Subject: ACCESS EMAIL: Investigator Justin Moyer - skills 8/25/25@Sulphur Springs

Hello,

Your registration for the online **Fire Investigator** course has been processed and you may now access the course.

Here is the link to the online course: <https://elearning.fireintexas.com>

INVESTIGATOR: 7/1/25-8/25/25

Skills Session: 8/25/25 with final exam @8:30a.m.

Location: 1334 Sharon Lane, Sulphur Springs, Tx.

Online coursework Due: no later than 3p.m. on 8/21/25

CAUTION read carefully before proceeding:

- You are required to complete all of the online coursework. This includes all **PowerPoint presentations**, practice tests, and Assessment Exams.
- The PowerPoint presentations are graded behind the scenes based upon the amount of time a student spends on that presentation. Clicking in and out will result in a failing grade. We must be able to document for the Texas Commission on Fire Protection mandatory hours they require per each discipline/course, and they audit on a regular basis.
- All sections must have a passing grade before you are eligible to attend skills.
- Showing up to the skills session without the coursework being complete will result in being sent home and non-completed from the course and students would have to start

over with registration; payment; and redoing all coursework in order to attend the next available session. **Moving skills sessions will now require a \$50 transfer fee per course.**

- Be sure to read your course syllabus that is attached to this access email for further information.
- By proceeding on to your access information below you are acknowledging you have read and understand the above-mentioned guidelines.

Username and password are case sensitive.

Fire in Texas

Fire Investigator Course Syllabus

Fire in Texas Syllabus revised: May 7, 2025
TCFP Updated: January 1, 2023

On-Line Presentation

WELCOME:

It is our pleasure to welcome you to our on-line Fire/Arson Investigator training course. It is our goal to successfully prepare you to master all objectives as required by the Texas Commission on Fire Protection, Texas Education Agency, and all other regulatory agencies to prepare you to obtain your goal to become a certified Fire/Arson Investigator.

REQUIRED TEXTBOOKS:

Each student is required to provide their own textbooks for reference and assignments. In order to comply with the Texas Commission on Fire Protection curriculum the following textbook is required for this course.

Required Textbooks: *Fire Investigator: Principles and Practice to NFPA 921 and 1033, Sixth Edition*
ISBN: 9781284247053

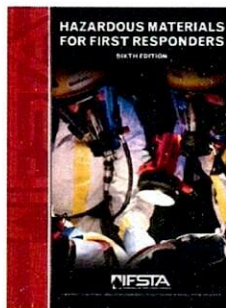

and

NFPA 921: *Guide for Fire and Explosion Investigations* (2021 ed.) can be ordered at www.nfpa.org.

RECOMMENDED TEXTBOOKS:

Kirk's Fire Investigations 7th ed. and Fire Investigator IFSTA 2nd ed.

REFERENCE:

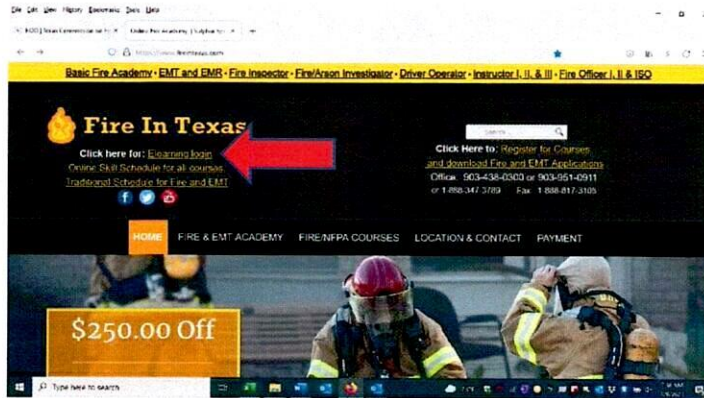

Hazardous Materials for First Responders, 6th Edition

REQUIRED READING:

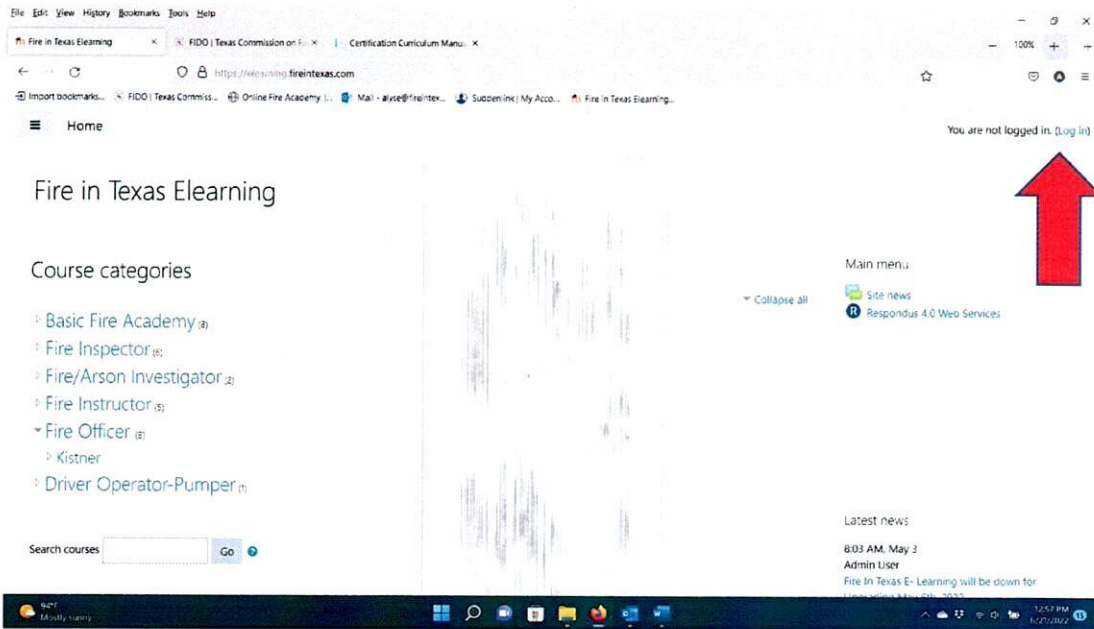

The student is required to read and become familiar with the entire textbook to complete the course requirements. As the student prepares to begin a new section, that entire section shall be read in full prior to the student attempting to complete any portion of the chapter assignments.

On-Line Computer Access

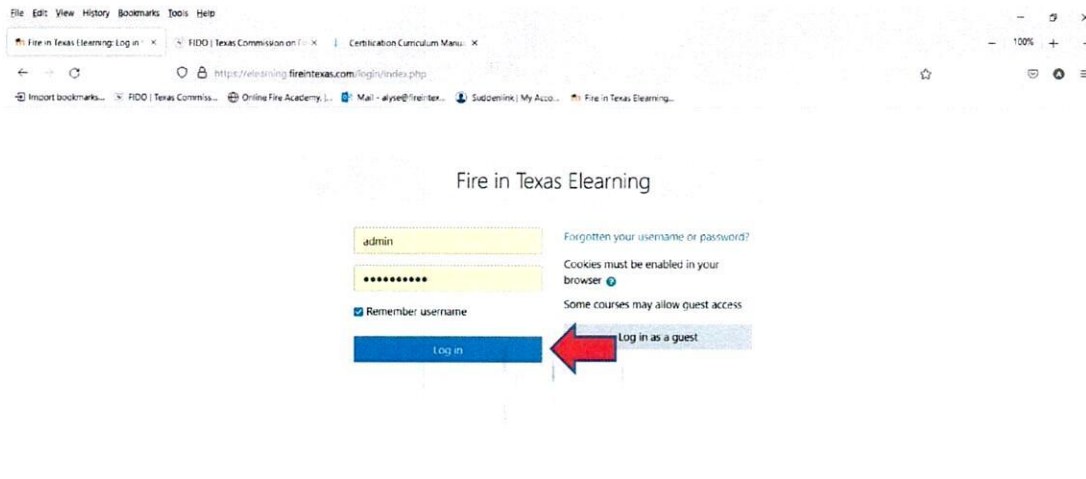

Sign In: The student shall go to: <https://elearning.fireintexas.com> or by going to the www.fireintexas.com website and clicking the login link from the homepage.

Click on the Log in link at the upper right corner.

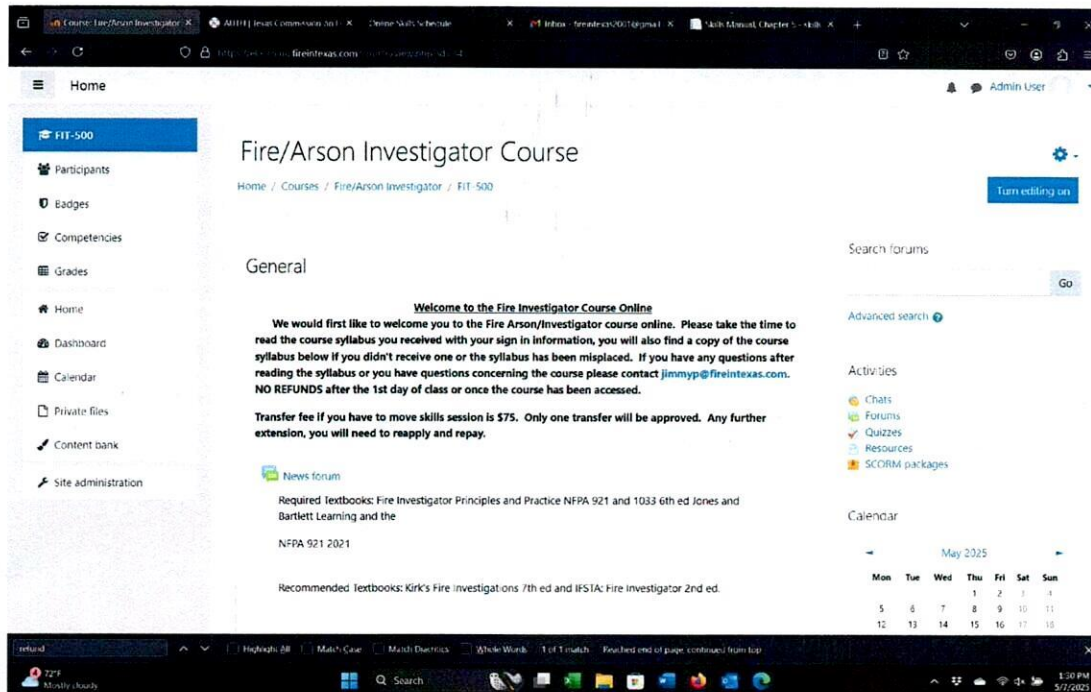

Login Using your username and password that was sent to you in your Access Email.

Click on Login in. When you type in your username and password all courses you are currently enrolled in will be listed.

You will then click on Fire Investigator course.

INSTRUCTION ON-LINE PORTION

The initial portion of training will consist of the on-line portion. The on-line portion will cover eighteen (18) chapters and three (3) chapters under the HazMat Topic. **ALL is required.** Each section will have a power point presentation, a self-study test.

The image is a screenshot of a web browser displaying a course page. The browser's address bar shows the URL 'https://elearning.fireintexas.com/course/view.php?id=34'. The page title is 'Hazardous Materials for First Responders IFSTA 6th ed. Hazardous Materials Awareness'. The page content includes a list of chapters and sections, such as 'Chapter 1: Hazardous Materials Awareness: Hazmat Test 1', 'Chapter 2: Analyzing the Incident: Recognizing and Identifying the Presence of Hazardous Materials', and 'Chapter 3: Implementing the Response: Awareness Level Actions at Hazmat Incidents'. A search bar is visible at the bottom of the page with the text 'topic' and search options like 'Highlight All', 'Match Case', 'Match Diacritics', and 'Whole Words'. The search results show '2 of 10 matches'. The browser's taskbar at the bottom shows the date and time as '7:40 PM 1/1/2023' and the weather as '67°F Partly cloudy'.

The course shall be presented, and the student shall receive the training in order. The student shall not skip ahead to future chapters. Chapter 1 shall be the first chapter covered. Upon completion of the requirements of Chapter 1, the student shall begin Chapter 2 and so on. The presentation builds the terminology, procedures, and concepts as you progress through the program. If a student were to skip ahead, there may be confusion, due to an assumption that all previous materials had been covered.

“IF” you are working on the course and you have a problem with the test, presentation, or quiz loading. Stop, contact us immediately, and start the next chapter so you don’t get behind. Contact: dedee@fireintexas.com or andrea@fireintexas.com.

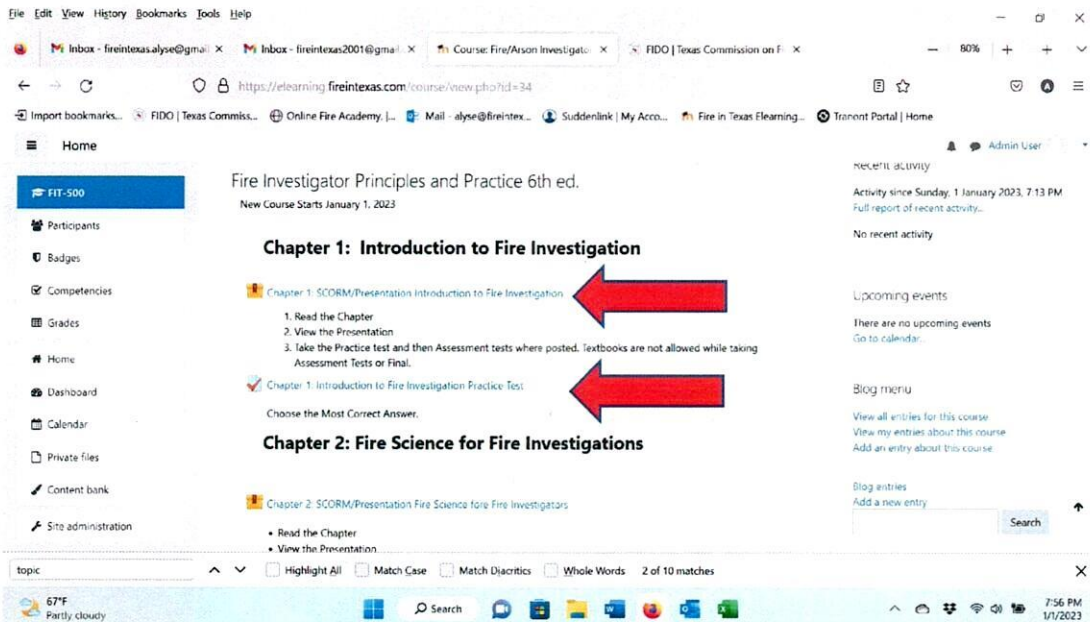

Each student is allotted eight weeks to complete the on-line portion of the course. As mentioned above, there are eighteen chapters and three chapters for the hazmat section in this course. It is our recommendation that the student work towards the goal of completing three chapters each week. If this schedule is followed, ample time will be allotted to complete the course in the eight-week period and time will be allowed for overall review prior to attendance at the hands-on Skills Session.

WARNING! Do NOT get behind! If the student begins the program at a slower pace and the end date approaches, the material will not be studied and absorbed in a manner most beneficial to the student as the student accelerates to meet the deadline.

All on-line course work must be completed in full, or the student will NOT be allowed to attend the hands-on Skills Session as assigned. **This means ALL presentations, ALL practice exams and ALL Assessment Tests.**

Assignments

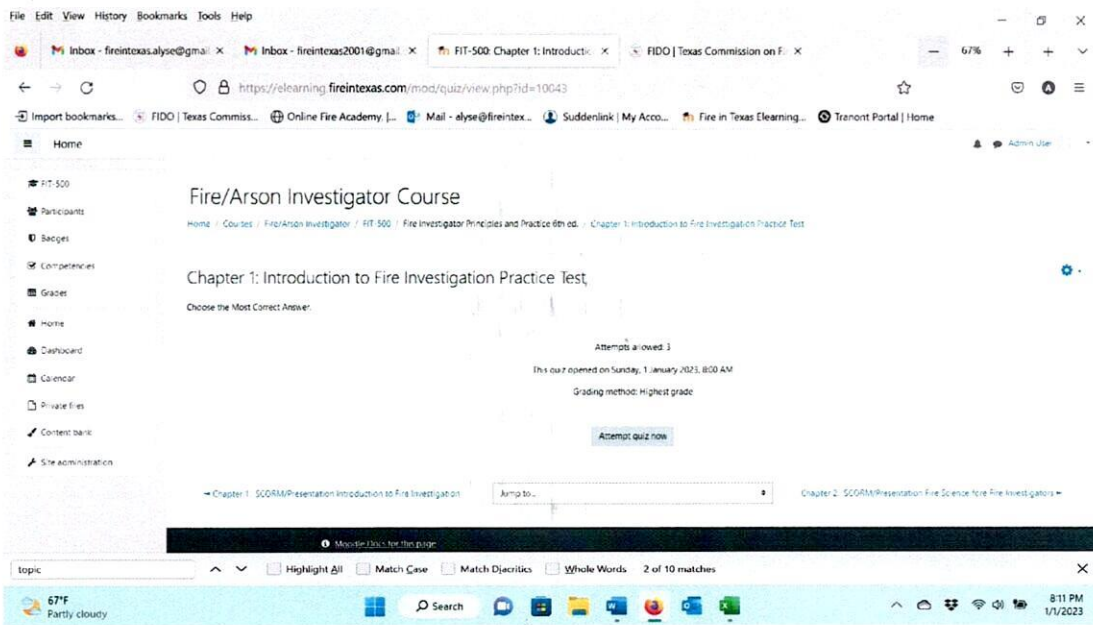

After the student has read the upcoming chapter and has concluded viewing the presentations the student should complete the assessment test or practice test at the end of the section.

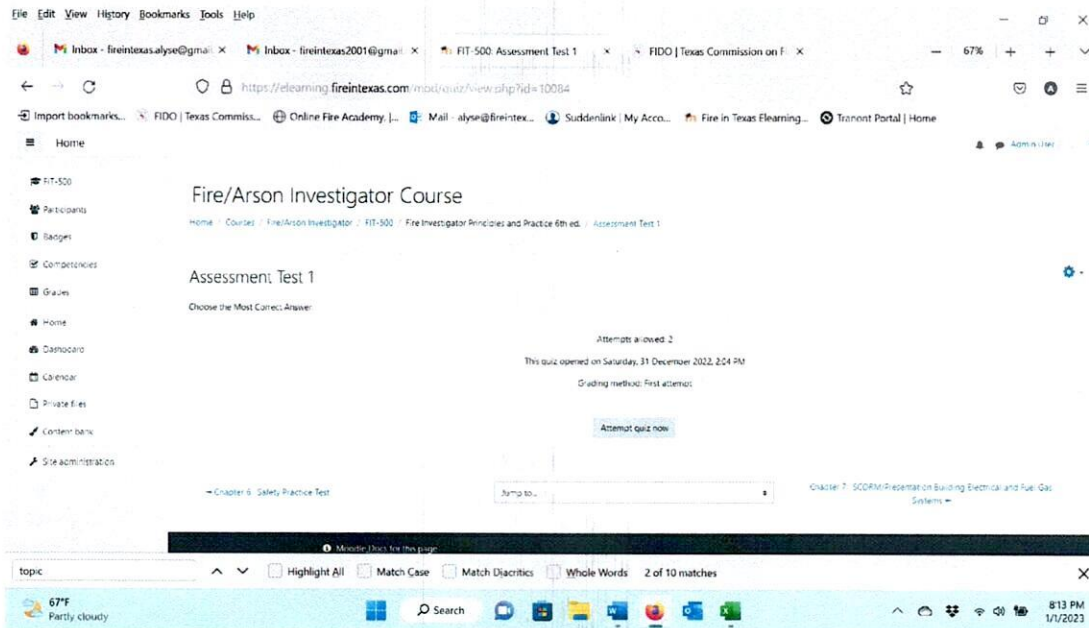

On-Line Practice and Assessment Tests

Do Not Print the Tests!!!!

Catch All, sometimes due to administration or TCFP we must change the parameters of the tests. So please read the instructions before each test it will give you the parameters whether its timed, how many attempts, which attempt is graded.

ASSIGNMENTS:

- Chapter 1: Introduction to Fire Investigation
- Chapter 2: Fire Science for Fire Investigations
- Chapter 3: Building Construction and Systems for Fire Investigators
- Chapter 4: Fire Effects and Patterns
- Chapter 5: Legal Considerations for Fire Investigators
- Chapter 6: Safety
- Chapter 7: Building Electrical and Fuel Gas Systems
- Chapter 8: Examining the Fire Scene
- Chapter 9: Identification, Collection, and Preservation of Physical Evidence
- Chapter 10: Data Collection Outside of the Fire Scene
- Chapter 11: Documenting the Fire Scene
- Chapter 12: Complex Investigations
- Chapter 13: Determining Origin
- Chapter 14: Cause Determination
- Chapter 15: Analyzing the Incident
- Chapter 16: Explosions
- Chapter 17: Automobile, Marine and Equipment Fires
- Chapter 18: Wildland Fire

HAZMAT 6th Edition

- Chapter 1: Introduction to Hazardous Materials
- Chapter 2: Recognize and Identify the Presence of HazMat
- Chapter 3: Initiate Protective Actions

Assessment 1 Test: Covers Chapters 1-6

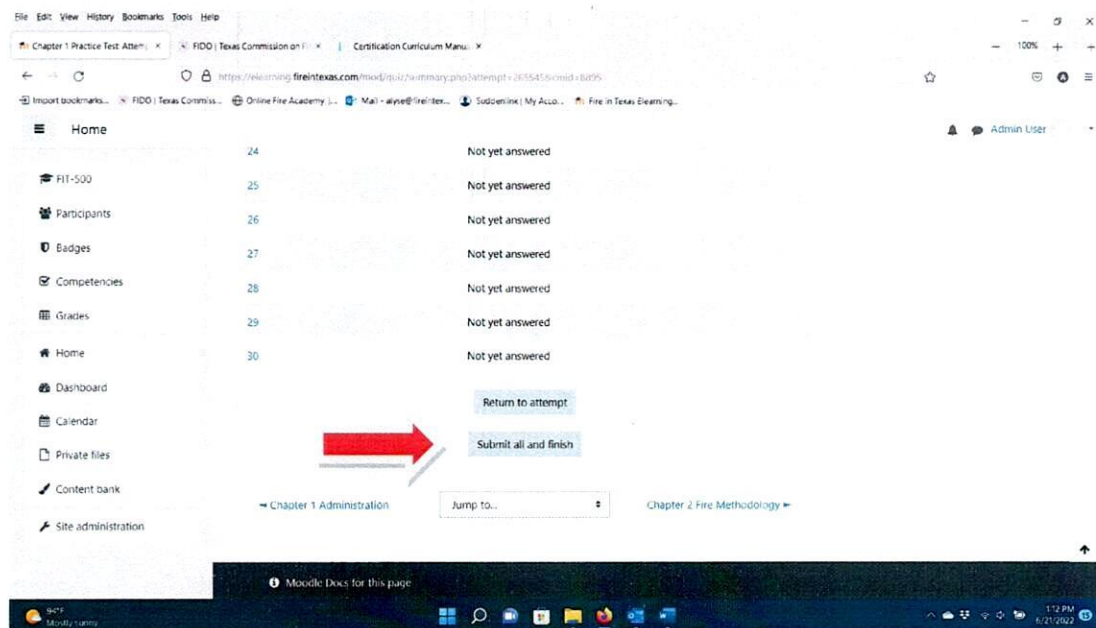

Assessment 2 Test: Covers Chapters 7-12

Assessment 3 Test: Covers Chapters 13-18 and HazMat Chapters 1-3.

The student will find **Assessment tests** are **one (1)** attempt tests and must be passed with a 70 or above. **You will notice that the course has both the 5th and 6th edition HazMat material. The Commission has not updated to the 6th edition yet, but we are anticipating the revision. You do not have to complete both editions of HazMat coursework. Either/or is fine.

- The individual tests will be graded and recorded. The grades of these on-line
- Assessment tests will make up a portion of your overall grade for the course. A minimum passing score of 70% is required on **ALL** assessment tests. **All** practice tests must average a passing grade in order to continue on to the skill session.
- **Practice Test:** **Practice tests** have **unlimited** attempts; the **first attempt** is taken for score; all of the practice tests will be averaged together and must pass with a 70 or above. Once you have read your chapter and viewed the power point presentation you are ready to take your Practice Test. Some sections will not have a practice test.
- There are 3 Assessment Tests worth 30% of the student's grade. Students will have **2 attempts** at each assessment test with the first test score taken for grade. Assessment Tests must have a passing grade of 70%. So, if you fail your first attempt, please make sure you take the second attempt for a passing grade.

Students will receive 1-2 questions at a time. Select your answers, answers may be changed anytime throughout the quiz unless you click the “**Submit all and finish**” button. This will complete the students attempt and submit the practice test for grade.

The student may either return to the attempt to answer any unanswered questions or submit the test for grade. If a student is interrupted while making an attempt on a practice test, please click the “save without submitting” option. This will save your work. If a student is attempting an Assessment test and is interrupted, they may need to contact dedee@fireintexas.com or alyse@fireintexas.com to reset the test and we will have to grant the reset. **This is only for assessment tests.** Practice tests have unlimited attempts to allow you to study for the state test and final. You will have access for 2 months in order to give you time to schedule and take the state test. If more time is needed or you do not have access to study for the state exam, please contact us.

A **Green check** mark shows you marked the correct answer.

The screenshot shows a web-based quiz interface. On the left is a navigation menu with items like 'FIT-500', 'Participants', 'Badges', 'Competencies', 'Grades', 'Home', 'Dashboard', 'Calendar', 'Private files', 'Content bank', and 'Site administration'. The main area displays two questions. Question 28 is 'The definitions used in this textbook are:' with options a. from NFPA 921, b. found in general dictionaries, c. from NFPA 1033, and d. based on courtroom testimony. It is marked 'Correct' and has a green checkmark. Question 29 is 'If a fire investigator seeks clarification on the intent or meaning of an NFPA standard, the technical committee can vote and issue a(n) _____ in response to address the issue.' with options a. errata, b. Temporary Interim Amendment (TIA), c. Formal Interpretation (FI), and d. stop gap. It is marked 'Incorrect' and has a red X. A red arrow points to the red X. The bottom of the screen shows a Windows taskbar with the date 6/21/2022 and time 1:16 PM.

If you missed the question a green check mark still marks the correct answer, however the **Bold red X** shows the answer you chose and that was incorrect.

The screenshot shows a web-based quiz interface. On the left is a navigation menu with items like 'FIT-500', 'Participants', 'Badges', 'Competencies', 'Grades', 'Home', 'Dashboard', 'Calendar', 'Private files', 'Content bank', and 'Site administration'. The main area displays two questions. Question 1 is 'Can jurisdictions enforce requirements that are more stringent than those in NFPA 1033?' with options a. No, b. Only if a technical committee has given permission, c. Yes, and d. In the case of wildland fires but not other fires. It is marked 'Correct' and has a green checkmark. Question 2 is 'The NFPA document used to qualify investigators is:' with options a. NFPA 921, b. NFPA 1031, c. NFPA 1033, and d. NFPA 1035. It is marked 'Incorrect' and has a red X. A red arrow points to the red X. The top right shows a progress bar with questions 19-27, and a 'Start a new preview' button. The bottom of the screen shows a Windows taskbar with the date 6/21/2022 and time 1:19 PM.

You can retake the quiz again right away or you can come back to it at a later date and retake the quiz as a refresher for the material.

Participation grades: Participation grades **include** viewing of presentations, assignments, and participation at the skill session for state skills. If your grade for the participation of presentations is below 70% then you have **failed this section and will not be allowed to attend skills**. Each presentation must be viewed and if it is clicked through as, we know how much time is spent on each slide of each presentation and it is obvious that the presentation was just clicked through then you will not be allowed to attend skills.

Assessment tests and Final Exam must have a passing score of 70% or above to successfully complete and move onto the skill session.

Practice tests must have a 70% average to successfully complete and move onto the skill session.

Student dishonesty will NOT be allowed or tolerated. All work completed during this course must be completed by the student who signed up for the course. Any acts of dishonesty and/or cheating will be addressed, and the student may be dismissed from the course immediately.

Final Test

Final Test: The final exam is proctored face-to-face at the beginning of your skills session. You will not have access to the final exam if you are not onsite for your skills session.

A minimum passing score of 70% is required on the practice tests, 70% or higher passing grade on all Assessment Tests AND 70% overall average on the presentations is required.

OVERALL GRADING

The student's overall grade will be comprised of the following:

Participation grade:	20%
Practice Tests:	10%
Assessment Test:	30%
Final:	40%

Do not attempt to attend your scheduled skill session if you should have ANY assessment tests grades lower than 70% or if they are incomplete, or your practice test average is below 70%. This also means if the Presentations are not completed, do not attempt to attend your skills session. The student will be asked to leave. The student must have an average of 70% or higher for the course once the Participation grades are added into the average to pass the course. Contact Andrea@fireintexas.com or Alyse@fireintexas.com if the student has a failing exam.

In summing up this portion of the on-line training before you even sign on the first time.

1. Read Chapter 1
2. Click the "Log in". **The student will see their course in the left side of the screen.**
3. **Click the link and enter the course.**
4. View the Presentation.
5. Read the directions for the Practice test, Complete the practice test, and/or assessment Test when you come to it.
6. Move to the next Chapter and repeat.

Let's take a look at these icons.

Forums: How to make an entry on the Discussion board for any questions or comments you may have. Or, perhaps while you are involved with the on-line portion, contact is made with the individuals you will be attending Hands on Skills Session and your friendships can begin prior to the hands-on portion.

Chat: Actual real time conversations can occur between students, instructors, or even students from other classes.

Quizzes: This is a direct link to list of practice tests and Assessment exams and attempts made

Resources: This is a link to available resources for the course.

SCORM: This is a link to the list of presentations **required portion of the course.**

Each student will be able to utilize these various functions to make their participation in our program more effective and enjoyable.

We suggest that each student spend some time with these options and see what can assist in your course work.

By clicking on **GRADES**, the student will see his/her grades for the course:

The screenshot shows the course interface for 'Fire/Arson Investigator Course'. On the left sidebar, the 'Grades' menu item is highlighted with a red arrow. The main content area displays a welcome message: 'Welcome to the Fire Investigator Course Online. We would first like to welcome you to the Fire Arson/Investigator course online. Please take the time to read the course syllabus you received with your sign in information, you will also find a copy of the course syllabus below if you didn't receive one or the syllabus has been misplaced. If you have any questions after reading the syllabus or you have questions concerning the course please contact jimmy@fireintexas.com. NO REFUNDS after the 1st day of class or once the course has been accessed. Transfer fee if you have to move skills session is \$75. Only one transfer will be approved. Any further extension, you will need to reapply and repay.' Below this, there is a 'News forum' section with 'Required Textbooks: Fire Investigator Principles and Practice NFPA 921 and 1033 6th ed Jones and Bartlett Learning and the NFPA 921 2021' and 'Recommended Textbooks: Kirk's Fire Investigations 7th ed and IFSTA: Fire Investigator 2nd ed'. The right sidebar contains search forums, advanced search, activities (Chats, Forums, Quizzes, Resources, SCORM packages), and a calendar for May 2025.

By clicking on this icon, a listing of all tests that you have taken will be displayed showing your final scores on each of the assessment tests.

Instructor

The primary instructor for the Investigator course is Jimmy Purcell. During your on-line portion of training, Mr. Purcell will be available to answer your questions, or assist you with any difficulties which you may encounter. Mr. Purcell may be contacted at the following email address: jimmyp@fireintexas.com.

The Coordinator for all programs is Mr. Ronnie Gothard. Mr. Gothard has been involved with the Fire Service essentially his entire life and holds Master Certifications from the Texas Commission on Fire Protection in Suppression, Inspector, Investigator, and Instructor. During his career he has served as Fire Chief/Fire Marshal for two Texas cities, instructed the Associate Degree program for Kilgore College, was employed by the Texas Commission on Fire Protection as the Ft. Worth area Compliance Officer and has been a fire service instructor his entire career.

After your completion of the on-line portion, you will attend a one-day Skill Session in which you will demonstrate mastery of the skills and objectives covered in the on-line portion of this course.

If you have a problem with the course content, please contact Mr. Purcell at the email address above and he will respond to your questions as quickly as possible.

Skills Session

Read very carefully the below information for the skill session.

All online course work (except for the final) must be completed three (3) business days prior to attending an onsite skill session.

Please confirm you will be attending skills with Alyse@fireintexas.com or Andrea@fireintexa.com by email, so you can be added to the state skill roster, and we can pull the students grades to verify the student is eligible for skills. If a student needs to roll to a new skill session, all coursework will have to be deleted and completed again. TCFP sees a student rolling to another skill session a whole new course and all coursework must be completed within the student's start and end dates on their course approval. We cannot change these dates anymore. **There will now be a fee for rolling to a new skill session of \$50.00** and if the 2nd skill session cannot be met; the student will need to noncomplete and register again for the course and repay full price of the tuition. Every time a student rolls to a new skill session all the state paperwork must be redone, and it takes about an hour per student. So please pick your skill sessions carefully.

LOCATION of skills session is the Fire in Texas Fire & EMS Academy located at 1334 Sharon Ln. Sulphur Springs, Texas 75482.

Start time of Final is 8:30 AM.

What to do you need to bring to your skill session?

Bring your textbooks, paper, and pen.

State Written Examination

Contact the testing department with the Texas Commission on Fire Protection website for your state testing options.

Evaluations

At the conclusion of the Fire in Texas Fire Investigator course, each student will have an opportunity to evaluate the entire program. During the hands-on Skills Session, each student will have an opportunity, utilizing Fire in Texas Evaluation forms, to evaluate this entire program, including course content, instructors, materials, etc.

This evaluation process is particularly important to us in order to maintain the quality of program that we strive to provide.

Sounds complicated, doesn't it? After you move around on the site a few times, it will not appear to be nearly as complicated. You may find that some of the icons will not be used as much or possibly even at all, but there are some services there available if it will assist the student in any manner.

Hopefully, this has addressed some of the points of concern that you may have had regarding this course and how it will be administered. If you have any questions, please contact Mr. Purcell at the above-listed contact information.

Refund Policy

No refunds after the 1st class day of the online course or once the course has been accessed.
