EXHIBIT B

Right-of Way Scope of Work

Acquisition Firms are responsible for managing the right-of-way acquisition process, ensuring all activities are accurately documented in the Masterworks.

Key responsibilities:

Performance & Monitoring

Acquisition firms must provide regular progress reports detailing completed tasks, pending actions, and any challenges encountered. Periodic status meetings will be held to review project milestones ensure adherence to timelines and address any issues and ensure all documentation and processes comply with established standards.

Property Verification and Owner Outreach

Acquisition firms begin by verifying ownership details through surveys and preliminary research, ensuring all information is accurate. They update records in the system and initiate contact with property owners, providing required notices, surveys, and the Bill of Rights. All outreach efforts and property details must be accurately recorded in Masterworks to maintain a clear acquisition History.

Title Examination and Documentation

As part of the acquisition process firms work with title companies to open and review title commitments. They examine ownership details and identify any encumbrances, such as liens or judgements.

Valuation and assessment Coordination

To determine fair market value acquisition firms, facilitate property appraisals, coordinating meetings between appraisers and landowners. They document any potential relocation needs and submit appraisal reports for county approval. All appraisal records and valuation assessments must be entered into Masterworks for tracking and approval purposes.

Offer presentation and Negotiation Management

Acquisition firms handle negotiations by formally presenting initial offers to property owners and tracking all interactions. They review counteroffers, ensure accuracy, and submit them for county evaluation. Once the county decides, they issue approval or denial letters. When and if necessary, prepare documentation for condemnation process. Every step of the negotiation, including offers, counteroffers, and property owner communications, must be documented in Masterworks to maintain a complete transaction history.

Finalizing Transactions and Closing Procedures

To complete the acquisition, firms obtain updated title documents, resolve outstanding encumbrances, and coordinate with title companies for closing. They ensure all required paperwork is submitted for

county approval, manage payment requests, and archive final documents. The closing process, including deed transfers and financial transactions must be fully recorded in Masterworks to ensure compliance and proper project closeout.
