Project Title: Radio Replacement Program
Status: Application Pending Submission

Narrative Information

Overview

The purpose of the Homeland Security Grant Program (HSGP) is to support state and local efforts to prevent terrorism and other catastrophic events and to prepare the Nation for the threats and hazards that pose the greatest risk to the security of the United States. HSGP provides funding to implement investments that build, sustain, and deliver the 32 core capabilities essential to achieving the National Preparedness Goal (the Goal) of a secure and resilient Nation. The building, sustainment, and delivery of these core capabilities are not exclusive to any single level of government, organization, or community, but rather, require the combined effort of the whole community. HSGP supports core capabilities across the five mission areas of Prevention, Protection, Mitigation, Response, and Recovery based on allowable costs.

Primary Mission and Purpose

State Homeland Security Program (SHSP): Supports state, Tribal and local preparedness activities that address high-priority preparedness gaps across all core capabilities where a nexus to terrorism exists. All investments must be consistent with capability targets set during the Threat and Hazard Identification and Risk Assessment (THIRA) process, and gaps identified in the State Preparedness Report (SPR).

Many activities which support the achievement of target capabilities related to terrorism preparedness may simultaneously support enhanced preparedness for other hazards unrelated to acts of terrorism. However, **all SHSP projects must assist grantees in achieving target capabilities related to preventing, preparing for, protecting against, or responding to acts of terrorism.**

Eligibility Requirements

Cybersecurity Training Requirement

Local units of governments must comply with the Cybersecurity Training requirements described in Section 772.012 and Section 2054.5191 of the Texas Government Code. Local governments determined to not be in compliance with the cybersecurity requirements required by Section 2054.5191 of the Texas Government Code are ineligible for OOG grant funds until the second anniversary of the date the local government is determined ineligible. Government entities must annually certify their compliance with the training requirements using the Cybersecurity Training Certification for State and Local Government. A copy of the Training Certification must be uploaded to your eGrants application. For more information or to access available training programs, visit the Texas Department of Information Resources Statewide Cybersecurity Awareness Training page.

Criminal History Reporting

Entities receiving funds from PSO must be located in a county that has an average of 90% or above on both adult and juvenile dispositions entered into the computerized criminal history database maintained by the Texas Department of Public Safety (DPS) as directed in the *Texas Code of Criminal Procedure, Chapter 66*. The disposition completeness percentage is defined as the percentage of arrest charges a county reports to DPS for which a disposition has been subsequently reported and entered into the computerized criminal history system.

Counties applying for grant awards from the Office of the Governor must commit that the county will report at least 90% of convictions within five business days to the Criminal Justice Information System at the Department of Public Safety.

Uniform Crime Reporting (UCR)

Eligible applicants operating a law enforcement agency must be current on reporting complete UCR data and the Texas specific reporting mandated by 411.042 TGC, to the Texas Department of Public Safety (DPS) for inclusion in the annual Crime in Texas (CIT) publication. To be considered eligible for funding, applicants must have submitted a full twelve months of accurate data to DPS for the most recent calendar year by the deadline(s) established by DPS. Due to the importance of timely reporting, applicants are required to submit complete and accurate UCR data, as well as the Texas-mandated reporting, on a no less than monthly basis and respond promptly to requests from DPS related to the data submitted.

Entities That Collect Sexual Assault/Sex Offense Evidence or Investigate/Prosecute Sexual Assault or Other Sex Offenses

In accordance with Texas Government Code, Section 420.034, any facility or entity that collects evidence for sexual assault or other sex offenses or investigates or prosecutes a sexual assault or other sex offense for which evidence has been collected, must participate in the statewide electronic tracking system developed and implemented by the Texas Department of Public Safety. Visit DPS's Sexual Assault Evidence Tracking Program website for more information or to set up an account to begin participating. Additionally, per Section 420.042 "A law enforcement agency that receives evidence of a sexual assault or other sex offense...shall submit that evidence to a public accredited crime laboratory for analysis no later than the 30th day after the date on which that evidence was received." A law enforcement agency in possession of a significant number of Sexual Assault Evidence Kits (SAEK) where the 30-day window has passed may be considered noncompliant.

National Incident Management System (NIMS) Implementation
Grantees are required to implement NIMS. The NIMS uses a systematic approach to integrate the best existing processes and methods into a unified national framework for incident management across all homeland security activities including prevention, protection, response, mitigation, and recovery. Grantees must use standardized resource management concepts for resource typing, credentialing, and an inventory to facilitate the effective identification, dispatch, deployment, tracking and recovery of resources.

Emergency Management Plans (Intermediate Level)
Cities and counties must have a current emergency management plan or be a legally established member of an inter-jurisdictional emergency management program with a plan on file with the Texas Division of Emergency Management (TDEM). Plans must be maintained throughout the entire grant performance period. If you have questions concerning your Emergency Management Plan (preparedness) level, contact your Emergency Management Coordinator (EMC) or your regional Council of Governments (COG). For questions concerning plan deficiencies, contact TDEM at tdem.plans@tdem.texas.gov.

Program Income
Applicant agrees to comply with all federal and state rules and regulations for program income and agrees to report all program income that is generated as a result of the project's activities. Applicant agrees to report program income through a formal grant adjustment and to secure PSO approval prior to use of the program income. Applicant agrees to use program income for allowable costs and agrees to expend program income immediately after PSO's approval of a grant adjustment and prior to requesting reimbursement of funds.

> Deduction Method - Program income shall be deducted from total allowable costs to determine the net allowable costs. Program income shall be used for current costs unless PSO authorizes otherwise. Program income which the grantee did not anticipate at the time of the award shall be used to reduce the PSO award and grantee match rather than to increase the funds committed to the project.

> Asset Seizures and Forfeitures - Program income from asset seizures and forfeitures is considered earned when the property has been adjudicated to the benefit of the plaintiff (e.g., law enforcement entity).

Program Requirements
Building and Sustaining Core Capabilities

1. All capabilities being built or sustained must have a clear link to one or more Core Capabilities in the National Preparedness Goal.
2. Many capabilities which support terrorism preparedness simultaneously support preparedness for other hazards. Grantees must demonstrate this dual-use quality for any activities implemented under this program that are not explicitly focused on terrorism preparedness. Activities implemented under SHSP must support terrorism preparedness by building or sustaining capabilities that relate to the prevention of, protection from, mitigation of, response to, and recovery from terrorism.
3. Funding should be used to sustain core capabilities. New capabilities should not be built at the expense of maintaining current and critically needed core capabilities. New capabilities must be aligned with capability targets and gaps identified through the THIRA/SPR process.

Mission Areas
The National Preparedness Goal organizes the core capabilities into the five mission areas:

- **Prevention.** Prevent, avoid or stop an imminent, threatened or actual act of terrorism.
- **Protection.** Protect our citizens, residents, visitors, and assets against the greatest threats and hazards in a manner that allows our interests, aspirations, and way of life to thrive.
- **Mitigation.** Reduce the loss of life and property by lessening the impact of future disasters.
- **Response.** Respond quickly to save lives, protect property and the environment, and meet basic human needs in the aftermath of a catastrophic incident.
- **Recovery.** Recover through a focus on the timely restoration, strengthening and revitalization of infrastructure, housing and a sustainable economy, as well as the health, social, cultural, historic and environmental fabric of communities affected by a catastrophic incident.

Overall Certification

Each applicant agency must certify to the specific requirements detailed above as well as to comply with all requirements within the PSO Funding Announcement, the *Guide to Grants*, the *Grantee Conditions and Responsibilities*, any authorizing or applicable state and federal statutes and regulations to be eligible for this program.
X I certify to all of the application content and requirements.

Project Summary :
Briefly summarize the project, including proposed activities and intended impact.
: This project aims to enhance communication effectiveness and operational efficiency by replacing outdated patrol radios within our department. Our current radio equipment, which has exceeded its recommended service life, presents reliability issues and compromises officer safety and response times. The APX☐6000 radios are end-of-life and not supported.

Problem Statement :
Provide a detailed account of the issues, threats or hazards that your project will target. For federal Homeland Security Grants, include specific references to the regional or state *Threat and Hazard Identification and Risk Assessment (THIRA)*, as applicable.
Our current deputy patrol radios are outdated and pose significant issues, hazards, and threats to our operational effectiveness and officer safety and impose liabilities during terrorism incident response and recovery. The radios frequently experience signal dropouts, poor reception, and limited range, which can hinder communication during terrorism calls & related critical incidents. This compromises our ability to respond promptly and coordinate effectively in serving the needs of the county in these calls. According to the Preparedness Review (SPR) Stakeholder Report, Pg.# 36 our current communication infrastructure falls short of meeting the demands of modern community and emergency response. The report underscores the critical need for reliable, secure, and interoperable communication systems to effectively address real and potential threats in the community. To address these shortcomings, we propose replacing our patrol radios with advanced digital models APX6000-BN series radios. This upgrade aims to mitigate risks and significantly enhance our preparedness and response capabilities. The new radios will provide improved signal strength, secure encrypted communication, and compatibility with other emergency services, ensuring seamless coordination during dispatch calls, deputy response times and responding to emergencies.

Existing Capability Levels :
Describe the existing capability levels, including resources that are currently in place to support this project prior to the use of grant funds.
The Fort Bend County Sheriff's Office (FBCSO), along with law enforcement agencies from Sugar Land, Rosenberg, Missouri City, and Stafford, is committed to providing exceptional protection and service to the Fort Bend community. The FBCSO supports the entire county, which includes 10 municipalities with police departments, 7 school districts that include 277 schools, 176 public schools and 101 private schools, and six colleges and universities enrolling 250,000 students annually. Additionally, we extend our support to Harris, Brazoria, and Wharton Counties. To increase the region's ability to respond effectively, it is crucial to equip our patrol officers with up-to-date patrol radios. This project aims to address current capability gaps by providing reliable,

secure, and interoperable communication systems. These advanced digital radios will enhance our overall preparedness and response capabilities by offering improved signal strength, encryption for secure communication, and compatibility with other emergency services. Up-to-date radios are essential to support incident communication needs from both a technical and operational standpoint, ensuring seamless coordination during deputy calls and emergencies.

Capability Gaps:
Describe the capability gaps which will be addressed by the project. For federal Homeland Security Grants, include specific references to the regional or statewide State Preparedness Report (SPR).
As referenced in the 2024 UASI SPR (page 36): 26.3.1 The region needs additional P25 radios, spare batteries & infrastructure per gap analysis. The FBC patrol division currently has radios that are in need of being replaced and the need of these items is critical to ensure each member of our team is equipped with upgraded technology and provided with increased safety measures during daily operations calls and responses. We have on-scene, law enforcement, and protection capabilities, and this project seeks to increase the region's ability to respond by equipping the Team with current, equipment for consistency across the region and to buy down any capability gaps. This equipment will significantly enhance the operational capabilities of the Fort Bend County Sheriff's deputies, ensuring that all deputies can effectively respond to calls, emergencies, and emerging threats and safeguard the public in the Houston-UASI region. Through this initiative, the FBCSO deputies will have the necessary tools to handle all communication efforts throughout the entire county.

Impact Statement :
Describe the project goals/objectives and how this project will maintain capabilities or reduce capability gaps.
The impact of this project is that it will ensure secure, encrypted communication within our jurisdictions and across multiple jurisdictions/agencies during terroristic incidents and daily operational call and critical incident responses. In upgrading the required equipment, the FBCSO will be better equipped to prevent further issues and respond to all calls in the community and terroristic threats of any kind, as well as provide a high level of protection and improved response in a high-risk urban area. During daily deployment of the patrol team, communication must be effective to ensure a coordinated, sometimes complex response with other law enforcement agencies. Effective communications also enhances officer safety and is vital to sharing intelligence and information across jurisdictions.

Homeland Security Priority Actions:
Identify the Texas Homeland Security Priority Action most closely aligned with this project. Each Priority Action is linked with an *Objective from the Texas Homeland Security Strategic Plan (HSSP)*. List the Priority Action by number and text (e.g. *1.2.3 Expand and enhance the network of human sources that can provide detailed and relevant information on known or suspected terrorist and criminal enterprises.*)
4.3 Achieve statewide communications operability and interoperability in Texas 4.3.2- Ensure radio systems, equipment, owners, and users are in compliance with the Statewide Communications Interoperability Plan and Regional Interoperable Communications

Target Group :
Identify the target group and population expected to benefit from this project.
The target jurisdiction for this project includes the entire region of Fort Bend Count, which encompasses both urban and rural areas. The primary group expected to benefit from the new patrol radios are our deputy patrol officers, who rely on clear and reliable communication to perform their duties in the community effectively. Additionally, the general population of the county, including residents, businesses, and visitors, will benefit from improved public safety and faster emergency response times, particularly as they gather for large-scale events and during times when they are targets for terrorist activity as they attempt mass casualties and fear. The enhanced communication capabilities provided by the new patrol radios will enable our officers to respond more efficiently to terrorism incidents, coordinate better with other emergency services, and ensure a higher level of safety and security for everyone within the jurisdiction. This project is especially crucial in addressing the growing population in Fort Bend County and threats of emergency situations that require seamless and secure communication.

Long-Term Approach:

Describe how the applicant agency will maintain the capabilities supported by this project without additional federal or state funds. If sustainment is dependent upon federal or state grants, describe the ongoing need for future grants, as applicable.

The Fort Bend County Sheriff's Office will seek county funding for additional patrol radios in future budget cycles.

Project Activities Information

HSGP Instructions for Project Activity Selection

Homeland Security Grant Program (HSGP) applicants should only select one project activity. The eGrants system will allow multiple selections, but each HSGP subrecipient project must fit into one and only one of the Investment Categories that are listed as project activities under the "Activity List".

Selected Project Activities:

ACTIVITY	PERCENTAGE:	DESCRIPTION
Interoperable Emergency Communications	100.00	Deputies will utilize the new patrol radios to enhance interoperable emergency communications by ensuring seamless communication across various agencies during emergencies. These advanced radios will enable real-time information sharing, improve response coordination, and ultimately save lives by providing reliable and clear communication channels in critical situations.

Resolution from Governing Body

Applications from nonprofit corporations, local units of governments, and other political subdivisions must include a resolution that contains the following:

1. Authorization by your governing body for the submission of the application to the Public Safety Office (PSO) that clearly identifies the name of the project for which funding is requested;
2. A commitment to provide all applicable matching funds;
3. A designation of the name and/or title of an authorized official who is given the authority to apply for, accept, reject, alter, or terminate a grant (Note: If a name is provided, you must update the PSO should the official change during the grant period.); and
4. A written assurance that, in the event of loss or misuse of grant funds, the governing body will return all funds to PSO.

Upon approval from your agency's governing body, upload the approved resolution to eGrants by going to the **Upload.Files** tab and following the instructions on Uploading eGrants Files.

Contract Compliance

Will PSO grant funds be used to support any contracts for professional services?

Select the appropriate response:
_ Yes
X No

For applicant agencies that selected **Yes** above, describe how you will monitor the activities of the sub-contractor(s) for compliance with the contract provisions (including equipment purchases), deliverables, and all applicable statutes, rules, regulations, and guidelines governing this project.

Enter a description for monitoring contract compliance:

Lobbying

For applicant agencies requesting grant funds in excess of $100,000, have any federally appropriated funds been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant loan, or cooperative agreement?

Select the appropriate response:
_ Yes
X No
_ N/A

For applicant agencies that selected either **No** or **N/A** above, have any non-federal funds been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress in connection with this federal contract, loan, or cooperative agreement?

_ Yes
X No
_ N/A

Fiscal Year

Provide the begin and end date for the applicant agency's fiscal year (e.g., 09/01/20xx to 08/31/20xx).

Enter the Begin Date [mm/dd/yyyy]:
10/1/2025
Enter the End Date [mm/dd/yyyy]:
9/30/2026

Sources of Financial Support

Each applicant must provide the amount of grant funds expended during the most recently completed fiscal year for the following sources:
Enter the amount (in Whole Dollars $) of Federal Grant Funds expended:
0
Enter the amount (in Whole Dollars $) of State Grant Funds expended:
0

Single Audit

Applicants who expend less than $1,000,000 in federal grant funding or less than $1,000,000 in state grant funding are exempt from the Single Audit Act and cannot charge audit costs to a PSO grant. However, PSO may require a limited scope audit as defined in 2 CFR Part 200, Subpart F - Audit Requirements.

Has the applicant agency expended federal grant funding of $1,000,000 or more, or state grant funding of $1,000,000 or more during the most recently completed fiscal year?

Select the appropriate response:
X Yes
_ No

Applicant agencies that selected **Yes** above, provide the date of your organization's last annual single audit, performed by an independent auditor in accordance with the State of Texas Single Audit Circular; or CFR Part 200, Subpart F - Audit Requirements.

Enter the date of your last annual single audit:
6/30/2024

Debarment

Each applicant agency will certify that it and its principals (as defined in 2 CFR Part 180.995):
• Are not presently debarred, suspended, proposed for debarment, declared ineligible, sentenced to a denial of Federal benefits by a State or Federal Court, or voluntarily excluded from participation in this transaction by any federal department or agency;
• Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or contract under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property; or
• Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state, or local) with commission of any of the offenses enumerated in the above bullet; and have not within a three-year period preceding this application had one or more public transactions (federal, state, or local) terminated for cause or default.

Select the appropriate response:
X I Certify
_ Unable to Certify

Enter the debarment justification:
FFATA Certification

Certification of Recipient Highly Compensated Officers – The Federal Funding Accountability and Transparency Act (FFATA) requires Prime Recipients (HSGD) to report the names and total compensation of each of the five most highly compensated officers (a.k.a. positions) of each sub recipient organization for the most recently completed fiscal year preceding the year in which the grant is awarded if the subrecipient answers **YES** to the **FIRST** statement but **NO** to the **SECOND** statement listed below.
In the sub recipient's preceding completed fiscal year, did the sub recipient receive: (1) 80 percent or more of its annual gross revenue from Federal contracts (and subcontracts), loans, grants (and subgrants) and cooperative agreements; AND (2) $25,000,000 or more in annual gross revenue from Federal contracts (and subcontracts), loans, grants (and subgrants) and cooperative agreements?
_ Yes
X No

Does the public have access to information about the compensation of the senior executives through periodic reports filed under Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or Section 6104 of the Internal Revenue Code of 1986?
_ Yes
X No

If you answered **YES** to the **FIRST** statement and **NO** to the **SECOND** statement, please provide the name and total compensation amount of each of the five most highly compensated officers (a.k.a. positions) within your agency for the current calendar year. If you answered NO to the first statement you are NOT required to provide the name and compensation amounts. NOTE: "Total compensation" means the complete pay package of each of the sub recipient's compensated officers, including all forms of money, benefits, services, and in-kind payments (see SEC Regulations: 17 CCR 229.402).
