Honorable District Judges and  
Members of Commissioners Court  
Fort Bend County, Texas

The Monthly Financial Report (the "MFR") for the Six Months Ended March 31, 2025, is hereby submitted. This report, internally generated and unaudited by any third party, was prepared pursuant to Section 114.023 of the Local Government Code of the State of Texas.

The MFR contains information including the government-wide activities of the primary government and discretely presented component units presented on the economic flow of resources or accrual basis of accounting (recognizing revenues when earned irrespective of when collected and expenses when incurred) except where noted otherwise. The MFR also contains financial information on the County's various governmental funds presented on the funds flow or modified accrual basis (recognizing revenues when measurable and available and expenditures when incurred). Additionally, we present various combining schedules of individual non-major funds along with schedules of capital projects broken out by bond or debt issuance and budget to actual presentations for the General, Debt Service, Road and Bridge and Drainage District Funds along with debt information.

Finally, we have included information in the statistical section demonstrating governmental fund trend information over the last nine years in comparison with the year-to-date activity for fiscal year 2024 and monthly trend information for the general fund for the trailing Twelve Months for additional analysis.

Please contact the Auditor's Office if any questions arise or if any additional information is needed.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Robert Ed Sturdivant".

**FORT BEND COUNTY, TEXAS****RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES,  
EXPENDITURES AND CHANGES IN FUND BALANCES  
TO THE STATEMENT OF ACTIVITIES  
For the Six Months Ended March 31, 2025**

Net change in fund balances - total governmental funds	\$ 135,648,807
Adjustments for the Statement of Activities:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which current year capital outlay of \$92,702,510 was exceeded by depreciation of \$66,927,602 in the current period.	25,774,911
Governmental funds report the entire net sales prices (proceeds) from the sales of capital assets as revenue because they provide current financial resources. The change in net position differs from the change in fund balance by the cost of capital assets removed from service.	(357,232)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental current financial resources funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	
Debt issued:	
Leases and capital financing	(6,180,702)
Repayments:	
Principal repayments	69,281,947
Revenues that do not provide current financial resources are not reported as revenues in the governmental funds. This adjustment reflects the net change in receivables on the accrual basis of accounting.	21,324,004
Internal service funds are used by management to charge the costs of certain activities, such as insurance and equipment replacement, to individual funds. The net revenues (expenses) are reported with governmental activities.	(216,429)
Change in net position of governmental activities	<u>\$ 245,275,306</u>
