigation or comparable proceedings.
- If the record contains information about another client or individual and the denial is limited to the section of the record containing such information;
- If the information was obtained under a promise of confidentiality (other than a promise from a healthcare provider or homeless provider) and if the disclosure would reveal the source of the information;
- Disclosure of the information would be reasonably likely to endanger the life or physical safety of an individual.

If an Agency denies a request for access or correction, the Agency will explain the reason for the denial. The Agency will also maintain documentation of the request and the reason for the denial.

X. Data Retrieval and Sharing

Data from the FBCCIS may be used by Fort Bend County to produce local level statistical reports as well as corresponding reports. These purposes are included in the FBCCIS Data Use and Disclosure section of the FBCCIS Privacy Policies and Procedures.

Agencies may share Protected Health Information as defined by the HIPAA Privacy Rule with each other for the purposes of determining eligibility and coordinating client services only if a signed Client Consent and Release Authorization is in place.

Agencies may also retrieve FBCCIS data entered to produce statistical reports including number of clients served and trend assessments for internal purposes, grant applications, and other required reports, within the parameters established by the FBCCIS Lead Agency.

XI. Grievance

Concerns related to the FBCCIS Privacy Policy and Procedures should be directed to the FBCCIS Administrator. Agencies must establish a policy and regular process for receiving and reviewing complaints from clients about potential violations of the policy.

My signature below indicates that I will comply with this the FBCCIS Privacy Policy and Procedures, and that I have received privacy training as part of the FBCCIS program.
