TO THE STATEMENT OF ACTIVITIES
For the Three Months Ended December 31, 2021

Net change in fund balances - total governmental funds	\$ (34,650,520)
Adjustments for the Statement of Activities:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which current year capital outlay of \$34,732,746 exceeded depreciation \$10,932,803 in the current period.	23,799,943
Governmental funds report the entire net sales prices (proceeds) from the sales of capital assets as revenue because they provide current financial resources. The change in net position differs from the change in fund balance by the cost of capital assets removed from service.	(425,550)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental current financial resources funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	
Debt issued:	
Leases and capital financing	(19,838,144)
Repayments:	
Principal repayments	1,745,035
Revenues that do not provide current financial resources are not reported as revenues in the governmental funds. This adjustment reflects the net change in receivables on the accrual basis of accounting.	273,800,308

Budgetary Basis

Fort Bend County budgets for operational and capital activity through the fiscal year budget process for the General Fund, Road & Bridge, Drainage, and Debt Service Fund. The General Fund includes a multi-year budget that is not confined to the fiscal year ending September 30. This multi-year budget is used to account for capital projects, grants, and other activity expanding beyond the fiscal year. The funding for these projects and grants originates from a prior or current fiscal year budget allocation that is then transferred to the multi-year project budget. The following schedule shows a reconciliation of the actual activity in the General Fund in the fiscal year from a budgetary to GAAP basis.
