FORT BEND COUNTY TOLL ROAD AUTHORITY
FORT BEND GRAND PARKWAY TOLL ROAD AUTHORITY

Re: Resolution ratifying and confirming annual toll adjustments and approving certain other matters relating thereto.

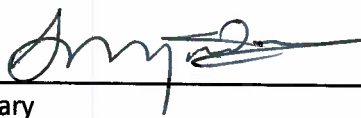

The Board hereby ratifies and confirms the annual toll rate adjustments required by the toll rate setting policies of the Fort Bend County Toll Road Authority and the Fort Bend Grand Parkway Toll Road Authority. Such adjustments shall be effective as of January 1, 2026. A spreadsheet showing the updated toll rate schedule with the annual adjustments is included in the Board Books for the meeting.

The Board hereby authorizes the Chairman, the Executive Director, the Deputy Director or any designee of the foregoing to take such actions, approve such documents, and execute and deliver such agreements as may be necessary or appropriate to implement the toll rate adjustments and to carry out the terms and purposes of this Resolution.

APPROVED

Chairman

ATTEST:

Secretary

Annual Toll Rate Adjustment Effective January 1, 2026

In accordance with the Toll Rate Order, toll rates will be adjusted on January 1, 2026. The Order mandates the use of the Consumer Price Index for All Urban Consumers (CPI-U) for the Houston-Galveston-Brazoria area, as published by the Bureau of Labor Statistics, to determine annual toll rate adjustments.

Per the Toll Rate Order, toll rates must be increased by the greater of 2% or the CPI-U from the previous year. As of August 2025, the 12-month CPI-U change was 1.1%, which is below the 2% threshold. Therefore, toll rates will be adjusted by 2%, in accordance with the policy.

The table below shows the current toll rates by road and plaza along with the rates that will go into effect on January 1, 2026, including the Westpark Tollway FM 1463 Plaza currently under construction.

2026 Toll Rate Calculation Methodology

- Refer to the **Toll Rate Order** for official policy and calculation guidelines.
- The **August 2025 CPI-U** was 1.1%. Since this is below the 2% threshold, apply a **2% adjustment**.
- The **2026 calculated toll rates** are provided in the attached table.
- To determine the **Effective Rate for a 2-axle vehicle with a valid tag**, round the calculated toll rate to the nearest \$0.01.
- To calculate the **Effective Rate for additional axles with a valid tag**, use the formula:

$$(\text{Number of axles} - 1) \times (\text{2 axle effective rate})$$

- To calculate the **Non-Tag Rate**, add **\$0.25** to the effective toll rate.
