Experience Real-World Training with LMSTI

Just like our other residential courses, the LMSTI program transitions you from the classroom to real-world scenarios, immersing participants in the most realistic situations possible. Leveraging the frameworks of the Incident Command System (ICS), National Incident Management System (NIMS), and the broader National Response Framework (NRS), participants move from theoretical concepts to practical application by managing live teams of hazmat technicians in full-scale rail and highway scenarios. This is far from your typical ICS forms class.

Open Enrollment / Self-Pay Option

SERTC welcomes all first responders, including federal employees and those in private industry. If you do not qualify for DHS/FEMA funding, you can still register as an Open Enrollment / Self-Pay student. Experience our world-class curriculum and training facility, and gain critical knowledge of protocols for handling surface transportation events involving hazardous materials. Click the "Register for OE" button on the left and follow the steps to register for training.
