Attachments: PSO General FAQs.pdf

Good Afternoon Sheneae and thank you for submitting a request to dispose of grant-funded equipment.

Items with a current per-unit fair market value (FMV) of less than \$5,000 may be retained, sold, or otherwise disposed of with no further obligation to the Public Safety Office (PSO). Please ensure your inventory log is updated to include the disposition information (including the method and date of disposal and fair market value or sale price) and the acquisition of any new equipment. The methods used to determine the FMV of the disposed equipment should be kept on file and made available upon request. Records must be maintained for at least three years from the date the equipment is disposed, replaced, or transferred (please note that grants awarded between 9/1/2015 and 8/31/2016 have a seven-year retention period). The percent of Federal Participation on replacement equipment should be calculated by dividing the FMV of the disposed item by the acquisition cost of the replacement item. For example, if the FMV of a vehicle is \$6,000 and the replacement vehicle costs \$45,000, the % of federal participation would be 13% (this may vary depending on if the difference is also paid with federal grant funds).

I have attached a copy of the PSO General FAQs for additional information. Should you have any questions, please feel free to give me a call at: 512-463-8570.

Thank you,

Kim Hild
Compliance & Operations Administrator
Office of the Governor
Public Safety Office
