Dear Streetlight Requestor,

This letter is being provided as an invoice and authorization for the subject work. CenterPoint Energy is requested for removal of streetlights. The cost to do this work is **\$4,345.00**. This total cost must be paid in advance before the subject work is performed. This agreement is valid for 90 days from the date listed above.

Once we receive the paper work and payment, the work can be scheduled. A signature below or an e-mail authorizing this work will represent approval for the subject work and associated terms and conditions and cost.

Please send a **check** (payable to *CenterPoint Energy*) and a **signed copy of this agreement letter and sketch** to my attention, *CenterPoint Energy, Streetlight Division, 4700 South Shaver Rd Building I 3rd Floor Houston, TX 77034*. If there are any questions, please call me at (713) 945-3202.

Sincerely,

David Diggs

Street Light Notes

- All streets must be curbed and guttered prior to the installation of street lighting facilities unless otherwise approved by the Lighting Design Service Department.
- Dedicated street light easements are required along all placement of street lighting facilities when such facilities are installed along private streets. Street lighting will only be installed along private streets that can be accessed for maintenance and only when such a street is constructed in an easement intended to contain a private street, waterlines, sanitary sewer lines, storm sewer, and such other utility or franchise infrastructures as can be accommodated and which, for the purpose of established setback, will be considered to be the equal of a public street.
- The design of all streets, utility easements, and storm sewer easements must be approved by all appropriate reviewing agencies before the installation of street lighting.
- Street lighting will be installed to the recommendations of the illuminating Engineering Society unless otherwise requested and agreed upon in writing by the requestor of street lighting service.
