

§

3. **Time for Performance.** Time for performance for the Services provided under this Agreement shall begin with Engineer's receipt of Notice to Proceed (the "Commencement Date") and shall end no later than ninety (90) days from the Commencement Date. Engineer shall complete such tasks described in the Scope of Services, within this time or within such additional time as may be extended by County.

4. **Compensation and Payment Terms.**

Engineer's fees for the Services shall be calculated at the rate(s) set forth in Exhibit "A" attached hereto. The Maximum Compensation to Engineer for the Services performed under this Agreement is Forty One Thousand and 00/100 Dollars (\$41,000.00). In no event shall the amount paid by County to Engineer under this Agreement exceed said Maximum Compensation without an approved change order.

- (a) Engineer understands and agrees that the Maximum Compensation stated is an all-inclusive amount and no additional fee, cost or reimbursed expense shall be added whatsoever to the fees stated in the attached Exhibit "A."
 - (b) County will pay Engineer based on the following procedures: Upon completion of the tasks identified in the Scope of Services, Engineer shall submit to County staff person designated by the County Engineer, one (1) electronic (pdf) copy of the invoice showing the amounts due for services performed in a form acceptable to County. Engineer shall submit invoices no more frequently than on a monthly basis. County shall review such invoices and approve them within 30 calendar days with such modifications as are consistent with this Agreement and forward same to the Auditor for processing. County shall pay each such approved invoice within thirty (30) calendar days.
 - (c) Accrual and payment of interest on any overdue payments assessed by Engineer, if any, shall be governed by Chapter 2251 of the Texas Government Code.
 - (d) Engineer understands and agrees that County's obligation to make any payment(s) hereunder is dependent upon Engineer's completion of the Services in a timely, good, and professional manner and in accordance with the performance representations made in Section 25 of this Agreement. Therefore, County reserves the right to withhold payment pending verification of satisfactory work performed.
5. **Limit of Appropriation.** Engineer understands and agrees that the Maximum Compensation for the performance of the Services within the Scope of Services described in Section 2 above is \$41,000.00. In no event shall the amount paid by County under this Agreement exceed the Maximum Compensation without a County approved change order. Engineer clearly understands and agrees, such understanding and agreement being of the absolute essence of this Agreement, that County shall have available the total

maximum sum of \$41,000.00 specifically allocated to fully discharge any and all liabilities County may incur under this Agreement. Engineer does further understand and agree, said understanding and agreement also being of the absolute essence of this Agreement, that the total Maximum Compensation that Engineer may become entitled to and the total maximum sum that County may become liable to pay Engineer under this Agreement shall not under any conditions, circumstances, or interpretations thereof exceed \$41,000.00.

6. **Non-appropriation.** Engineer understands and agrees that in the event no funds or insufficient funds are appropriated by the County under this Agreement, County shall immediately notify Engineer in writing of such occurrence and the Agreement shall thereafter terminate and be null and void on the last day of the fiscal period for which appropriations were received or made without penalty, liability or expense to the County. In no event shall said termination of this Agreement or County's failure to appropriate said funds be deemed a breach or default of this Agreement or create a debt by County in any amount(s) in excess of those previously funded.
7. **Taxes.** Engineer understands and agrees that County is a governmental entity and political subdivision of the state of Texas, and as such, is exempt from payment of any sales and use taxes. County shall furnish evidence of its tax-exempt status upon written request by Engineer.
8. **Insurance.** Prior to commencement of the Services, Engineer shall furnish County with properly executed certificates of insurance which shall evidence all insurance required and provide that such insurance shall not be canceled, except on 30 days' prior written notice to County. Engineer shall provide certified copies of insurance endorsements and/or policies if requested by County. Engineer shall maintain such insurance coverage from the time Services commence until Services are completed and provide replacement certificates, policies and/or endorsements for any such insurance expiring prior to completion of Services. Engineer shall obtain such insurance written on an Occurrence form from such companies having Best's rating of A/VII or better, licensed or approved to transact business in the State of Texas, and shall obtain such insurance of the following types and minimum limits:
 - (a) Workers Compensation in accordance with the laws of the State of Texas. Substitutes to genuine Workers' Compensation Insurance will not be allowed.
 - (b) Employers' Liability insurance with limits of not less than \$1,000,000 per injury by accident, \$1,000,000 per injury by disease, and \$1,000,000 per bodily injury by disease.

- (e) Professional Liability insurance with limits not less than \$1,000,000.

County and members of the Fort Bend County Commissioners Court shall be named as additional insured to all required coverage except for Workers' Compensation and Professional Liability (if required). All Liability policies written on behalf of Engineer shall contain a waiver of subrogation in favor of County.

If required coverage is written on a claims-made basis, Engineer warrants that any retroactive date applicable to coverage under the policy precedes the Effective Date of this Agreement and that continuous coverage will be maintained or an extended discovery period will be exercised for a period of 2 years beginning from the time the work under this Agreement is completed.

Engineer shall not commence any portion of the work under this Agreement until it has obtained the insurance required herein and certificates of such insurance have been filed with and approved by County.

No cancellation of or changes to the certificates, or the policies, may be made without thirty (30) days prior, written notification to County.

Approval of the insurance by County shall not relieve or decrease the liability of the Engineer.

9. **Indemnity. PURSUANT TO SECTION 271.904 OF THE TEXAS LOCAL GOVERNMENT CODE, ENGINEER SHALL INDEMNIFY AND HOLD HARMLESS COUNTY, ITS OFFICIALS, OFFICERS, AND EMPLOYEES FROM AND AGAINST ALL CLAIMS, LOSSES, DAMAGES, CAUSES OF ACTION, SUITS, LIABILITY, AND COSTS, INCLUDING THE REIMBURSEMENT OF REASONABLE ATTORNEY FEES, ARISING OUT OF OR RESULTING FROM AN ACT OF NEGLIGENCE, INTENTIONAL TORT, INTELLECTUAL PROPERTY INFRINGEMENT, OR FAILURE TO PAY A SUBCONTRACTOR OR SUPPLIER COMMITTED BY ENGINEER OR ENGINEER'S AGENTS, EMPLOYEES, OR ANOTHER ENTITY OVER WHICH ENGINEER EXERCISES CONTROL. 10. **Public Information Act.** Engineer expressly acknowledges and agrees that County is a public entity and as such, is subject to the provisions of the Texas Public Information Act under Chapter 552 of the Texas Government Code. In no event shall County be liable to Engineer for release of information pursuant to Chapter 552 of the Texas Government Code or any other provision of law. Except to the extent required by law or as directed by the Texas Attorney General, County agrees to maintain the confidentiality of information provided by Engineer expressly marked as proprietary or confidential. Engineer, in providing all services hereunder, further agrees to abide by the provisions of any applicable Federal or State Data Privacy Act.
12. **Independent Contractor.** In the performance of work or services hereunder, Engineer shall be deemed an independent Contractor, and any of its agents, employees, officers,

or volunteers performing work required hereunder shall be deemed solely as employees of Engineer. Engineer and its agents, employees, officers, or volunteers shall not, by performing work pursuant to this Agreement, be deemed to be employees, agents, or servants of County and shall not be entitled to any of the privileges or benefits of County employment.

13. **Use of Customer Name.** Engineer may use County's name without County's prior written consent only in Engineer's customer lists. Any other use of County's name by Engineer must have the prior written consent of County.
14. **County/County Data.** Nothing in this Agreement shall be construed to waive the requirements of Section 205.009 of the Texas Local Government Code.
15. **Personnel.** Engineer represents that it presently has, or is able to obtain adequate qualified personnel in its employment for the timely performance of the Services required under this Agreement and that Engineer shall furnish and maintain, at its own expense, adequate and sufficient personnel, in the opinion of County, to perform the Services when and as required and without delays.

All employees of Engineer shall have such knowledge and experience as will enable them to perform the duties assigned to them. Any employee or agent of Engineer who, in County's opinion, is incompetent or by his conduct becomes detrimental to providing Services pursuant to this Agreement, shall, upon request of County, immediately be removed from association with the Services required under this Agreement.

When performing Services on-site at County's facilities, Engineer shall comply with, and will require that all Engineer's Personnel comply with, all applicable rules, regulations and known policies of County that are communicated to Engineer in writing, including security procedures concerning systems and data and remote access thereto, building security procedures, including the restriction of access by County to certain areas of its premises or systems for security reasons, and general health and safety practices and procedures.

16. **Confidential and Proprietary Information.** Engineer acknowledges that it and its employees or agents may, in the course of performing their responsibilities under this Agreement, be exposed to or acquire information that is confidential to County. Any and all information of any form obtained by Engineer or its employees or agents from County in the performance of this Agreement shall be deemed to be confidential information of County ("Confidential Information"). Engineer agrees that, except as directed by County, Engineer will not at any time during or after the term of this Agreement disclose, directly or indirectly, any Confidential Information to any person, and that upon termination of this Agreement or at County's request, Engineer will promptly turn over to County all documents, papers, and other matters in Engineer's possession which embody Confidential Information.

Engineer acknowledges that a breach of this Section, including disclosure of any Confidential Information, or disclosure of other information that, at law or in equity, ought to remain confidential, will give rise to irreparable injury to County that is inadequately compensable in damages. Accordingly, County may seek and obtain injunctive relief against the breach or threatened breach of the foregoing undertakings, in addition to any other legal remedies that may be available. Engineer acknowledges and agrees that the covenants contained herein are necessary for the protection of the legitimate business interest of County and are reasonable in scope and content.

19. **Termination.**

Subject: Fort Bend County
Cargo Planning
Proposal to Provide Professional Engineering Services

Dear Mr. Haskins:

This letter serves as the proposal to conduct the initial feasibility planning

Phase I – Fundamentals of Concept and Viability

The following tasks describe the scope of services for a cursory review of the viability for a new cargo facility potentially located in Fort Bend County, Texas.

1.0 VISION AND MAIN OBJECTIVES

This task includes a virtual TEAMS meeting with key sponsor stakeholders and other County staff, as deemed appropriate. The intent of the meeting is to define a vision for the future transportation facilities. This will include brainstorming and consensus building discussions on topics including: the use the facility should be oriented toward, potential locations within the County/Region that may work for siting, economic and local factors that may drive its use, desired connectivity to other Regional infrastructure, possible ownership framework, and implementation strategies. The discussions will aid in establishing an initial, overarching vision for the regional transportation facilities and developing specific goals and objectives that the facilities should strive to meet.

Deliverable: A brief technical summary document (MS PowerPoint slide deck) will be prepared in electronic format and delivered to the sponsor subsequent to the meeting and will provide a summary document of the discussions, the vision, the goals and objectives, and other pertinent content where available. One (1) round of edits is scoped, if needed. Any distribution among stakeholders will be at the sponsor's discretion.

2.0 REGIONAL FUNDAMENTALS / CARGO NEEDS

This task includes a gathering and review of the major economic drivers that may likely influence a potential new cargo transportation needs. The business climate and unique logistics dynamics within the Houston metroplex and the surrounding regions which may influence the facilities will be explored and

identified. Socioeconomic data (growth in population, per capita income, housing, employment, new business growth, etc.) supporting findings will be detailed, as they are available. Through research and analysis, this task will develop and document specifics correlating back to the vision for the facilities and the user groups it will serve in the future.

3.0 LANDSIDE CONNECTIVITY / LAND USE COMPATIBILITY

This task will prepare a rough estimate of land area and approximate facilities sizing requirements for the potential new cargo facility. These estimates will be utilized to explore land availability options, regional roadway connectivity and surrounding land uses at a high level to review compatibility parameters necessary for the type of cargo facilities envisioned. For roadway connectivity, consideration will include connections to highway infrastructure, arterial and local roadway access requirements, and connectivity to other industry/facilities. Additionally, proximity to prominent rail lines/networks and seaport access will be identified and described. If known Foreign Trade Zones (FTZ) exist in the region, these will be identified as well. Land use compatibility will include consideration of zoning and airspace requirements including FAR Part 77 surfaces and potential TERPS surfaces.

Deliverable: A technical summary document (MS PowerPoint slide deck) addressing work in Tasks 2.0 and 3.0 will be prepared in electronic format and delivered to the sponsor outlining the materials used in the review, any restrictive parameters considered, the approach and findings from the applicable cursory assessment, and subsequent recommendations or considerations. One (1) round of edits is scoped, if needed. Any distribution among stakeholders will be at the sponsor's discretion.

4.0 ORDER OF MAGNITUDE COSTS / FUNDING / DELIVERY STRATEGIES

Utilizing the profile of approximate development prepared in Task 3.0, a rough order of magnitude (OOM) cost will be generated and discussed based on the assumptions developed within prior tasks and the vision determined for the cargo facility. The intent of the overall cost will be to capture expenditures from inception through opening. Utilizing the rough OOM cost, funding source alternatives will be discussed along with possible delivery methods. Approximate schedule timelines will also be considered. These costs, funding alternatives and delivery methods will be cursory, general in nature, and will require more in-depth consideration and analyses as the vision for the new facilities advances and becomes better understood and supported.

Deliverable: A brief technical summary document (MS PowerPoint slide deck) addressing Tasks 4.0 will be prepared in electronic format and delivered to the sponsor outlining the task review and findings. One (1) round of edits is scoped, if needed. Any distribution among stakeholders will be at the sponsor's discretion.

5.0 SUMMARY PRESENTATION OF FINDINGS / EARLY JUSTIFICATION

This task prepares documentation from this phase of work, combining key aspects of Tasks 2.0 through 4.0. This will include findings and early supporting justification for the new facilities, based on what is known at the time of this scope of services and the understood, cursory level of detail. It is intended to serve as a summary document for subsequent engagement with industry stakeholders (i.e., overnight and all cargo carriers, freight forwarders, etc.) and sponsor staff.

Deliverable: A summary document (MS PowerPoint slide deck) combining Tasks 2.0 through 4.0 will be prepared in electronic format and delivered to the sponsor for their use. One (1) round of edits is scoped, if needed.

6.0 EARLY CARGO INDUSTRY/SELECT CARRIER ENGAGEMENT
