WHAT PAST ATTENDEES ARE SAYING:

Excellent event with relevant agenda topics and extraordinary attendees whom willingly shared their journeys. The Sunday kickoff and duration are ideally structured. Thank you RTM team and sponsors!! Keep up the amazing work!

**-- Chief Technology Officer
Arlington (TX)**

The RTM Summer Government Congress event showcased a dynamic 3-day gathering focused on technology in government. Attendees experienced insightful panels, interactive workshops, and cutting-edge demonstrations. The event fostered a strong sense of community, providing ample opportunities for networking and connecting with peers. Participants engaged in fruitful discussions, exchanged best practices, and forged valuable professional relationships, furthering the integration of technology into government processes.

-- CISO - Chesterfield County (VA)

This was the first time attending this event and enjoyed every minute of it. It was good to talk to so many other counterparts that were experiencing the same things as I was and to get different perspectives on each topic. To be able to network with delegates from all over the nation of both large and small agencies is the greatest value of this event.

**-- Chief Information Officer,
McKinney (TX)**

Program Highlights

Dates
October 27-29, 2024

Leadership Talk	"Strategic Budgeting for Cybersecurity: Maximizing Resources for Optimal Protection" - Timothy Lee, CISO of Los Angeles, CA
Workshop	"Navigating IT Leadership in the Modern Remote Work Culture" - Jonathan Galchik, IT Network Operations Manager of Tulsa, OK
Workshop	"The Effects of AI on Data & Infrastructure Decision Making" - Michael Mayta, CIO of Wichita, KS
Roundtable	"Moving Data Governance Forward" - Amy Cheney, CIO of Bloomington, MN
Roundtable	"Enhancing Efficiency in SLG IT Project Management" - Jeff Scheetz, CIO of Avondale, AZ

“ This was an outstanding opportunity to connect with State & Local leaders in a more intimate setting that allowed for authentic connections with peers. There was an open exchange of ideas & perspectives to broaden awareness in the emerging areas of IT.

-- Director of Information Technology, Albemarle County (VA)

” I had the privilege of attending the Congress, and it was truly an enlightening experience. It provided an excellent platform for government professionals and industry partners to collaborate. I highly recommend this event to anyone and look forward to attending next year.

-- Chief Technology Officer, Lewisville (TX)
