The merit review panel will assess and score each application on a 100-point scale, and then report its findings to the Office of the Governor. PSO will generally not fund projects that serve primarily low-risk participants, as determined by a TRAS assessment.

Final Decisions: The Office of the Governor will consider rankings along with other factors and make all final funding decisions. Other factors may include cost effectiveness, overall funds availability, PSO or state government priorities and strategies, legislative directives, need, geographic distribution or other relevant factors.

The Office of the Governor may not fund all applications or may only award part of the amount requested. In the event that funding requests exceed available funds, the Office of the Governor may revise projects to address a more limited focus.

Social Services Coordinator

Grant Number: 4979901

Specialty Courts Grant Program, FY2025

\$106,012.05

This grant aims to establish and expand the C.O.R.E. program with a Social Services Coordinator to support and empower vulnerable youth in our community. The grant will encourage the collaboration with community organizations, educational institutions, and government agencies. By building partnerships, we will enhance the coordination of services, maximize available resources, and provide a seamless support network for youth struggling with mental health. We will work with nonprofit organizations, which includes Fort Bend Partnership for Youth, Inc. (FBPFY) and Justice Forward. In addition, there will be monthly Court appearances along with the District Attorney's Office, and defense attorney, and the Honorable Judge Toni Wallace to update them on the progress of the youth. The department has established successful networking relationships with local law enforcement agencies, school districts, mental health and substance abuse service providers, and additional community programs. The department has developed and maintained ongoing partnerships with higher education and trade schools, in addition to having a current database of local employers to assist with finding jobs for youth in the area.

There is a nationwide growing epidemic of human sex trafficking. Sex trafficking is a heinous crime that exploits vulnerable individuals, particularly juveniles, and leaves them traumatized physically, mentally, and emotionally. Addressing these issues requires a multifaceted approach, including prevention, intervention, and support for survivors. While Fort Bend County has made progress in raising awareness and identifying at-risk individuals through the C.O.R.E. Program (Creating Opportunities through Rehabilitation and Empowerment), there is a critical need for a dedicated Social Services Coordinator position within the C.O.R.E. Program to provide comprehensive care and coordination of services. Fort Bend County youth aged 10-17 who are a medium to high level of risk and are at risk of human trafficking or have been trafficked. Specifically youth who are dealing with post traumatic stress responses, have a lack of positive role models, suffer from a low self-worth, and other risk factors that can greatly impact their future in a negative way without intervention. According to The National Institute of Health, research shows that youth who have been the victim of human trafficking, or at-risk of being trafficked, suffer from increased health problems, post-traumatic stress disorder, depression, malnutrition, poor hygiene, substance abuse issues, education deficiencies, etc. Research further shows that early recognition, intervention, education, life skills training, counseling, and support are imperative to preventing these issues from further negatively impacting the effects this will have on a youth's current living situation and future success. The program was developed based on this research and data driven information. Without the program's therapeutic and wrap around approach that incorporates the probation department, Court, District Attorney, defense attorney, special programs, and outside resources highly trained in the effects of human trafficking these youth would not have the opportunity to implement the

changes needed to reduce the impacts of all the risks listed above. These are the exact youth that the Fort Bend County Juvenile Probation Department works with on a daily basis.

No other known programs such as this in our area (zip code).

The grant award will be used to support the salary and benefits of the Social Services Coordinator position. There would be no part of the project “scalable” if additional cuts are made.

The Fort Bend County Juvenile Probation Department intends to research and approach other government and alternative funding sources for the continued support of the Social Services Coordinator after the grant period or in the event that the funding is reduced or terminated.

Risk Assessment Tools

In addition to the felony-level TRAS (Texas Risk Assessment System) assessment, or the PACT (Positive Achievement Change Tool) assessment for juvenile courts, what additional assessment tools are utilized by this specialty court? Please provide: 1) The name of each assessment tool used; 2) Why the assessment tool was selected for this specific program and the role it plays in this specialty court's case management process; and 3) The position title(s) of the team member(s) responsible for conducting each assessment. If no additional assessment tools are utilized, please provide an explanation as to why the program has chosen to only apply the TRAS or PACT, and if there are any factors limiting the use of additional assessment tools such as the cost associated with an assessment, familiarity with available assessments, etc.

The department has chosen to only utilize the PACT Assessment. With the assistance of the PACT Assessment each youth in the program receives an individualized case plan that is updated on a monthly basis to provide unique services that focus on each youth's specific needs. Project Abstract :

This grant aims to establish and expand the C.O.R.E. program with a Social Services Coordinator to support and empower vulnerable youth in our community. The Social Services Coordinator will play a vital role in facilitating access to essential services, resources, and opportunities for these youth, ensuring they receive comprehensive and personalized care. The primary objective of this grant is to enhance the capacity of our organization to provide high-quality care coordinated services to vulnerable youth. By securing funding for an additional Social Services Coordinator, we will be able to increase our outreach and impact, effectively addressing the unique needs of a larger number of youth in need. Key components of the C.O.R.E. Program Social Services Coordinator Grant Project include: Social Services Coordinator Recruitment and Training: With grant funding, we will recruit a highly qualified Social Services Coordinator who possess the necessary skills, expertise, and compassion to work with vulnerable youth. Extensive training will be provided to ensure they are equipped to navigate complex situations, build trust with the youth, and connect them with appropriate services. Service Expansion: The grant will enable us to expand the scope of services provided by our Social Services Coordinator. They will be able to offer a more comprehensive range of support, including educational assistance, mental health counseling, career guidance, life skills training, housing support, healthcare access, and legal advocacy. This expanded service provision will address the diverse needs of the youth and empower them to overcome barriers to success. Personalized Care Planning: Social Services Coordinator will work closely with each youth to assess their specific needs, strengths, and goals. Together, they will develop personalized care plans that outline a clear path to success. These plans will be regularly reviewed and adjusted to ensure they remain relevant and responsive to the changing circumstances and aspirations of the youth. Collaboration and Partnership: The grant project will facilitate collaborations with community organizations, educational institutions, and government agencies. By building partnerships, we will enhance the coordination of services, maximize available resources, and provide a seamless support network for vulnerable youth. These collaborations will also foster a comprehensive and holistic approach to care. Monitoring and Evaluation: A robust monitoring and evaluation system will be established to assess the effectiveness and impact of the Social Services Coordinator. Key outcome indicators, such as educational attainment, employment rates, mental health outcomes, and overall well-being, will be measured to ensure accountability and continuous improvement. With the help of the C.O.R.E. Program Social Services Coordinator, we seek to strengthen our organization's ability to support vulnerable youth by expanding our team of care coordinators. With their expertise and personalized approach, we aim to empower youth to overcome challenges, develop resilience, and create a brighter future for themselves. This project will make a significant difference in the lives of the youth we serve, improving their well-being and prospects for long-term success.

Problem Statement :

There is a nationwide growing epidemic of human sex trafficking. Sex trafficking is a heinous crime that exploits vulnerable individuals, particularly juveniles, and leaves them traumatized physically, mentally, and emotionally. Addressing these issues requires a multifaceted approach, including prevention, intervention, and support for survivors. While Fort Bend County has made progress in raising awareness and identifying at-risk individuals through the C.O.R.E. Program (Creating Opportunities through Rehabilitation and Empowerment), there is a critical need for a dedicated Social Services Coordinator position within the C.O.R.E. Program to provide comprehensive care and coordination of services. The mission of the C.O.R.E. Program is to empower adolescent youth who have become, or who are currently at-risk of human trafficking, by providing healthy mentoring and support, professional counseling, and educational activities designed to assist them in reclaiming their personal power over their circumstances, themselves, and their future. The C.O.R.E. Program aims to combat the exploitation of juveniles and provide vital support. However, the existing program lacks a dedicated Social Services Coordinator, resulting in fragmented care for survivors and those at risk. Without a central point of contact responsible for case management and coordination of services, the program struggles to effectively meet the complex needs of survivors and at-risk individuals. The Fort Bend County C.O.R.E. Program is making progress with survivors and those at risk of human trafficking. Juveniles in CORE are required to meet with a specialized female Probation Officer at home, school or at the probation office. In addition, each youth meets monthly with the Honorable Judge Toni Wallace, Probation Officer, Therapist, CORE Supervisor, and District Attorney to assess and monitor the youth's progress as well as address any needs or concerns. The CORE Probation Officer also monitors academic progress, family dynamics, social functioning, and rule compliance. The CORE Program consists of specialized interventions developed for youth who demonstrate high-risk sexual behavior, or are survivors of sexual abuse, sex trafficking or victimization, and sexual trauma. Youth participating in the program receive weekly counseling from the CORE Therapist, which includes individual, group, and family intervention services. Treatment interventions incorporate trauma-sensitive care: empowering youth and their families with skills to acknowledge traumatic life events, process thoughts, feelings, and memories about those life events, manage unhealthy and distressing thoughts, and resolve personal feelings related to the trauma. However, the program lacks a dedicated Social Services Coordinator that can add to the progress made and complete the wrap around approach. The Social Services Coordinator will be trained to offer the youth such programs as life skills development, Love 146, Human Trafficking awareness, independent living skills, money management and other programs that will allow the youth to lower their risk of human trafficking and increase their potential for a successful future. Additionally, the program is in need of a Social Services Coordinator that can assist the family of these youth to allow them to be successful in their own homes and reduce the risk of removal from their home. The Social Services Coordinator will assist the family with community resources, parenting, housing and transportation to

appointments that can be the change that these youth need. An ultimate goal of this position would be to keep these at-risk youth out of placement and in the community and to provide the youth with much needed services. The Social Services Coordinator will assist in the Courtroom. They will make sure that the family appears in court as ordered and that all court ordered resources are implemented. They will work with nonprofit organizations which includes Fort Bend Partnership for Youth, Inc. (FBPFY) and Justice Forward. The above key points are just a few of the reasons there is such a great need for expanding the C.O.R.E. Program to include a Social Services Coordinator.

Supporting Data :

There is a nationwide epidemic of human sex trafficking, making it the second largest and fastest growing criminal activity in the world. Texans ranks second in the nation for the most cases. Fort Bend County is a fast growing county that shares a border with Harris County and the I10 corridor, making this county even more susceptible the larger we get. When youth runaway from home, are involved with child protective services, or have a referral to a juvenile probation department this increases their risk of becoming trafficked. These are the exact youth this department works with. Fort Bend County prides itself on providing outreach programs to schools and the community. The Fort Bend County Juvenile Probation Department has been instrumental in facilitating the Awareness Combats Trafficking (A.C.T.) Human Trafficking Awareness Training for Human Trafficking Awareness Month (January). There are currently over 100 participants signed up to attend.

Project Approach & Activities:

The CORE Program consists of specialized interventions developed for youth who demonstrate high-risk sexual behavior, or are survivors of sexual abuse, sex trafficking or victimization, and sexual trauma. Juveniles in the program receive weekly counseling from the CORE Therapist, which includes individual, group, and family intervention services. Treatment interventions incorporate trauma-sensitive care: empowering the youth and their families with skills to acknowledge traumatic life events, process thoughts, feeling, and memories about those life events, manage unhealthy and distressing thoughts, and resolve personal feelings related to the trauma. The Social Services Coordinator will conduct comprehensive support, education, and intervention services. They will facilitate timely access to vital services, including medical and mental health care, counseling, legal aid, housing, and education. They will work closely with service providers to ensure seamless coordination and follow-up support for survivors. The Social Services Coordinator will engage in regular collaboration meetings with community stakeholders, participating in task forces, sharing information, and coordinating joint initiatives. They will also conduct outreach and educational sessions to raise awareness about sex trafficking and empower at-risk individuals. There will be monthly Court appearances along with the Probation Officer, therapist, program supervisor, District Attorney, and defense attorney to update II on the progress of the youth. Activities will be as follows: The Social Services Coordinator will provide an initial screening and assessment of needs utilizing a screening tool(s). The youth will receive an initial and ongoing assessment(s) to determine an individualized resource needs approach. The Social Services Coordinator will facilitate timely access to vital services, including medical and mental health care, counseling, legal aid, housing, and education. They will work closely with service providers to ensure seamless coordination and follow-up support for survivors and youth at risk. The Social Services Coordinator will engage in regular collaboration meetings with community stakeholders, participating in task forces, sharing information, and coordinating joint initiatives. They will also conduct outreach and educational sessions to raise awareness about sex trafficking and empower at-risk individuals. The Social Services Coordinator will provide evidence-based programming, complete human trafficking education / awareness, curriculum, Parent Project classes, life-skills development, vocational skills, and independent living training. By establishing a Social Services Coordinator position within the C.O.R.E. Program, we aim to provide comprehensive care, improve service coordination, and strengthen collaborations to support at-risk youth. The Social Services Coordinator will be instrumental in ensuring at-risk youth receive the necessary services and support to rebuild their lives. Through this grant, we can make a significant impact in combating sex trafficking and empowering survivors at-risk youth in our community.

Capacity & Capabilities:

The Fort Bend County Juvenile Probation Department has a long history of collaboration with numerous community resources. Over the years, the department has established successful networking relationships with local law enforcement agencies, school districts, mental health and substance abuse service providers, and additional community programs. The department has developed and maintained ongoing partnerships with higher education and trade schools, in addition to having a current database of local employers to assist with finding jobs for youth in the area. The Social Services Coordinator will be trained in the following capacities at a minimum: - human trafficking curriculum - Parent Project curriculum - Trust Based Relational Intervention (TBRI) - Fort Bend County Juvenile Probation Department in-house services - availability of outside community-based services and programs - social services - Medicaid eligibility and application process - housing assistance and application process - CPR / First Aid - defensive driving - encourage possibility of higher education and assist in application process - life skills development - promoting independent living skills - assist in removing barriers blocking physical health and personal well being

Performance Management :

Each youth will : - receive an initial assessment to determine individualized resource needs and reassessments to update service plan as youth progress through the program - participate in one life skills development activity a month while in the program - be referred to at least three individualized resources while in the CORE Program - be referred to at least two resources upon completion of the program - complete five hours of Not a Number developed by Love 146 or other human trafficking curriculum - each parent deemed appropriate will attend a Parent Project class per week for 5-8 weeks The department is currently utilizing the Juvenile Justice Case Management (JCMS) system to track the majority of the data. The department also maintains additional departmental data through an excel sheet. All program staff are highly trained to enter and maintain the most accurate data.

Target Group :

Fort Bend County youth aged 10-17 who are a medium to high level of risk and are at risk of human trafficking or have been trafficked. Specifically youth who are dealing with post traumatic stress responses, have a lack of positive role models, suffer from a low self-worth, and other risk factors that can greatly impact their future in a negative way without intervention.

Evidence-Based Practices:

According to The National Institute of Health, research shows that youth who have been the victim of human trafficking, or at-risk of being trafficked, suffer from increased health problems, post-traumatic stress disorder, depression, malnutrition, poor hygiene, substance abuse issues, education deficiencies, etc. Research further shows that early recognition, intervention, education, life skills training, counseling, and support are imperative to preventing these issues from further negatively impacting the effects this will have on a youth's current living situation and future success. The program was developed based on this research and data driven information. Without the program's therapeutic and wrap around approach that incorporates the probation department, Court, District Attorney, defense attorney, special programs, and outside resources highly trained in the effects of human trafficking these youth would not have the opportunity to implement the changes needed to reduce the impacts of all the risks listed above. Trauma Informed Care is the evidence-based program that is being utilized to take into account how traumatic experiences can affect a youth's current living situation and future success. According to The Center for Evidence-Based Practices, Trauma Informed Care utilizes six of the core principles to effectively combat the effects of human trafficking. The six core principles focused on are: safety, trustworthiness and transparency, peer support, collaboration and mutuality, empowerment, voice and choice, and cultural, historical, and gender issues. The CORE Program Team strives to: - improve self-respect by building self-esteem & healthy peer relationships. - utilize counseling, experiential learning activities, and positive role modeling to empower and foster trauma resolution, healthy sexual decisions, improved family relationships, and prosocial behavior. - provide opportunities for healing of self and within their families. - prepare youths to succeed in education and vocational settings and their future careers. - educate about trafficking, internet safety, and healthy sexual decision-making. - empower juveniles and families with the strength to heal from the past, confidence to share their journey, and courage to change their lives. - combat the exploitation and trafficking of vulnerable juveniles by providing comprehensive support, education, and intervention services. Research shows that by utilizing these techniques, a youth's ability to reclaim their personal power over their circumstances, themselves, and their future is greatly enhanced.
