

## Get Inspired. Get Ahead!

Join a vibrant community of library and information professionals this March at Computers in Libraries 2026, hosted by Information Today, Inc. — a trusted leader in library technology conferences for over 40 years.

Get inspired, informed, and connected over four dynamic days of practical learning, thought leadership, and hands-on training. Hear from seasoned library leaders and rising voices in the information industry while gaining actionable insights and fresh ideas to take back to your library or organization.

The program is built for a wide range of roles — including librarians, community and information managers, IT and systems professionals, e-resource managers, researchers, webmasters and web managers, archivists, content and museum curators, digital strategists, information specialists, and more — with a focus on emerging technologies that drive engagement, enhance user experience, and deliver real strategic value to communities. Explore the latest tools, trends, and practices to help your library or organization thrive — whether in academic, corporate, public, nonprofit, or school settings.

Computers in Libraries 2026 caters to all interests and all levels of knowledge with five simultaneous tracks, in-depth workshops, and plenty of networking. Join your peers in Arlington, VA this March for this can't miss opportunity to evolve your skills, expand your network, and lead with innovation!

### Top-Notch Content & Speakers

Computers in Libraries 2026 offers a tremendous amount of content featuring dynamic keynotes, mix-and-match in-depth workshops, and over 100 sessions providing tips, insights, and lots to learn. Experience first-hand new and emerging tech of interest to libraries. Learn from and interact with more than 100 knowledgeable speakers following their talks through Q&A, in networking spaces after each session, or by setting up a direct meeting with them.

### Networking, Networking, Networking

Connect with colleagues for more networking and interactive learning than ever before. More events will be added so check back often!

#### **Games & Gadgets Networking Evening**

**Monday | 5:30 p.m. - 7:30 p.m.**

More information regarding this fun and interactive networking event will be announced in late-December when the full program is released. Check back for details.

#### **Continental Breakfast Meet & Greets**

**Tuesday, Wednesday, & Thursday | 8:00 a.m.**

Chat with conference attendees and speakers each morning during our light continental breakfast starting at 8:00 a.m. Look for tables with suggested topics to get the conversation started, or start your own discussion with fellow attendees!
