Explore In-Person Experience (</en/conferences/na/symposium-us/conference-resources/in-person>)

Explore the technology, insights and trends shaping the future of IT and business

How we work, communicate and collaborate has changed drastically and will continue to evolve. CIOs and IT executives are expected to deliver value to their organizations like never before. From realizing the potential of digital to addressing environmental and societal challenges, IT leaders are looked upon to provide businesses a competitive edge — especially in times of uncertainty.

The **Gartner IT Symposium/Xpo™ 2022** conference is the place where leadership, technology innovation and business strategy converge. Attendees will walk away with insights and expert guidance on the future direction of technology, best practices to define and validate their IT strategies and real-world examples on how to execute on key initiatives.

CIOs and IT leaders will come together in Orlando, Florida, to discuss key topics, including accelerating digital business, the future of work, data, analytics and artificial intelligence, cybersecurity, executive leadership and more.

Future directions

Understand what's next in a changing world. Explore the emerging technologies and trends that will impact your future planning.

Strategies for success

Learn how to create best-in-class strategies for success to achieve your mission critical priorities.

Critical execution

Shift from strategy to execution. Explore best practices for implementing technologies, approaches and solutions that drive outcomes.

“In today’s rapidly changing world, resilience and adaptability are crucial for business success. Our goal for IT Symposium/Xpo is to provide CIOs and IT executives with insight and advice on the future directions, strategies for success and best practices for execution that drive impact. Building innovation, adaptability and resilience into digital business will not only optimize business value from technology investments, but will also help to future proof business.”

Rita Sallam
Distinguished VP Analyst and Gartner Fellow

Health and safety measures

We are excited and are prepared to return to in-person conferences this year. Over the coming months, we will continue to monitor and adhere to government, venue and health agency guidelines and recommendations as we plan our in-person programs.

As part of our commitment to creating the safest possible environment for our community given current infection rates around the globe, **we will be requiring all attendees, exhibitors, staff and partners to be fully vaccinated to participate in this year's in-person conferences**, in addition to completing a health status attestation prior to arrival.

In addition to the above attendance criteria, we will implement a set of operational planning measures to help create a clean and safe conference. Please note that precautions may evolve prior to each event; however, the following measures will be followed at a minimum:

- Increased cleaning and sanitizing of the event space
- Decreased capacity and minimized congestion where possible across the venue, including more space in aiseways
- Touchless or reduced contact interactions throughout the conference

See Frequently Asked Questions for more information. (/en/conferences/na/symposium-us/frequently-asked-questions#health-and-safety-measures-and-requirements)
