SHARING WHAT WE HAVE LEARNED FOR ALL EMS

Global Medical Response supports EMS World Expo's mission of driving forward the field of paramedicine and the delivery of emergency medical services.

Our first responders and caregivers deserve and demand the latest in technological and procedural breakthroughs that will further enhance their already extraordinary clinical skills. The Expo provides a critical platform to learn from each other and give EMS professionals the tools they need.

Through the pandemic and unprecedented natural disasters, our resilient and resourceful women and men have answered the call: in their communities and deployed around the country.
