Next-Generation I&O: Available, Intelligent and Resilient

Your future is being built at an ever-accelerating rate, as Generative AI is changing almost every aspect of your organization. Balancing value against resilience and risk is critical to your success, as is transforming your technology platforms. Your people have new expectations of what work is and are looking to you to help navigate the skills and practices that are needed for success. You must be the visionary leader to tackle these challenges and to build the teams and technologies that keep delivering your future.

Gartner IT Infrastructure, Operations & Cloud Strategies Conference 2024 in Las Vegas, NV, brings the world's technology leaders together to hear top trends, find objective answers and topic coverage in addition to best practices. Gain the insights and guidance to create an effective pathway to the future and network with your peers.
