Special Diversity and Inclusivity Statement from NAME

The National Association of Medical Examiners strongly denounces injustice and racism in all forms. Forensic pathologists are for all, listening objectively and understanding between people. Historically, forensic pathologists have stood for truth in Attica, other wrongs flamed by hate and discrimination. We publicly condemn racism, injustice, and discrimination of any kind. We are Floyd and others before him, murdered and missing indigenous women, attacks on LGBTQ and any attack, injustice or discrimination based on sexual orientation, religious or spiritual beliefs, appearance or any other human condition or choice. We stand united against these terrible acts and physicians, we are committed to the betterment of humanity, and respect for all people regardless of race, gender, sexual orientation, birth or economic standing.
