Why Attend?

Expand Your Product Knowledge

Attend ZOLL Data Systems product training sessions, presentations on best practices, and discussions on industry issues and developments. You'll increase your knowledge and get actionable takeaways for tackling today's toughest issues.

Network With Industry Leaders

Connect with EMS and Fire industry leaders with diverse professional backgrounds. Learn from the experiences of others who face the same challenges and strive to achieve the same goals as you do.

Find Your Flock

What product do you want to learn more about? What issues keep you up at night? During the registration process be sure to submit a topic that you'd like to see covered during our moderated roundtables and Birds of a Feather discussion groups.

Earn CEUs While You Learn

Join sessions with applicable CEUs accredited through the National Academy of Ambulance Compliance in order to maintain your current certifications.

Hear From Past Attendees

"At Summit I run into people that are high-level users of the same products we have. They are happy to share information with you. If there's something

you want to accomplish with the software, you can hear from other departments how they successfully achieved that same thing."

Mark Thompson

Monroe County Fire Rescue

"I had a great time, walked away with a lot of information, and couldn't wait to come back. Next year, we're trying to get a bigger group of people. We have billing, finance, and executives. We get a lot from this conference but networking is number one! The things you learn even after hours talking to other people in the industry...not to mention the information from vendors and workshops. You actually learn something here!"

Larry Baumgart

Mercy Flight

"If you use ZOLL's products, then you can't miss Summit. The keynote speakers and topical speakers have consistently been really good, and there's great networking potential with people who use the same products you do."

Reggie Yancey
