About the Event

APTAtech is scheduled for August 14 through 17 in Denver, CO. As APTA's preeminent transportation technology conference, APTAtech explores how the public can use innovative technologies to better navigate transit including emerging technologies in fare payment systems, autonomous, and zero-emission vehicles, equity, cybersecurity readiness, workforce capacity, real-time open data services, and ridership challenges.

This conference will provide a focused perspective on innovations in mobility, and information technology, and examine the impact of equity on fare payment systems and revenue management. The APTAtech Conference will help the industry rise to the challenges of the ever-moving transportation landscape and evolving ridership.

Who Should Attend

This conference provides a forum for transit agencies of all sizes to explore innovative solutions in fare collections and payment services, emerging technologies for IT and OT services, and best practices with their peers.
